Between Mission and Market Daniel Rosenberg,2017-04-26 *Between Mission and Market: The Freshman Year in a Corporate Age* focuses on the arrival of college freshmen at the moment of the transformation; it uses Adelphi University in suburban New York City to study an attempt to resolve first-year difficulties. As higher education institutions turn into enterprises run on business models, the pressures of getting into college, including the taking of the SAT and ACT, have induced stress, addictions, eating disorders, drug use, and mental problems. However, special programs to ease the first-year transition through counseling and support are run as cheaply as possible. This book confronts some of the cardinal controversies in higher education, particularly those affecting first-year students: high-stakes testing in general (particularly the SAT), the intensification of student debt and the financial sentence imposed upon all who incur it, and the dramatic pressures placed upon freshmen as they transition to college.

After Civil Rights John D. Skrentny,2014 A provocative new approach to race in the workplace What role should racial difference play in the American workplace? As a nation, we rely on civil rights law to address this question, and the monumental Civil Rights Act of 1964 seemingly answered it: race must not be a factor in workplace decisions. In *After Civil Rights*, John Skrentny contends that after decades of mass immigration, many employers, Democratic and Republican

political leaders, and advocates have adopted a new strategy to manage race and work. Race is now relevant not only in negative cases of discrimination, but in more positive ways as well. In today's workplace, employers routinely practice racial realism, where they view race as real—as a job qualification. Many believe employee racial differences, and sometimes immigrant status, correspond to unique abilities or evoke desirable reactions from clients or citizens. They also see racial diversity as a way to increase workplace dynamism. The problem is that when employers see race as useful for organizational effectiveness, they are often in violation of civil rights law. After *Civil Rights* examines this emerging strategy in a wide range of employment situations, including the low-skilled sector, professional and white-collar jobs, and entertainment and media. In this important book, Skrentny urges us to acknowledge the racial realism already occurring, and lays out a series of reforms that, if enacted, would bring the law and lived experience more in line, yet still remain respectful of the need to protect the civil rights of all workers.

Testing in the Professions Susan Davis-Becker, Chad W. Buckendahl, 2017-03-16 Testing in the Professions focuses on current practices in credentialing testing as a guide for practitioners. With a broad focus on the key components, issues, and concerns surrounding the test development and validation process, this book brings together a wide range of research and theory—from design and analysis of tests to security, scoring, and reporting. Written by leading experts in the field of measurement and assessment, each chapter includes authentic examples as to how various practices are implemented or

current issues observed in credentialing programs. The volume begins with an exploration of the various types of credentialing programs as well as key differences in the interpretation and evaluation of test scores. The next set of chapters discusses key test development steps, including test design, content development, analysis, and evaluation. The final set of chapters addresses specific topics that span the testing process, including communication with stakeholders, security, program evaluation, and legal principles. As a response to the growing number of professions and professional designations that are tied to testing requirements, *Testing in the Professions* is a comprehensive source for up-to-date measurement and credentialing practices.

Freedom in the World 2014 Freedom House, 2014-12-11 Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 195 countries and fourteen territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

COMPUGIRLS Kimberly A. Scott, 2021-10-19 What does it mean for girls of color to become techno-social change agents--individuals who fuse technological savvy with a deep understanding of society in order to analyze and confront inequality? Kimberly A. Scott explores this question and others as she details the National Science Foundation-funded enrichment project COMPUGIRLS. This groundbreaking initiative teaches tech skills to adolescent girls of color but, as importantly, offers a setting that emphasizes empowerment, community advancement, and self-discovery. Scott draws on her experience as an architect of COMPUGIRLS to detail the difficulties of translating participants' lives into a digital context while tracing how the program evolved. The dramatic stories of the participants show them blending newly developed technical and communication skills in ways designed to spark effective action and bring about important change. A

compelling merger of theory and storytelling, COMPUGIRLS provides a much-needed roadmap for understanding how girls of color can find and define their selves in today's digital age.

Evaluating Conclusions in Light of Known Facts National Learning Corporation,2018 The General Aptitude and Abilities Series provides functional, intensive test practice and drill in the basic skills and areas common to many civil service, general aptitude or achievement examinations necessary for entrance into schools or occupations.
