**Digger, Dozer, Dumper** Hope Vestergaard, 2018-08-14 Sixteen boisterous, rhyming poems — each one highlighting the job and personality of a different vehicle, from a backhoe to an ambulance to a snowplow — invite young children to meet their favorite trucks face-to-face. Cheerful illustrations show each one in action, digging (or dozing, or dumping) away. Engaging visual details like an anxious turtle crossing the street just ahead of a steamroller are sure to keep preschoolers poring over the pages as they consider the question, "Trucks as far as eyes can see. . . . Which truck would you like to be?"

**Following His Bliss** Alex Leslie, 2022-03 After suffering a personal tragedy, Mikey Bradshaw is forced to reassess his

life choices. Instead of working in a job he hates to please his domineering father, he decides to leave the big city behind for a slower pace of life in the country, pursuing his dream of being an artist. While the little town of Cooper's Landing and the handsome local cop welcome him with open arms, Mikey soon discovers that life in the country may not be as peaceful as he anticipated. Wayne Townsend is the sole police officer in Cooper's Landing. While his town is quiet and relatively crime-free, Wayne dreams of a little action once in a while. He gets more than he bargained for when a hot city boy moves to town and begins receiving threats from an unknown assailant. Despite the friendly faces of the quirky townsfolk, Cooper's Landing has a dark secret - and someone will stop at nothing to keep it under wraps. Who is targeting Mikey and why? Can Wayne uncover the mystery and win the city boy's heart before someone gets killed? This 47k standalone novel features a slow burn romance, mystery, suspense, a cast of fun country characters and a cafe run by two former BDSM Doms!

**The Craft and Science of Coffee** Britta Folmer,2016-12-16 The Craft and Science of Coffee follows the coffee plant from its origins in East Africa to its current role as a global product that influences millions of lives through sustainable development, economics, and consumer desire. For most, coffee is a beloved beverage. However, for some it is also an object of scientific study, and for others it is approached as a craft, both building on skills and experience. By combining the research and insights of the scientific community and expertise of the crafts people, this unique book brings readers into a sustained and inclusive conversation, one where academic and industrial thought leaders, coffee farmers, and baristas are quoted, each informing and enriching each other. This unusual approach guides the reader on a journey from coffee farmer to roaster, market analyst to barista, in a style that is both rigorous and experience based, universally relevant and personally engaging. From on-farming processes to consumer benefits, the reader is given a deeper appreciation and understanding of coffee's complexity and is invited to form their own educated opinions on the ever changing situation, including potential routes to further shape the coffee future in a responsible manner. Presents a novel synthesis of coffee research and real-world experience that aids understanding, appreciation, and potential action. Includes contributions from a multitude of experts who address complex subjects with a conversational approach. Provides expert discourse on the coffee value chain, from agricultural and production practices, sustainability, post-harvest processing, and quality aspects to the economic analysis of the consumer value proposition. Engages with the key challenges of future coffee production and potential solutions.

*Women Also Serve* Sylvia Whitlock,2015-03-09 The Rotary Club of Duarte, California, was chartered in District 530 in 1952. But just before its twenty-fifth birthday in 1976, the Duarte club violated Rotary's bylaws by inviting women to join, ultimately causing its charter to be unceremoniously revoked by Rotary International. Undeterred, the club renamed itself the Ex-Rotary Club of Duarte and its members continued on their quest not to be outcasts of one of the greatest humanitarian

organizations in the world. Filled with facts and personal anecdotes, the first woman president in Rotary International shares a fascinating glimpse into the journey of the Duarte club. Sylvia Whitlock, who was present as the club enlisted help from the American Civil Liberties Union and took the case through the California court system until a landmark decision in May 1987, details the circumstances of the case as women struggled to attain equal rights, her role in the process, conversations with participants and onlookers, and the benefits she has gained personally through her own membership. *Women Also Serve* shares a compelling history of the Duarte Rotary Club and its lofty undertaking to recruit women into its chapter through the perspective of one who was there.

*Indigenous Data Sovereignty* Tahu Kukutai, John Taylor, 2016-11-14 As the global 'data revolution' accelerates, how can the data rights and interests of indigenous peoples be secured? Premised on the United Nations Declaration on the Rights of Indigenous Peoples, this book argues that indigenous peoples have inherent and inalienable rights relating to the collection, ownership and application of data about them, and about their lifeways and territories. As the first book to focus on indigenous data sovereignty, it asks: what does data sovereignty mean for indigenous peoples, and how is it being used in their pursuit of self-determination? The varied group of mostly indigenous contributors theorise and conceptualise this fast-emerging field and present case studies that illustrate the challenges and opportunities involved. These range from indigenous communities grappling with issues of identity, governance and development, to national governments and NGOs seeking to formulate a response to indigenous demands for data ownership. While the book is focused on the CANZUS states of Canada, Australia, Aotearoa/New Zealand and the United States, much of the content and discussion will be of interest and practical value to a broader global audience. 'A debate-shaping book ... it speaks to a fast-emerging field; it has a lot of important things to say; and the timing is right.' — Stephen Cornell, Professor of Sociology and Faculty Chair of the Native Nations Institute, University of Arizona 'The effort ... in this book to theorise and conceptualise data sovereignty and its links to the realisation of the rights of indigenous peoples is pioneering and laudable.' — Victoria Tauli-Corpuz, UN Special Rapporteur on the Rights of Indigenous Peoples, Baguio City, Philippines

**An Introduction to Community Development** Rhonda Phillips, Robert Pittman, 2014-11-26 Beginning with the foundations of community development, *An Introduction to Community Development* offers a comprehensive and practical approach to planning for communities. Road-tested in the authors' own teaching, and through the training they provide for practicing planners, it enables students to begin making connections between academic study and practical know-how from both private and public sector contexts. *An Introduction to Community Development* shows how planners can utilize local economic interests and integrate finance and marketing considerations into their strategy. Most importantly, the book is strongly focused on outcomes, encouraging students to ask: what is best practice when it comes to planning for communities, and how do we accurately measure the results of planning practice? This newly revised and updated edition includes:

increased coverage of sustainability issues, discussion of localism and its relation to community development, quality of life, community well-being and public health considerations, and content on local food systems. Each chapter provides a range of reading materials for the student, supplemented with text boxes, a chapter outline, keywords, and reference lists, and new skills based exercises at the end of each chapter to help students turn their learning into action, making this the most user-friendly text for community development now available.
