Services in Global Value Chains Patrick Low, Gloria O Pasadilla, 2016-06-21 This compilation of 22 firm-specific case studies is an important contribution to the discussion of 'servicification' trends in manufacturing. 'Services have increased in importance and value in many manufacturing value chains, making companies that produce physical products look more like service enterprises. What services do global value chains use in their operations, how important are they and how do economic policies shape firms' configurations, operations, and location of global value chains? This book addresses these questions and more. The interviewed firms, based in 12 APEC economies, come from different sectors ranging from multinational automotive, construction equipment, and electrical appliance manufacturers to small and medium manufacturers of watches or chemical for water treatment. The book analyses what specific services are important in different stages of the value chain, and whether they are typically provided in-house or outsourced. Contents: Manufacturing-Related Services (Patrick Low and Gloria O Pasadilla) Manufacturing of Aircraft Control Systems in the Philippines (Andre Wirjo and Gloria O Pasadilla) Industrial Welding Services in Thailand (William Haines) Manufacturing of Mining and Construction Equipment (David Sit and Patrick Low) Manufacturing of Computer Servers (Yuhua Zhang) Wastewater Treatment Services (Arian Hassani and Andre Wirjo) Manufacturing of Automotive Components in the ASEAN Region (Denise Cheung) Manufacturing of Oil and Gas Industry Equipment in Singapore (Andre Wirjo and Gloria O Pasadilla) Car Manufacturing in the Philippines (Sherry Stephenson) Manufacturing of Thermal Power Generation Equipment (Gloria O

The Water Footprint Assessment Manual Maite M. Aldaya,Ashok K. Chapagain,Arjen Y. Hoekstra,Mesfin M. Mekonnen,2012-08-21 People use lots of water for drinking, cooking and washing, but significantly more for producing things such as food, paper and cotton clothes. The water footprint is an indicator of water use that looks at both direct and indirect water use of a consumer or producer. Indirect use refers to the 'virtual water' embedded in tradable goods and commodities, such as cereals, sugar or cotton. The water footprint of an individual, community or business is defined as the total volume of freshwater that is used to produce the goods and services consumed by the individual or community or produced by the business. This book offers a complete and up-to-date overview of the global standard on water footprint assessment as developed by the Water Footprint Network. More specifically it:

- o Provides a comprehensive set of methods for water footprint assessment
- o Shows how water footprints can be calculated for individual processes and products, as well as for consumers, nations and businesses
- o Contains detailed worked examples of how to calculate green, blue and grey water footprints
- o Describes how to assess the sustainability of the aggregated water footprint within a river basin or the water footprint of a specific product
- o Includes an extensive library of possible measures that can contribute to water footprint reduction

The Fingerprint U. S. Department Justice, 2014-08-02 The idea of The Fingerprint Sourcebook originated during a meeting in April 2002. Individuals representing the fingerprint, academic, and scientific communities met in Chicago, Illinois, for a day and a half to discuss the state of fingerprint identification with a view toward the challenges raised by Daubert issues. The meeting was a joint project between the International Association for Identification (IAI) and West Virginia University (WVU). One recommendation that came out of that meeting was a suggestion to create a sourcebook for friction ridge examiners, that is, a single source of researched information regarding the subject. This sourcebook would provide educational, training, and research information for the international scientific community.

Global Business Regulation John Braithwaite, Peter Drahos, 2000-02-13 How has the regulation of business shifted from national to global institutions? What are the mechanisms of globalization? Who are the key actors? What of democratic sovereignty? In which cases has globalization been successfully resisted? These questions are confronted across an amazing sweep of the critical areas of business regulation--from contract, intellectual property and corporations law, to trade, telecommunications, labor standards, drugs, food, transport and environment. This book examines the role played by global institutions such as the World Trade Organization, World Health Organization, the OECD, IMF, Moodys and the World Bank, as well as various NGOs and significant individuals. Incorporating both history and analysis, Global Business Regulation will become the standard reference for readers in business, law, politics, and international relations.

Sacred Time Christine Valters Paintner,2021-02 We live in a world where there never seems to be enough time for all we want and need to do. In *Sacred Time: Embracing an Intentional Way of Life*, Christine Valters Paintner guides us as we move beyond our own lives and embrace a world that urges us toward rest, reflection, and growth. In *Sacred Time*, Paintner, abbess of the online Abbey of the Arts, shows us how by becoming in tune with the rhythms of the natural world, we can live more intentionally and experience a conversion toward a more expansive way of being. Paintner introduces us to the eight cycles of sacred time that exist in our everyday lives. These cycles that can ground us through our busy lives are breath, rhythms of the day, weekly rhythms and Sabbath rest, waxing and waning lunar cycles, seasons of the year, seasons of a lifetime, ancestral time, and cosmic time. Each cycle encourages us to mindfully consider the time that passes as quickly as each breath and as slowly as the passing of generations. Within each cycle, we find wisdom from sacred tradition and the saints, including St. Benedict, St. Ignatius of Loyola, and St. Hildegard of Bingen; room for growth; and the presence of the Divine. Along the way, we are also given scriptural guidance, and we are invited to spiritual practices and creative explorations that will help deepen our understanding of each cycle, allow that understanding to take root in our lives, and expand our lives beyond the pressures of each da
