Simboli e presagi. Guida illustrata al simbolismo magico e spirituale Raymond Buckland,2017

Simboli della politica Francesco Benigno, Luca Scuccimarra,2014-01-14T00:00:00+01:00 Il libro racconta la storia di simboli politicamente decisivi. Alcuni, come il fascio littorio, la falce e il martello, il guerriero di Pontida o la croce di Lorena, si legano ad esperienze collettive che hanno segnato il Novecento. Altri, come il biscione lombardo o i quattro mori sardi, hanno rappresentato per secoli l'espressione di un'identità regionale, mentre la donna turrita è stata figura di un insieme difficile da impersonare, l'Italia. Altri ancora, infine, come il berretto della libertà, hanno interpretato la resistenza alla tirannide e la difesa dei propri diritti. Tutti hanno assunto un significato che andava al di là di un più o meno casuale riferimento culturale. Sono stati oggetto di amore e di odio, di investimenti emotivi e di passioni intellettuali, di violenza cieca e di dedizione spinta fino al sacrificio. Come si spiega questo protagonismo dei simboli e quale senso ha ripercorrerne la storia? E qual è la ragione della loro capacità di mutare, di adattarsi a diversi contesti, di rimanere attivi entro nuovi quadri culturali? A queste domande il libro cerca di rispondere, ricostruendone passo per passo la storia e la mutevole ed agitata vita terrena, alla ricerca del segreto della loro forza e della funzione che hanno svolto, e che svolgono, nella vita politica.

I colori simbolici Giovanni D'Aloe,2004

Dizionario dei riti Mircea Eliade,2020-04-16T00:00:00+02:00 La parola ritu è di origine arcaica indoeuropea.

Nell'antico testo in sanscrito del Rgveda significa l'ordine immanente del cosmo. È sinonimo di dharma, la fede fondamentale del mondo. Dal significato cosmico è derivato quello religioso di necessità, rettitudine, verità. Da qui deriva il senso di ritu, che indica i compiti da svolgere in ogni stagione, in relazione al dharma. Il rito coinvolge la condizione umana e perciò si

colloca all'incrocio tra l'uomo, la cultura, la società e la religione. Ben oltre a ciò, esso è legato al simbolo, al mito e al sacro. Nel significato moderno, il rito indica una pratica regolata: protocollo, società civile, società segreta, religione, liturgia, culto. Può essere privato o pubblico, individuale o collettivo, profano o religioso. Fa parte della condizione umana, è soggetto a regole precise e implica continuità. Le voci che compongono questo volume sono state curate da esperti di etnologia, antropologia, sociologia, filosofia e teologia, dischiudendo al lettore un mondo di significati indispensabili anche per leggere i fenomeni contemporanei. Mircea Eliade, con Georges Dumézil, ha apportato con i suoi studi uno sguardo e un metodo nuovi alla scienza delle religioni, adeguandola allo spirito scientifico e alla ricerca antropologica del XXI secolo, che trova in quest'opera un valido supporto.

The Neapolitan Crèche at the Art Institute of Chicago Art Institute of Chicago, Sylvain Bellenger, Carmine Romano, Jesse Rosenberg, 2016-01-01 The 18th-century Neapolitan crèche at the Art Institute of Chicago, which contains over 200 figures arranged in a panorama of street life, represents the pinnacle of a rich artistic heritage. This luxurious catalogue is the first to study the crèche in the context of art and music history. Essays explore the Neapolitan crèche tradition and examine the design of Chicago's example with reference to other important crèches in Europe and the United States. Entries on individual figures identify the characters and types they represent, as well as their social and historical meaning and religious significance. Other entries address groups of figures, animals, and cultural themes present in the crèche. Together the essays and entries highlight the astonishing realism and potent symbolism of these figures, which range from heavenly angels and the Holy Family around the manger to street vendors and revelers feasting, drinking, and dancing in a tavern.

Cosmogonica. Il fegato di Tiāmat e la soglia misterica del tempo. Dai miti cosmologici del Vicino Oriente Antico ad una nuova interpretazione del fegato etrusco di Piacenza. Antonio Gottarelli, 2017-10-01 Il grande Poema della Creazione babilonese, il mito di Enmeduranki, il libro dei segreti di Enoc, i rotoli di Qumran. Per la prima volta un unico percorso di ricerca svela le connessioni esistenti tra un piccolo modello bronzeo di fegato rinvenuto a Ciavernasco di Piacenza, all'alba dell'unità d'Italia, e la trama occulta di una delle più custodite discipline misteriche dell'antichità. La soglia del tempo, quella che è stabilmente definita dall'alternanza di stato tra il giorno e la notte e che è indotta dal continuo moto di rotazione del quadro celeste, è l'essenza stessa del principio su cui si fonderà l'intera costruzione cosmologica della dimensione concettuale del sacro, cui corrisponderanno, in luoghi e tradizioni differenti, e declinate solo formalmente in tempi e modi diversi, tutte le teorie dottrinali del mondo antico sulla natura del tempo e sulla sua origine. È in questa costruzione

concettuale che l'eredità degli ordinamenti religiosi delle culture mesopotamiche - quella che ritroviamo in occidente ancora espressa all'interno della religione etrusca all'epoca della stesura dei manoscritti di Qumran - si distingue da altre nell'assegnare un ruolo cosmogonico chiave alle funzioni del fegato, in quanto mundus del corpo e "soglia" metafisica posta all'origine della vita e dell'universo stesso. Nella misura in cui i ritmi e le regole del passaggio dei grandi astri e dell'intero quadro celeste sulla soglia tra luce e tenebra costituirono la chiave per avvicinarsi alla comprensione dei Grandi Segreti del Cosmo, era logico immaginare che il Grande Poema della Creazione babilonese indicasse proprio nel fegato di Tiāmat, centro germinatore dell'antica Madre su cui Marduk ricompose il nuovo ordine celeste, la sede vitale per la comprensione "empatica" di quelle leggi. In quanto specchio delle configurazioni "enimmatiche" che il sistema avrebbe assunto nel suo sviluppo temporale futuro, la divinazione basata sull'ispezione del fegato venne considerata in Mesopotamia, e poi ancora presso Greci ed Etruschi, la prima e più importante forma di interrogazione dei destini futuri. Ed è a questa più estesa costruzione cosmologica, e non ai soli e mutevoli esiti delle sentenze da essa derivate, che va più correttamente ricondotta l'interpretazione di uno dei più enigmatici reperti archeologici dell'antichità: il Fegato etrusco di Piacenza.

LE IMMAGINI CELESTI: MONOMERI, DECANI, COSTELLAZIONI E STELLE FISSE IN ASTROLOGIA VOL.I
MONOMERI E DECANI Giacomo Albano, 2017-05-31 Monomeri, decani, stelle fisse e costellazioni possono essere viste come una serie di immagini simboliche che rappresentano tutte le specie di cose che si trovano nel mondo inferiore e le loro proprietà (Marsilio Ficino). È tramite queste immagini simboliche che l'Anima del Mondo crea l'universo sensibile. E così, seguendo anche il pensiero di Giordano Bruno, il lettore imparerà a interpretarle come fasi del processo alchemico tramite cui il Divino si manifesta nel mondo sensibile e torna poi in Se Stesso. Nella seconda parte questi concetti vengono messi in pratica tramite la concreta analisi di temi natali e carte di evento. Alla fine del volume troverete tre tavole che riportano i dati astronomici di più di 700 stelle fisse in ordine alfabetico, per longitudine e per declinazione. Sono poi riportati i confini delle costellazioni secondo due diversi metodi, nonché tutte le 36 immagini dei decani e le 360 dell'antico Calendario Tebaico.
