Nonfiction Writing Power Adrienne Gear.2014-02-17 Writing nonfiction is a key skill that students will need throughout their school lives, and beyond. This remarkable book is designed to help teachers develop a writing program that will enable their students to harness all of their Nonfiction Writing Powers: to Describe, to Instruct, to Compare, to Persuade, to Explain, and to Report. It illustrates ways to encourage students to write because they have something to say, and to recognize that writing well means considering intent and purpose, and choosing the best form of expression. Ideal for teaching writing in the content areas, the book includes guidance on linking writing forms to Science, Social Studies, and other subject areas.

Comparing and Contrasting the Impact of the COVID-19 Pandemic in the European Union Linda

Hantrais, Marie-Thérèse Letablier. 2020-11-05 Comparing and Contrasting the Impact of the COVID-19 Pandemic in the European Union challenges the use of uncontextualised comparisons of COVID-19 cases and deaths in member states during the period when Europe was the epicentre of the pandemic. This timely study looks behind the headlines and the statistics to demonstrate the value for knowledge exchange and policy learning of comparisons that are founded on an in-depth understanding of key socio-demographic and public health indicators within their policy settings. The book adopts innovative, integrated, multi-disciplinary international perspectives to track and assess a fast-moving topical subject in an accessible format. It offers a template for analysing policy responses to the COVID-19 pandemic and for using evidence-based comparisons to inform and support policy development.

The Organization Man William H. Whyte. 2013-05-31 Regarded as one of the most important sociological and business commentaries of modern times, *The Organization Man* developed the first thorough description of the impact of mass organization on American society. During the height of the Eisenhower administration, corporations appeared to provide a blissful answer to postwar life with the marketing of new technologies—television, affordable cars, space travel, fast food—and lifestyles, such as carefully planned suburban communities centered around the nuclear family. William H. Whyte

found this phenomenon alarming. As an editor for Fortune magazine, Whyte was well placed to observe corporate America; it became clear to him that the American belief in the perfectibility of society was shifting from one of individual initiative to one that could be achieved at the expense of the individual. With its clear analysis of contemporary working and living arrangements, *The Organization Man* rapidly achieved bestseller status. Since the time of the book's original publication, the American workplace has undergone massive changes. In the 1990s, the rule of large corporations seemed less relevant as small entrepreneurs made fortunes from new technologies, in the process bucking old corporate trends. In fact this new economy appeared to have doomed Whyte's original analysis as an artifact from a bygone day. But the recent collapse of so many startup businesses, gigantic mergers of international conglomerates, and the reality of economic globalization make *The Organization Man* all the more essential as background for understanding today's global market. This edition contains a new foreword by noted journalist and author Joseph Nocera. In an afterword Jenny Bell Whyte describes how *The Organization Man* was written.

New Literacies Debbita Tan Ai Lin,Christine Liew Ching Ling,Ambigapathy Pandian.2014-10-16 The notion of change is central to this book. Across the globe, there exists a pressing need for transformation in the way teachers teach, in the manner by which learners learn, and in our approach towards defining literacy in the 21st century. Historically, the term 'literacy' has been used to primarily denote reading and writing abilities, a designation which is today largely considered both quintessential and overly simplistic. The field of literacy, like many others within the realm of education, has a tendency to evolve and shift from one paradigm to another, vacillating between the demands of globalisation and the implications brought forth by the advent of new technologies. Reading and writing - communication, in essence - is happening in very different ways and via varied avenues; blogs, podcasts, online news, and tablets coupled with countless applications. Such changes are increasingly borderless and rapidly accelerating, and are bound to influence the nature of literacy itself as well as how it is perceived in diverse contexts in different parts of the world. This calls for a reorientation with regard to how researchers, educators and stakeholders view literacy in today's terms.

What English Language Teachers Need to Know II Denise E. Murray,MaryAnn Christison.2010-10-04 Designed for pre-service teachers and teachers new to the field of ELT, Volume II and its companion are companion textbook, Volume I, are volumes organized around the key question: What do teachers need to know and be able to do in order for their students to learn English? Volume I covers the characteristics of the context in which teachers work, how English works and how it is learned, and the teacher's role in the larger professional sphere of English language education. Volume II covers the three main facets of teaching: planning, instructing, and assessing. The focus throughout is on outcomes, that is, student learning. The texts work for teachers across different contexts (countries where English is the dominant language, one of the official languages, or taught as a foreign language); different levels (elementary/primary, secondary, college or university, or adult education), and different learning purposes (general English, workplace English, English for academic purposes, or English for specific purposes).

Silent Film and the Triumph of the American Myth Paula Marantz Cohen.2001-05-03 Silent Film and the Triumph of the American Myth connects the rise of film and the rise of America as a cultural center and twentieth-century world power. Silent film, Paula Cohen reveals, allowed America to sever its literary and linguistic ties to Europe and answer the call by nineteenth-century writers like Emerson, Thoreau and Whitman for an original form of expression compatible with American strengths and weaknesses. When film finally began to talk in 1927, the medium had already done its work. It had helped translate representation into a dynamic visual form and had Americanized the world. Cohen explores the way film emerged as an American medium through its synthesis of three basic elements: the body, the landscape, and the face. Nineteenth-century American culture had already charged these elements with meaning--the body through vaudeville and burlesque, landscape through landscape painting and moving panoramas, and the face through portrait photography. Integrating these popular forms, silent film also developed genres that showcased each of its basic elements: the body in comedy, the landscape in the western, and the face in melodrama. At the same time, it helped produce a new idea of character, embodied in the American movie star. Cohen's book offers a fascinating new perspective on American cultural history. It shows how nineteenth-century literature can be said to anticipate twentieth-century film--how Douglas Fairbanks was, in a sense, successor to Walt Whitman. And rather than condemning the culture of celebrity and consumption that early Hollywood helped inspire, the book highlights the creative and democratic features of the silent-film ethos. Just as notable, Cohen champions the concept of the American myth in the wake of recent attempts to discredit it. She maintains that American silent film helped consolidate and promote a myth of possibility and self-making that continues to dominate the public imagination and stands behind the best impulses of our contemporary world.

The Usage and Impact of ICTs during the Covid-19 Pandemic Shengnan Yang,Xiaohua Zhu,Pnina Fichman.2023-03-03

This book takes a holistic view of the roles of ICTs during the pandemic through the lens of social informatics, as it is critical to our understanding of the relations between society and technology. Specific attention is given to various stakeholders and social contexts, with analysis at the individual, group, community, and society levels. Pushing the boundaries of information science research with timely and critical research questions, this edited volume showcases information science research in the context of COVID-19, by specifically accentuating sociotechnical practices, activities, and ICT interventions during the pandemic. Its social informatics focus appeals to a broad audience, and its global and international orientation provides a timely, innovative, and much-needed perspective to information science. This book is unique in its interdisciplinary nature as it consists of research studies on the intersections between ICTs and health, culture, social interaction, civic engagement, information dissemination, work, and education. Chapters apply a range of research methods, including questionnaire surveys, content analyses, and case studies from countries in Asia, Europe, and America, as well as global and international comparisons. The book's primary target audience includes scholars and students in information and library science, particularly those interested in the social aspect of the information society. It may be of interest to information professionals, library practitioners, educators, and information policymakers, as well as scholars and students in science and technology studies, cultural studies, political science, public administration, sociology, and communication studies.
