Will Buck Wile's luck finally change, or is he destined to keep dancing with Ol' Eleven? Excerpt: And I'm going to sue that singer Charlie Wilson too. He's the one who put the notion in my head about going out to the mall and meeting some chicks. And just like he sung, there she was sitting in the food court sipping lemonade. Well, my mama had been riding my butt about me needing a job, so I said, let me kill two birds with one stone and go fill out some job applications and see some fine women too. I had on my nice blue business suit when I introduced myself. She was coy and pretended to be uninterested, but I made sure my eleven was nicely outlined in my pants as I sat down at her table. I told her I was into investments. That's not a lie. I spend a lot of time in the study of making money. Me and an older chick spent a weekend down at the casino investing her husband's money. She told him she had gone to Louisiana to attend her aunt's funeral. Well, she did go to the wake. But that's another story. So my girl sipped her lemonade. I asked her name. She said, "Celie." "What kind of countrified name is that?" I blurted out before thinking. "So. My mama liked the Color Purple when she was carrying me. If you don't like my name, you sho ain't got to call it. It's plenty other women out here with prettier names looking for some broke busters."

National Magazine1897

Butts Heather Radke. 2022-11-29 "Winning, cheeky, and illuminating....What appears initially as a folly with a look-at-this cover and title becomes, thanks to Radke's intelligence and curiosity, something much meatier, entertaining, and wise." —The Washington Post "Lively and thorough, *Butts* is the best kind of nonfiction." —Esquire, Best Books of 2022 A "carefully researched and reported work of cultural history" (The New York Times) that explores how one body part has influenced the female—and human—experience for centuries, and what that obsession reveals about our lives today. Whether we love them or hate them, think they're sexy, think they're strange, consider them too big, too small, or anywhere in between, humans have a complicated relationship with butts. It is a body part unique to humans, critical to our evolution and survival, and yet it has come to signify so much more: sex, desire, comedy, shame. A woman's butt, in particular, is forever being assessed,

criticized, and objectified, from anxious self-examinations trying on jeans in department store dressing rooms to enduring crass remarks while walking down a street or high school hallways. But why? In *Butts: A Backstory*, reporter, essayist, and RadioLab contributing editor Heather Radke is determined to find out. Spanning nearly two centuries, this “whip-smart” (Publishers Weekly, starred review) cultural history takes us from the performance halls of 19th-century London to the aerobics studios of the 1980s, the music video set of Sir Mix-a-Lot’s “Baby Got Back” and the mountains of Arizona, where every year humans and horses race in a feat of gluteal endurance. Along the way, she meets evolutionary biologists who study how butts first developed; models whose measurements have defined jean sizing for millions of women; and the fitness gurus who created fads like “Buns of Steel.” She also examines the central importance of race through figures like Sarah Bartmann, once known as the “Venus Hottentot,” Josephine Baker, Jennifer Lopez, and other women of color whose butts have been idolized, envied, and despised. Part deep dive reportage, part personal journey, part cabinet of curiosities, *Butts* is an entertaining, illuminating, and thoughtful examination of why certain silhouettes come in and out of fashion—and how larger ideas about race, control, liberation, and power affect our most private feelings about ourselves and others.

Art as Revolt David Fancy,Hans Skott-Myhre.2019-08-30 How can we imagine a future not driven by capitalist assumptions about humans and the wider world? How are a range of contemporary artistic and popular cultural practices already providing pathways to post-capitalist futures? Authors from a variety of disciplines answer these questions through writings on blues and hip hop, virtual reality, post-colonial science fiction, virtual gaming, riot grrrls and punk, raku pottery, post-pornography fanzines, zombie films, and role playing. The essays in Art as Revolt are clustered around themes such as technology and the future, aesthetics and resistance, and ethnographies of the self beyond traditional understandings of

identity. Using philosophies of immanence - describing a system that gives rise to itself, independent of outside forces - drawn from a rich and evolving tradition that includes Spinoza, Nietzsche, Deleuze, and Braidotti, the authors and editors provide an engrossing range of analysis and speculation. Together the essays, written by experts in their fields, stage an important collective, transdisciplinary conversation about how best to talk about art and politics today. Sophisticated in its theoretical and philosophical premises, and engaging some of the most pressing questions in cultural studies and artistic practice today, *Art as Revolt* does not provide comfortable closure. Instead, it is understood by its authors to be a “Dionysian machine,” a generator of open-ended possibility and potential that challenges readers to affirm their own belief in the futures of this world. Contributors include Timothy J. Beck (University of West Georgia) Mark Bishop (Independent Scholar), Dave Collins (University of West Georgia), David Fancy (Brock University), Veronica Pacini-Ketchabaw (University of Western Ontario), Malisa Kurtz (Independent Scholar), Nicole Land (Ryerson University), Eric Lochhead (Youth Author Calgary Alberta) , Douglas Ord (Doctoral Student University of Western Ontario), Peter Rehberg (Institute for Cultural Inquiry—Berlin), Chris Richardson (Young Harris College), Hans Skott-Myhre (Kennesaw State University), Kathleen Skott-Myhre (University of West Georgia), and Joanna Wasiak (Independent Scholar).
