The Beast Oscar Martinez,2014-06-03 An Economist and Financial Times “Best Book of the Year” “Harrowing” true stories from two years of immersion reporting on the migrant trail from Chiapas to Arizona—an “honorable successor to enduring works like George Orwell’s *The Road to Wigan Pier*” (New York Times) One day a few years ago, 300 migrants were kidnapped between the remote desert towns of Altar, Mexico, and Sasabe, Arizona. A local priest got 120 released, many with broken ankles and other marks of abuse, but the rest vanished. Óscar Martínez, a young writer from El Salvador, was in Altar soon after the abduction, and his account of the migrant disappearances is only one of the harrowing stories he garnered from two years spent traveling up and down the migrant trail from Central America and across the US border. More than a quarter of a million Central Americans make this increasingly dangerous journey each year, and each year as many as 20,000 of them are kidnapped. Martínez writes in powerful, unforgettable prose about clinging to the tops of freight trains; finding respite, work and hardship in shelters and brothels; and riding shotgun with the border patrol. Illustrated with stunning full-color photographs, *The Beast* is the first book to shed light on the harsh new reality of the migrant trail in the age of the narcotraficantes.

A Manual for Cleaning Women Lucia Berlin,2015-08-18 I have always had faith that the best writers will rise to the top, like cream, sooner or later, and will become exactly as well-known as they should be-their work talked about, quoted, taught, performed, filmed, set to music, anthologized. Perhaps, with the present collection, Lucia Berlin will begin to gain the attention she deserves. -Lydia Davis *A MANUAL FOR CLEANING WOMEN* compiles the best work of the legendary short-story writer Lucia Berlin. With the grit of Raymond Carver, the humor of Grace Paley, and a blend of wit and melancholy all her own, Berlin crafts miracles from the everyday, uncovering moments of grace in the Laundromats and halfway houses of the American Southwest, in the homes of the Bay Area upper class, among switchboard operators and struggling mothers, hitchhikers and bad Christians. Readers will revel in this remarkable collection from a master of the form and wonder how

they'd ever overlooked her in the first place.

Using Women Nancy Campbell,2002-12-24 From the 1950s 'girl junkie' to the 1990s 'crack mom', *Using Women* investigates how the cultural representations of women drug users have defined America's drug policies in this century. In analyzing the public's continued fear, horror and outrage wrought by the specter of women using drugs, Nancy Campbell demonstrates the importance that public opinion and popular culture have played in regulating women's lives. The book will chronicle the history of women and drug use, provide a critical policy analysis of the government's drug policies and offer recommendations for the direction our current drug policies should take. *Using Women* includes such chapters as 'Sex, Drugs and Race in the Age of Dope'; 'Regulating Adolescents in the Postwar US'; 'Fifties Femininity'; and 'Regulating Maternal Instinct'.

Sleep Medicine and Mental Health Karim Sedky,Racha Nazir,David Bennett,2020-07-22 Advances in sleep medicine research are improving our clinical work for individuals with sleep problems. The aim of this book is to educate psychiatrists and other mental health professionals about the importance of understanding sleep disorders, including their bidirectional

relationship with psychiatric conditions. This book consists of six major sections with seventeen chapters. It is led off by an introduction on the function of sleep, its neurophysiology, and types of sleep problems. Since insomnia represents a common and significant challenge for patients with psychiatric disorders, its clinical presentation and treatments are reviewed in the second section. Cognitive behavioral therapy for insomnia (CBT-I), mindfulness-based CBT, acceptance and commitment therapy (ACT), and the medication management of insomnia are reviewed. A third section addresses sleep related breathing disorders. The pathology of sleep apnea, its treatments, and therapeutic modalities to address non-compliance with positive pressure ventilation are reviewed. Other sleep disorders such as hypersomnia, circadian rhythm disorders, movement disorders and parasomnias are discussed in the fourth section. Since features of sleep disorders can vary by age, gender, and trauma history, a fifth section discusses the unique sleep problems associated with children, women, older adults, and veterans. The book concludes with a final section discussing how sleep disorders and psychiatric conditions overlap. We hope this book highlights the importance of understanding and addressing comorbid sleep disorders among individuals with psychiatric conditions. We are confident that this book will be valuable in helping clinicians improve the management of sleep disorders in their clinical practice.

Hip John Leland,2009-10-13 Hip: The History is the story of how American pop culture has evolved throughout the twentieth century to its current position as world cultural touchstone. How did hip become such an obsession? From sex and music to fashion and commerce, John Leland tracks the arc of ideas as they move from subterranean Bohemia to Madison Avenue and back again. Hip: The History examines how hip has helped shape -- and continues to influence -- America's view of itself, and provides an incisive account of hip's quest for authenticity. This P.S. edition features an extra 16 pages of insights into the book, including author interviews, recommended reading, and more.

Crossing the Rubicon Michael C. Ruppert,2004-09-15 The acclaimed investigative reporter and author of *Confronting Collapse* examines the global forces that led to 9/11 in this provocative exposé. The attacks of September 11, 2001 were accomplished through an amazing orchestration of logistics and personnel. *Crossing the Rubicon* examines how such a conspiracy was possible through an interdisciplinary analysis of petroleum, geopolitics, narco-traffic, intelligence and militarism—without which 9/11 cannot be understood. In reality, 9/11 and the resulting War on Terror are parts of a massive authoritarian response to an emerging economic crisis of unprecedented scale. Peak Oil—the beginning of the end for our industrial civilization—is driving the elites of American power to implement unthinkably draconian measures of repression,

warfare and population control. Crossing the Rubicon is more than a story of corruption and greed. It is a map of the perilous terrain through which we are all now making our way.

Trans/Feminisms Associate Professor of Gender and Women's Studies Susan Stryker,Susan Stryker,Talia Mae Bettcher,2016-05-30 TSQ: Transgender Studies Quarterly offers a high-profile venue for innovative research and scholarship that contest the objectification, pathologization, and exoticization of transgender lives. It publishes interdisciplinary work that explores the diversity of gender, sex, sexuality, embodiment, and identity in ways that have not been adequately addressed by feminist and queer scholarship. Its mission is to foster a vigorous conversation among scholars, artists, activists, and others that examines how transgender comes into play as a category, a process, a social assemblage, an increasingly intelligible gender identity, an identifiable threat to gender normativity, and a rubric for understanding the variability and contingency of gender across time, space, and cultures. Major topics addressed in the first few issues include the cultural production of trans communities, critical analysis of transgender population studies, transgender biopolitics, radical critiques of political economy, and problems of translating gender concepts and practices across linguistic communities--Publisher's website.

Hillary (and Bill). Victor Thorn,2008-01-01 110: Is the Clinton 'Body Count' Real? This question has plagued the former first couple for nearly 20 years, and has become such an integral part of popular culture that Hillary has been forced to sarcastically refer to it in press conferences. (Some people even say we're involved in drug dealing and murder.) Still, is the Clinton Body Count real, or simply an urban legend-a product of far-flung conspiracy theory? In Part Three of the Clinton trilogy-The Murder Volume-an overwhelming amount of evidence is provided proving that the 110+ people who've died under mysterious circumstances-all tied in some way, shape, or form to the Clintons-far surpasses any chance of it merely being coincidence. The odds of such a phenomenon occurring naturally are, in fact, so miniscule that alternative explanations become necessary. Other Topics Covered: True Motive forWaco Holocaust -and the Person Who Ordered the Massacre-Revealed! Proof Positive Vince Foster Was Murdered. Now See the Killer Revealed for the First Time! Understanding and Preventing HIV Risk Behavior Stuart Oskamp, Suzanne C. Thompson, 1996-07-29 Bringing together some of the most active and respected researchers in the field, this volume presents a state-of-the-art, integrated examination of behavioral research aimed at reducing the transmission of HIV. In almost 20 years of battling the AIDS epidemic, one theme has consistently emerged: The solution to stopping the spread of the AIDS virus rests with individual behavior. *Understanding and Preventing HIV Risk Behavior* grapples with the critical question of how to influence people to change high-risk behaviors, particularly in sexual activity and drug use. The contributors take an in-depth look at the most current HIV and AIDS epidemiological findings; the information-motivation-behavioral skills model of risk behavior; and empirical analyses of contraceptive decision making, denial processes, and the role of attraction in heterosexual behavior. This timely volume also examines research with specific populations, including African American youths, Latinos, both gay and straight residents of HIV-impacted communities, active drug users, and adolescents in countries that have different AIDS risk levels and public health policies.

Generations on the Land Joe Nick Patoski, 2011-01-28 To keep the land in the family . . . To operate the land profitably . . . To leave the land better than they found it . . . Each year, Sand County Foundation's prestigious Leopold Conservation Award recognizes families for leadership in voluntary conservation and ethical land management. In *Generations on the Land: A Conservation Legacy*, veteran author and journalist Joe Nick Patoski visits eight of the award-winning families, presenting warm, heartfelt conversations about the families, their beloved land, and a vision for a healthier world. *Generations on the Land* celebrates these families' roles as conservation leaders for the nation—far beyond the agricultural communities where they live—and reinforces the value of trans-generational family commitment to good land stewardship. The eight landowners profiled by Patoski include six ranchers, a forester, and a vintner. They reside across the country: in California, Nebraska, Texas, Utah, Wisconsin, and Wyoming. Their conservation accomplishments range from providing a habitat corridor for pronghorn antelope to hammering out an endangered species “safe harbor” agreement for grape growers. A short introduction by a fellow conservation or ranching professional precedes each of the personal portraits by Patoski, which are written in an informal, conversational style. Brent Haglund, president of the Sand County Foundation, provides an introduction to the purpose and work of the foundation, and a conclusion summarizes the substantive conservation contributions of the Leopold award winners. With more and more attention being focused on the tensions between the agricultural and economic potential of land and the preservation of the natural environment, a better understanding of sustainable agriculture is becoming increasingly vital. By showcasing the leadership of these Leopold Conservation Award winners, *Generations on the Land* will inspire a whole new cadre of landowners to build a lasting heritage of conservation

and sustainable land use—benefitting the earth and its inhabitants for decades to come. Paper used in printing this book was provided by Mixed Sources: materials manufactured under certification by the Forest Stewardship Council. In 1939, Aldo Leopold wrote 'When land does well for its owner, and the owner does well for his land, when both end up better by reason of this partnership, we have conservation.' *Generations on the Land* demonstrates this simple yet powerful concept through a series of inspirational and instructional essays drawn from hardworking landowners from across the nation. Whether you manage a working landscape yourself, or are one of the urban many seeking insights into how humanity can achieve a sustainable future, you need to study this book.--Richard C. Bartlett, Thinking Like a Mountain Foundation
