And you can teach writing with inclusion, equity, and agency at the forefront. Authors Melanie Meehan and Kelsey Sorum show you how to adapt curriculum to meet the needs of the whole child. Each chapter offers intentional steps for responsive instruction across four domains: academic, linguistic, cultural, and social-emotional. Features include: Inspiration, classroom examples, and scaffolded tips for creating individualized resources Customizable information-gathering and planning tools, classroom charts, and writing samples Space for making notes and working through ideas Links to online content, including printable templates Just as you adapt instruction to your students, this book adapts to you. Centering Multilingual Learners and Countering Raciolinguistic Ideologies in Teacher Education Jeff Bale, Shakina Rajendram, Katie Brubacher, Mama Adobea Nii Owoo, Jennifer Burton, Wales Wong, Yiran Zhang, Elizabeth Jean Larson, Antoinette Gagné, Julie Kerekes, 2023-09-12 This book details a three-year, multi-stranded study of teacher education programs that prepare future teachers to work with multilingual learners. The book examines how racism and linguisticism collaborate to shape the conditions under which teacher candidates learn how to teach. The analysis traces dynamic shifts in thinking and practice as participants reflected on their personal, professional and academic experiences in relation to formal curriculum and assessment policies to interpret what it means to work with multilingual learners in the classroom. The book offers guiding principles - above all, learning from multilingual learners, not only about them - and presents a suite of teacher-education practices to disrupt the interplay of language and race that so deeply shapes teacher-candidate learning about multilingual learners.

The Big Book of Tasks for English Language Development, Grades K-8 Nancy Akhavan, 2024-03-26 Ready-to-go English Language Development tasks that focus on students doing the doing of talking, reading, listening, and responding. In recent years, the percentage of English Language Learners (ELLs) has increased in almost every state, so most teachers are faced with the challenge of teaching literacy to students acquiring English alongside English-speaking students. However, in many integrated learning situations, English Language Development (ELD) instruction is strikingly different than the teaching we provide students whose first language is English. *The Big Book of Tasks for English Language Development* helps teachers meet that challenge head-on! Bestselling author and esteemed education consultant Nancy Akhavan shows

that teaching multilingual learners requires changing our instruction to focus on practices that have high impact for students as they acquire language. Yet it's not about doing more— it's about doing smarter. It's about having high expectations for all students and providing scaffolds to support students at all levels of English language proficiency as they learn and grow more confident. All the ready-to-go activities in the book Center on active tasks where students do the thinking, talking, reading, and writing, with appropriate support Activate the domains of language — listening, speaking, reading, and writing — and recognize that these do not develop at the same rate Honor the continuum of language development and build on what students can do Provide teaching tools such as learning targets, suggestions for when to use a task, basic instructions and teacher talk for launching a task, and Watch Fors and Work-Arounds Focus on the linguistic assets multilingual learners bring to the classroom and provide opportunities to help them collaborate with peers With Nancy Akhavan's signature straightforward, teacher-friendly style, this book offers an uplifting reminder that with the right teaching strategies, educators can support multilingual learners to achieve their full potential and thrive in their learning journeys.
