A Canadian Year Tania McCartney,2020-06-09 Meet Liam, Ava, Oki, Chloe and Noah — Canadian kids representing a multicultural blend of culture and race that typifies our amazing country. They'll take you through a year in the life of Canada's kids, from celebrations, traditions and events, to our everyday way of life and the little things that make childhood so memorable. Now in paperback, *A Canadian Year* is a picture book bursting with national pride. It's a snapshot of who we are as Canadians, blending our modern-day culture and lifestyle with past traditions and native heritage. Its pages feature meandering text, dates and gorgeous illustrations showcasing our five Canadian kids at play, at school, at home, and enjoying the sights and sites of our nation. From the frozen glaciers of our north to the sweeping prairies, rocky mountains and great lakes, from vibrant cities to tiny towns, this is our Canadian childhood.

Terry Fox and Me Mary Beth Leatherdale,2020-08-04 Celebrating the 40th anniversary of the Terry Fox Marathon of Hope, this picture book biography tells the story of a friendship defined by strength and love. Before Terry Fox become a national hero and icon, he was just a regular kid. But even then, his characteristic strength, determination and loyalty were apparent and were the foundation for his friendship with Doug. The two first met at basketball tryouts in grammar school. Terry was the smallest - and worst - basketball player on the court. But that didn't stop him. With Doug's help, Terry practiced and practiced until he earned a spot on the team. As they grew up, the best friends supported each other, challenged each other, helped each other become better athletes and better people. Doug was by Terry's side every step of the way: when Terry received a diagnosis of cancer in his leg, when he was learning to walk - then run - with a prosthetic leg and while he was training for the race of his life, his Marathon of Hope. Written from Doug's perspective, this story shows that Terry Fox's legacy goes beyond the physical and individual accomplishments of a disabled athlete and honors the true value of friendship.

Revitalizing Endangered Languages Justyna Olko, Julia Sallabank, 2021-01-31 Of the approximately 7,000 languages in the world, at least half may no longer be spoken by the end of the twenty-first century. Languages are endangered by a number of factors, including globalization, education policies, and the political, economic and cultural marginalization of minority groups. This guidebook provides ideas and strategies, as well as some background, to help with the effective revitalization of endangered languages. It covers a broad scope of themes including effective planning, benefits, wellbeing, economic aspects, attitudes and ideologies. The chapter authors have hands-on experience of language revitalization in many countries around the world, and each chapter includes a wealth of examples, such as case studies from specific languages and language areas. Clearly and accessibly written, it is suitable for non-specialists as well as academic researchers and students interested in language revitalization. This book is also available as Open Access on Cambridge Core.

My Guantanamo Diary Mahvish Khan, 2008-01-11 Mahvish Khan is the only Afghan-American to walk into Guantanamo of her own accord. This unique book is her story, and the story of the men she grew to know uniquely well inside the cages of Guantanamo. Mahvish Khan is an American lawyer, born to immigrant Afghan parents. She was outraged that her country, the USA, seemed to have suspended its tradition of equality for all under the law with regard to those imprisoned at Guantanamo Bay in Cuba, and so she volunteered to translate for the lawyers - including British lawyer and founder of Reprieve Clive Stafford Smith - acting pro bono for the prisoners. Because she spoke their language, understood their customs and brought them Starbucks chai, the closest available drink to the kind of tea they would drink at home, they quickly befriended her, offering fatherly advice as well as a uniquely personal insight into their plight, and that of their families thousands of miles away at home. Some at Guantanamo are terrorists who deserve to be convicted and sentenced as such. Some are paediatricians and school teachers. We cannot tell the difference until we see them as individuals with their own unique stories. They deserve that much. No other writer has had access to the detainees. This book is a testament to their captivity. It documents the voices of men who have been tortured and held in a black hole of indefinite detention without legal recourse for years. It shows who they are and also allows readers to see that these men are more similar to us

than they are different.

bookdown Yihui Xie, 2016-12-12 bookdown: Authoring Books and Technical Documents with R Markdown presents a much easier way to write books and technical publications than traditional tools such as LaTeX and Word. The bookdown package inherits the simplicity of syntax and flexibility for data analysis from R Markdown, and extends R Markdown for technical writing, so that you can make better use of document elements such as figures, tables, equations, theorems, citations, and references. Similar to LaTeX, you can number and cross-reference these elements with bookdown. Your document can even include live examples so readers can interact with them while reading the book. The book can be rendered to multiple output formats, including LaTeX/PDF, HTML, EPUB, and Word, thus making it easy to put your documents online. The style and theme of these output formats can be customized. We used books and R primarily for examples in this book, but bookdown is not only for books or R. Most features introduced in this book also apply to other types of publications: journal papers, reports, dissertations, course handouts, study notes, and even novels. You do not have to use R, either. Other choices of computing languages include Python, C, C++, SQL, Bash, Stan, JavaScript, and so on, although R is best supported. You can also leave out computing, for example, to write a fiction. This book itself is an example of publishing with bookdown and R Markdown, and its source is fully available on GitHub.

Language Assessment H. Douglas Brown, 2018-03-16 Language Assessment: Principles and Classroom Practices is designed to offer a comprehensive survey of essential principles and tools for second language assessment. Its first and second editions have been successfully used in teacher-training courses, teacher certification curricula, and TESOL master of arts programs. As the third in a trilogy of teacher education textbooks, it is designed to follow H. Douglas Brown's other two books, Principles of Language Learning and Teaching (sixth edition, Pearson Education, 2014) and Teaching by Principles (fourth edition, Pearson Education, 2015). References to those two books are made throughout the current book. Language Assessment features uncomplicated prose and a systematic, spiraling organization. Concepts are introduced with practical examples, understandable explanations, and succinct references to supportive research. The research literature on language assessment can be quite complex and assume that readers have technical knowledge and experience in testing. By the end of Language Assessment, however, readers will have gained access to this not-so-frightening field. They will have a working knowledge of a number of useful, fundamental principles of assessment and will have applied those principles to practical classroom contexts. They will also have acquired a storehouse of useful tools for evaluating and designing practical, effective assessment techniques for their classrooms.

Multiword expressions Manfred Sailer, Stella Markantonatou, Multiword expressions (MWEs) are a challenge for both the natural language applications and the linguistic theory because they often defy the application of the machinery developed for free combinations where the default is that the meaning of an utterance can be predicted from its structure.

There is a rich body of primarily descriptive work on MWEs for many European languages but comparative work is little. The volume brings together MWE experts to explore the benefits of a multilingual perspective on MWEs. The ten contributions in this volume look at MWEs in Bulgarian, English, French, German, Maori, Modern Greek, Romanian, Serbian, and Spanish. They discuss prominent issues in MWE research such as classification of MWEs, their formal grammatical modeling, and the description of individual MWE types from the point of view of different theoretical frameworks, such as Dependency Grammar, Generative Grammar, Head-driven Phrase Structure Grammar, Lexical Functional Grammar, Lexicon Grammar.

Worship by the Book Rev. Mark Ashton, R. Kent Hughes, Timothy Keller, 2010-06-01 “What is at stake is authenticity. . . . Sooner or later Christians tire of public meetings that are profoundly inauthentic, regardless of how well (or poorly) arranged, directed, performed. We long to meet, corporately, with the living and majestic God and to offer him the praise that is his due.”—D. A. Carson Worship is a hot topic, but the ways that Christians from different traditions view it vary greatly. What is worship? More important, what does it look like in action, both in our corporate gatherings and in our daily lives? These concerns—the blending of principle and practice—are what *Worship by the Book* addresses. Cutting through cultural clichés, D. A. Carson, Mark Ashton, Kent Hughes, and Timothy Keller explore, respectively: · *Worship Under the Word* · *Following in Cranmer’s Footsteps* · *Free Church Worship: The Challenge of Freedom* · *Reformed Worship in the Global City* “This is not a comprehensive theology of worship,” writes Carson. “Still less is it a sociological analysis of current trends or a minister’s manual chockfull of ‘how to’ instructions.” Rather, this book offers pastors, other congregational leaders, and seminary students a thought-provoking biblical theology of worship, followed by a look at how three very different traditions of churchmanship might move from this theological base to a better understanding of corporate worship. Running the gamut from biblical theology to historical assessment all the way to sample service sheets, *Worship by the Book* shows how local churches in diverse traditions can foster corporate worship that is God-honoring, Word-revering, heartfelt, and historically and culturally informed.

Princesses Versus Dinosaurs Linda Bailey, 2020-09-15 Two popular storybook titans, princesses and dinosaurs, battle to determine who should star in this laugh-out-loud picture book for fans of *Shark vs Train* and *The Book With No Pictures*. This is a princess book! No, it's a dinosaur book! No, it's . . . a T. rex book? A dragon book? A rubber ducky book?! From Linda Bailey, award-winning and critically acclaimed author, and Joy Ang, *Adventure Time*-artist and illustrator of the *Mustache Baby* series, comes an irresistibly irreverent picture book in which plucky princesses and determined dinosaurs have a battle royale over whose book this is. When they start calling in the big guns -- or rather, the big carnivores -- and decide to build a wall to resolve their differences, princesses and dinosaurs alike learn a thing or two about open-mindedness and sharing.

The New New Journalism Robert Boynton, 2007-12-18 Forty years after Tom Wolfe, Hunter S. Thompson, and Gay Talese launched the New Journalism movement, Robert S. Boynton sits down with nineteen practitioners of what he calls the

New New Journalism to discuss their methods, writings and careers. The New New Journalists are first and foremost brilliant reporters who immerse themselves completely in their subjects. Jon Krakauer accompanies a mountaineering expedition to Everest. Ted Conover works for nearly a year as a prison guard. Susan Orlean follows orchid fanciers to reveal an obsessive subculture few knew existed. Adrian Nicole LeBlanc spends nearly a decade reporting on a family in the South Bronx. And like their muckraking early twentieth-century precursors, they are drawn to the most pressing issues of the day: Alex Kotlowitz, Leon Dash, and William Finnegan to race and class; Ron Rosenbaum to the problem of evil; Michael Lewis to boom-and-bust economies; Richard Ben Cramer to the nitty gritty of politics. How do they do it? In these interviews, they reveal the techniques and inspirations behind their acclaimed works, from their felt-tip pens, tape recorders, long car rides, and assumed identities; to their intimate understanding of the way a truly great story unfolds. Interviews with: Gay Talese Jane Kramer Calvin Trillin Richard Ben Cramer Ted Conover Alex Kotlowitz Richard Preston William Langewiesche Eric Schlosser Leon Dash William Finnegan Jonathan Harr Jon Krakauer Adrian Nicole LeBlanc Michael Lewis Susan Orlean Ron Rosenbaum Lawrence Weschler Lawrence Wright

Understanding Game-based Approaches for Improving Sustainable Water Governance Wietske Medema, Chengzi Chew, Jan Franklin Adamowski, Igor Mayer, Arjen Wals, 2020-04-28 The sustainable governance of water resources relies on processes of multi-stakeholder collaborations and interactions that facilitate knowledge co-creation and social learning. Governance systems are often fragmented, forming a barrier to adequately addressing the myriad of challenges affecting water resources, including climate change, increased urbanized populations, and pollution. Transitions towards sustainable water governance will likely require innovative learning partnerships between public, private, and civil society stakeholders. It is essential that such partnerships involve vertical and horizontal communication of ideas and knowledge, and an enabling and democratic environment characterized by informal and open discourse. There is increasing interest in learning-based transitions. Thus far, much scholarly thinking and, to a lesser degree, empirical research has gone into understanding the potential impact of social learning on multi-stakeholder settings. The question of whether such learning can be supported by forms of serious gaming has hardly been asked. This Special Issue critically explores the potential of serious games to support multi-stakeholder social learning and collaborations in the context of water governance. Serious games may involve simulations of real-world events and processes and are challenge players to solve contemporary societal problems; they, therefore, have a purpose beyond entertainment. They offer a largely untapped potential to support social learning and collaboration by facilitating access to and the exchange of knowledge and information, enhancing stakeholder interactions, empowering a wider audience to participate in decision making, and providing opportunities to test and analyze the outcomes of policies and management solutions. Little is known about how game-based approaches can be used in the context of collaborative water governance to maximize their potential for social learning. While several studies have reported

examples of serious games, there is comparably less research about how to assess the impacts of serious games on social learning and transformative change.
