Sham Steve Salerno,2005-06-21 Self-help: To millions of Americans it seems like a godsend. To many others it seems like a joke. But as investigative reporter Steve Salerno reveals in this groundbreaking book, it's neither—in fact it's much worse than a joke. Going deep inside the Self-Help and Actualization Movement (fittingly, the words form the acronym SHAM), Salerno offers the first serious exposé of this multibillion-dollar industry and the real damage it is doing—not just to its paying customers, but to all of American society. Based on the author's extensive reporting—and the inside look at the industry he got while working at a leading "lifestyle" publisher—SHAM shows how thinly credentialed "experts" now dispense advice on everything from mental health to relationships to diet to personal finance to business strategy. Americans spend upward of \$8 billion every year on self-help programs and products. And those staggering financial costs are actually the least of our worries. SHAM demonstrates how the self-help movement's core philosophies have infected virtually every aspect of American life—the home, the workplace, the schools, and more. And Salerno exposes the downside of being uplifted, showing how the "empowering" message that dominates self-help today proves just as damaging as the blame-shifting rhetoric of self-help's "Recovery" movement. SHAM also reveals: • How self-help gurus conduct extensive market research to reach the same customers over and over—without ever helping them • The inside story on the most notorious gurus—from Dr. Phil to Dr. Laura, from Tony Robbins to John Gray • How your company might be wasting money on motivational speakers, "executive coaches," and other quick fixes that often hurt quality, productivity, and morale • How the Recovery movement has eradicated notions of personal responsibility by labeling just about anything—from drug abuse to "sex addiction" to shoplifting—a dysfunction or disease • How Americans blindly accept that twelve-step programs offer the

only hope of treating addiction, when in fact these programs can do more harm than good • How the self-help movement inspired the disastrous emphasis on self-esteem in our schools • How self-help rhetoric has pushed people away from proven medical treatments by persuading them that they can cure themselves through sheer application of will As Salerno shows, to describe self-help as a waste of time and money vastly understates its collateral damage. And with SHAM, the self-help industry has finally been called to account for the damage it has done. Also available as an eBook

Make It Happen Jordanna Levin,2019-05-06 A fun, practical and easy-to-follow guide to manifestation for a whole new generation. 'Like a best friend, Jordanna will hold your hand and guide you towards your dream life.' - Melissa Ambrosini, bestselling author of *Mastering Your Mean Girl* 'Witty, practical and laugh out loud funny.' - Cassie Mendoza-Jones, *You Are Enough* Everyone can manifest. We're all doing it-every second of every day-without even realising it. For years, journalist and podcaster Jordanna Levin thought that she was psychic. She would worry about things and they would come true. But she wouldn't just worry; she would feel them, take subconscious action towards them and believe with every cell of her being that they would happen-and most of the time, they did. A broken foot, a cancelled flight, a tragic love story... the list went on. She soon realised that she wasn't just predicting the future, she was manifesting it. Until one day she changed the game. If she could manifest mishaps and disasters, why not the things she actually wanted? In this warm and witty book, Jordanna shares her personal experiences and struggles along with her foolproof equation for manifesting whatever you desire, from your dream job to a lasting relationship. Whether you're a matter-of-fact skeptic or a somewhat hippie yoga-lover, *Make It Happen* will empower you to take ownership of your life and create anything you want.

Thirteen Steve Cavanagh,2019-08-13 *Thirteen* is the legal thriller Lee Child, Michael Connelly, and Ruth Ware are raving about and readers can't put down. "Outstanding - an intriguing premise, a tense, gripping build-up, and a spectacular climax. This guy is the real deal. Trust me." —Lee Child "A dead bang BEAST of a book that expertly combines Cavanagh's authority on the law with an absolutely great thrill ride. Books this ingenious don't come along very often." —Michael Connelly It's the murder trial of the century. And Joshua Kane has killed to get the best seat in the house - and to be sure the wrong man goes down for the crime. Because this time, the killer isn't on trial. He's on the jury. But there's someone on his tail. Former-conman-turned-criminal-defense-attorney Eddie Flynn doesn't believe that his movie-star client killed two people. He suspects that the real killer is closer than they think - but who would guess just how close? "A brilliant, twisty, ingeniously constructed puzzle of a book. Steve Cavanagh pulls off an enviable premise with panache." —Ruth Ware

German Ecocriticism in the Anthropocene Caroline Schaumann, Heather I. Sullivan, 2017-04-18 This book offers essays on both canonical and non-canonical German-language texts and films, advancing ecocritical models for German Studies, and introducing environmental issues in German literature and film to a broader audience. This volume contextualizes the broad-ranging topics and authors in terms of the Anthropocene, beginning with Goethe and the Romantics and extending into twenty-first-century literature and film. Addressing the growing need for environmental awareness in an international humanities curriculum, this book complements ecocritical analyses emerging from North American and British studies with a specifically German Studies perspective, opening the door to a transnational understanding of how the environment plays an integral role in cultural, political, and economic issues.

The Reader Bernhard Schlink, 2001-05-01 INTERNATIONAL BESTSELLER • Hailed for its coiled eroticism and the moral claims it makes upon the reader, this mesmerizing novel is a story of love and secrets, horror and compassion, unfolding against the haunted landscape of postwar Germany. A formally beautiful, disturbing and finally morally devastating novel. —Los Angeles Times When he falls ill on his way home from school, fifteen-year-old Michael Berg is rescued by Hanna, a woman twice his age. In time she becomes his lover—then she inexplicably disappears. When Michael next sees her, he is a young law student, and she is on trial for a hideous crime. As he watches her refuse to defend her innocence, Michael gradually realizes that Hanna may be guarding a secret she considers more shameful than murder.

Writing the Revolution Raphael Hörmann, 2011 This study investigates German and English revolutionary literary discourse between 1819 and 1848/49. Marked by dramatic socioeconomic transformations, this period witnessed a pronounced transnational shift from the concept of political revolution to one of social revolution. *Writing the Revolution* engages with literary authors, radical journalists, early proletarian pamphleteers, and political theorists, tracing their demands for social liberation, as well as their struggles with the specter of proletarian revolution. The book argues that these ideological battles translated into competing poetics of revolution. (Series: Kulturgeschichtliche Perspektiven - Vol. 10)

Critical Theory - Past, Present, Future Anders Bartonek, Sven-Olov Wallenstein, 2021-01-12 From its inception, Critical Theory was a project that not only intended to study modern society, but also to change it. Today, with almost a century passed, the term has acquired a life of its own and is used across the intellectual field, institutionally as well geographically. Thus, to ask about the past, present, and future of Critical Theory means opening it up and exposing it to new influences. This is a consequence of the claim that theory is not outside history, but must always respond to a changing present grasped in its contradictions and opened up towards other possibilities; a process that involves a constant reappraisal of what Critical Theory is today.

Problematizing Intelligence Studies Hager Ben Jaffel, Sebastian Larsson, 2022-06-14 This book offers a new research

agenda for intelligence studies in contemporary times. In contrast to Intelligence Studies (IS), whose aim has largely been to improve the performance of national security services and assist in policy making, this book takes the investigation of the new professionals and everyday practices of intelligence as the immediate point of departure. Starting from the observation that intelligence today is increasingly about counter-terrorism, crime control, surveillance, and other security-related issues, this book adopts a transdisciplinary approach for studying the shifting logics of intelligence, how it has come to involve an expanding number of empirical sites, such as the police, local community, prison and the Internet, as well as a corresponding multiplicity of new actors in these domains. Shifting the focus away from traditional spies and Anglo-American intelligence services, this book addresses the transformations of contemporary intelligence through empirically detailed and theoretically innovative analyses, making a key contribution to existing scholarship. This book will be of much interest to students of intelligence studies, critical security studies, foreign policy, and International Relations.

Lion Lights: My Invention That Made Peace with Lions Richard Turere, Shelly Pollock, 2022-08-02 Winner of the 2023 Children's Africana Book Award (CABA), which is awarded by The Center for African Studies at Howard University. Outstanding Science Trade Book for 2022 by the National Science Teaching Association and the Children's Book Council. California Eureka Silver Honoree 2022 A story of ingenuity and perseverance. Richard Turere's own story: Richard grew up in Kenya as a Maasai boy, herding his family's cattle, which represented their wealth and livelihood. Richard's challenge was to protect their cattle from the lions who prowled the night just outside the barrier of acacia branches that surrounded the farm's boma, or stockade. Though not well-educated, 12-year-old Richard loved tinkering with electronics. Using salvaged components, spending \$10, he surrounded the boma with blinking lights, and the system works; it keeps lions away. His invention, Lion Lights, is now used in Africa, Asia, and South America to protect farm animals from predators.

City of the Mind Penelope Lively, 2010-05-27 City of the Mind is the second novel by Booker Prize winning author Penelope Lively. 'This is the city in which everything is simultaneous. There is no yesterday, nor tomorrow, merely weather, and decay, and construction.' In London's changing heartland, architect Matthew Halland is aware of how the past and the present blend. It stirs memories of his boyhood, the early years of his daughter Jane and the failed marriage that he has almost put behind him. Here too is the London of prehistory, of Georgian elegance, of the Blitz. But Matthew is occupied with constructing a new future for London in Docklands, and with it he begins to forge new beginnings of his own. 'A glorious novel' Observer 'The descriptions of the London Blitz are achingly real' Sunday Telegraph Penelope Lively is the author of many prize-winning novels and short-story collections for both adults and children. She has twice been shortlisted for the Booker Prize: once in 1977 for her first novel, *The Road to Lichfield*, and again in 1984 for *According to Mark*.
