*The Mountains Sing* Que Mai Phan Nguyen.2021-03-16 The International Bestseller A New York Times Editors' Choice Selection A Winner of the 2020 Lannan Literary Awards Fellowship [An] absorbing, stirring novel . . . that, in more than one sense, remedies history. —The New York Times Book Review “A triumph, a novelistic rendition of one of the most difficult times in Vietnamese history . . . Vast in scope and intimate in its telling . . . Moving and riveting.” —VIET THANH NGUYEN, author of *The Sympathizer*, winner of the Pulitzer Prize With the epic sweep of Min Jin Lee's *Pachinko* or Yaa Gyasi's *Homegoing* and the lyrical beauty of Vaddey Ratner's *In the Shadow of the Banyan*, *The Mountains Sing* tells an enveloping, multigenerational tale of the Trần family, set against the backdrop of the Việt Nam War. Trần Diệu Lan, who was born in 1920, was forced to flee her family farm with her six children during the Land Reform as the Communist government rose in the North. Years later in Hà Nội, her young granddaughter, Hương, comes of age as her parents and uncles head off down the Hồ Chí Minh Trail to fight in a conflict that tore apart not just her beloved country, but also her family. Vivid, gripping, and steeped in the language and traditions of Việt Nam, *The Mountains Sing* brings to life the human costs of this conflict from the point of view of the Vietnamese people themselves, while showing us the true power of kindness and hope. *The Mountains Sing* is celebrated Vietnamese poet Nguyễn Phan Quế Mai's first novel in English.

**Vulnerability as generativity** Cristiana Ottaviano,Alessia Santambrogio.2018-04-10T00:00:00+02:00 This book focuses on parenthood and generativity, considered not only a set of biological functions, but as human and socio-cultural capabilities above and beyond gender differences. The authors reconsider in particular the institution of motherhood, emphasizing the historical and social function of women. Alongside a reflection on the gender role of women as mothers and wives, this

volume explores male identities and fatherhood. While claiming that parenthood and care are human characteristics - and not just gendered or female attributes - the authors suggest the adoption of a gynanic perspective on inter-gender relationships.

**Impossible Languages** Andrea Moro.2016-09-02 An investigation into the possibility of impossible languages, searching for the indelible “fingerprint” of human language. Can there be such a thing as an impossible human language? A biologist could describe an impossible animal as one that goes against the physical laws of nature (entropy, for example, or gravity). Are there any such laws that constrain languages? In this book, Andrea Moro—a distinguished linguist and neuroscientist—investigates the possibility of impossible languages, searching, as he does so, for the indelible “fingerprint” of human language. Moro shows how the very notion of impossible languages has helped shape research on the ultimate aim of linguistics: to define the class of possible human languages. He takes us beyond the boundaries of Babel, to the set of properties that, despite appearances, all languages share, and explores the sources of that order, drawing on scientific experiments he himself helped design. Moro compares syntax to the reverse side of a tapestry revealing a hidden and apparently intricate structure. He describes the brain as a sieve, considers the reality of (linguistic) trees, and listens for the sound of thought by recording electrical activity in the brain. Words and sentences, he tells us, are like symphonies and constellations: they have no content of their own; they exist because we listen to them and look at them. We are part of the data.

**Education Policy Outlook 2019 Working Together to Help Students Achieve their Potential** OECD.2019-09-16 Taking the perspective of institutions and the system, Education Policy Outlook 2019: Working Together to Help Students Achieve their Potential, analyses the evolution of key education priorities and key education policies in 43 education systems. It compares more recent developments in education policy ecosystems (mainly between 2015 and 2019) with various education policies adopted between 2008 and 2014.

**Europe in Identity Crisis** Carlo Altomonte, Antonio Villafranca.2020-01-12 Today’s European Union is in an identity crisis as it seems to be losing its points of reference. The principles that upheld its creation are being increasingly questioned around the world and within the EU itself. Its chances to survive hinge upon its ability to deliver at home and abroad, without abandoning its values and principles but rather adapting and re-launching them. This volume offers policy options on key questions for the future of the EU: How to scale-up its role abroad? How to benefit from new partners without severing ties with traditional allies such as the US? How to contain Eurosceptic forces by reducing inequalities? And how to reinforce the euro while aiming at more sustainable and balanced growth?

**Yossel Rakover Speaks to God** Zvi Kolitz.1995 There are two stories here. One is the now legendary tale of a defiant Jew's refusal to abandon God, even in the face of the greatest suffering the world has known, a testament of faith that has

taken on an unpredictable and fascinating life of its own and has often been thought to be a direct testament from the Holocaust. The parallel story is that of Zvi Kolitz, the true author, whose connection to Yosl Rakover has been obscured over the fifty years since its original appearance. German journalist Paul Badde tells how a young man came to write this classic response to evil, and then was nearly written out of its history. With brief commentaries by French philosopher Emmanuel Levinas and Leon Wieseltier, author of *Kaddish*, this edition presents a religious classic and the very human story behind it.

**Comparative Demography of the Syrian Diaspora: European and Middle Eastern Destinations** Elwood D.

Carlson,Nathalie E. Williams.2020-01-15 This book provides a demographic profile of the Syrian diaspora into Europe and identifies the issue of forced migration as a separate and increasingly salient topic within the more general field of migration research. It describes the progressive increase in numbers of Syrian refugees in different European countries during recent years and gives a demographic profile of the Syrian refugee population. The book also compares and synthesizes the demographic profiles presented, to show how the population of Syrian refugees differs from country to county in terms of age structure, sex ratio, family status, educational attainment and other social and economic characteristics. By providing a solid empirical portrait based on national and international statistics, this book will be a great resource to students, academics in migration and refugee studies as well as social scientists and policy-makers in European countries.

**Incompiuto. La nascita di uno Stile-The birth of a style. Ediz. bilingue** Gabriele Basilico.2018 &Incompiuto. La nascita di uno stile è la prima e unica indagine, frutto di dieci anni di ricerca sul campo, di un fenomeno molto discusso nel nostro paese ma non ancora completamente riconosciuto: la presenza massiccia sul territorio di edifici e infrastrutture la cui realizzazione non si è mai conclusa. La dimensione del fenomeno, l'estensione territoriale e le incredibili peculiarità architettoniche fanno dell'Incompiuto il più importante stile architettonico italiano dal dopoguerra a oggi. Questa è la tesi che sostiene, in modo provocatorio ma ineccepibile, il gruppo di lavoro che in questi anni ha raccolto migliaia di scatti, ha vagliato centinaia di segnalazioni su tutto il territorio nazionale, a partire dalla Sicilia, per poi risalire la penisola.

&Incompiuto. La nascita di uno stile accompagna il lettore in un moderno Grand Tour, tra le rovine contemporanee. *International Migration Law* .2004 Migration is increasingly being acknowledged as an issue that needs a global

approach and coordinated responses. States are not only discussing migration issues at the bilateral level, but also regionally and lately in global arenas. A commonly understood language is indispensable for such coordination and international cooperation to be successful. This glossary attempts to serve as a guide to the mire of terms and concepts in the migration field, in an effort to provide a useful tool to the furtherance of such international cooperation and the common understanding of migration issues.

**Europe for Women** .2009 Europe for women highlights some of the many areas where Europe-wide action has an important impact on the issues that matter to everyone, but are particularly important to women. From gender equality to consumer rights, and from balancing the demands of professional and personal life to better health standards, EU decisions make a real difference to your life and your future.-- Publisher's description.

**The Silent Book** Hans Christian Andersen.2021-03-22 In a farmyard, in the middle of a forest, was a coffin, inside which lay an elderly scholar. In his hands was a book and between its pages were dried leaves and flowers full of stories. Hans Christian Andersen (1805-1875) was a Danish author, poet and artist. Celebrated for children's literature, his most cherished fairy tales include The Emperor's New Clothes, The Little Mermaid, The Nightingale, The Steadfast Tin Soldier, The Snow Queen, The Ugly Duckling and The Little Match Girl. His books have been translated into every living language, and today there is no child or adult that has not met Andersen's whimsical characters. His fairy tales have been adapted to stage and screen countless times, most notably by Disney with the animated films The Little Mermaid in 1989 and Frozen, which is loosely based on The Snow Queen, in 2013. Thanks to Andersen's contribution to children's literature, his birth date, April 2, is celebrated as International Children's Book Day.

**Job Loss, Identity, and Mental Health** Dawn R. Norris.2016-06-13 Our jobs are often a big part of our identities, and when we are fired, we can feel confused, hurt, and powerless—at sea in terms of who we are. Drawing on extensive, real-life interviews, Job Loss, Identity, and Mental Health shines a light on the experiences of unemployed, middle-class professional men and women, showing how job loss can affect both identity and mental health. Sociologist Dawn R. Norris uses in-depth interviews to offer insight into the experience of losing a job—what it means for daily life, how the unemployed feel about it, and the process they go through as they try to deal with job loss and their new identities as unemployed people. Norris

highlights several specific challenges to identity that can occur. For instance, the way other people interact with the unemployed either helps them feel sure about who they are, or leads them to question their identities. Another identity threat happens when the unemployed no longer feel they are the same person they used to be. Norris also examines the importance of the subjective meaning people give to statuses, along with the strong influence of society's expectations. For example, men in Norris's study often used the stereotype of the "male breadwinner" to define who they were. *Job Loss, Identity, and Mental Health* describes various strategies to cope with identity loss, including "shifting" away from a work-related identity and instead emphasizing a nonwork identity (such as "a parent"), or conversely "sustaining" a work-related identity even though he or she is actually unemployed. Finally, Norris explores the social factors—often out of the control of unemployed people—that make these strategies possible or impossible. A compelling portrait of a little-studied aspect of the Great Recession, *Job Loss, Identity, and Mental Health* is filled with insight into the identity crises that unemployment can trigger, as well as strategies to help the unemployed maintain their mental strength.

*Child Migration and Human Rights in a Global Age* Jacqueline Bhabha. 2016-05-17 The first comprehensive look at the global dilemma of child migration Why, despite massive public concern, is child trafficking on the rise? Why are unaccompanied migrant children living on the streets and routinely threatened with deportation to their countries of origin? Why do so many young refugees of war-ravaged and failed states end up warehoused in camps, victimized by the sex trade, or enlisted as child soldiers? This book provides the first comprehensive account of the widespread but neglected global phenomenon of child migration, exploring the complex challenges facing children and adolescents who move to join their families, those who are moved to be exploited, and those who move simply to survive. Spanning several continents and drawing on the stories of young migrants, *Child Migration and Human Rights in a Global Age* provides a comprehensive account of the widespread and growing but neglected global phenomenon of child migration and child trafficking. It looks at the often-insurmountable obstacles we place in the paths of adolescents fleeing war, exploitation, or destitution; the contradictory elements in our approach to international adoption; and the limited support we give to young people brutalized as child soldiers. Part history, part in-depth legal and political analysis, this powerful book challenges the prevailing wisdom that widespread protection failures are caused by our lack of awareness of the problems these children face, arguing instead that our societies have a deep-seated ambivalence to migrant children—one we need to address head-on. *Child Migration and Human Rights in a Global Age* offers a road map for doing just that, and makes a compelling and courageous case for an international ethics of children's human rights.

*The Welfare of Syrian Refugees* Paolo Verme, Chiara Gigliarano, Christina Wieser, Kerren Hedlund, Marc Petzoldt, Marco Santacroce. 2016 The book focuses on the largest refugee crisis of our time: the Syrian refugee crisis. It exploits a wealth of survey and registry data on Syrian refugees living in Jordan and Lebanon to assess their poverty and vulnerability status,

understand the predictors of these statuses, evaluate the performance of existing policies toward refugees, and determine the potential for alternative policies. Findings point to a complex situation. In the absence of humanitarian assistance, poverty is extremely high among refugees. Current policies including cash transfers and food vouchers are effective in reducing poverty but they remain short of providing economic inclusion and self-reliance of refugees. A shift toward economic inclusion and self-reliance would require a different humanitarian and development paradigm, one that focuses on growth policies for areas affected by refugees where the target population is constituted by refugees and hosting populations alike. This joint study by the World Bank Group and the United Nations High Commissioner for Refugees helps bridge the historical divide between humanitarian and development work by providing practical solutions for assisting refugees in the short, medium and long-term and to prevent the irreversible loss of social and human capital typically associated with prolonged refugee crises.

*Passions and Politics* Paul Ginsborg, Sergio Labate. 2019-01-30 The dominant model of democratic politics emphasizes reason at the expense of the passions. Passions have been treated as dangerous, the opposite of reason and the enemy of virtue. Paul Ginsborg and Sergio Labate challenge this model and put forward a very different view, developing an account of modern democratic politics in which both passions and reason play a crucial role. To do justice to the role of passions in politics, we must pay close attention to the way in which they circulate among us; then we must develop a suitable language to describe them – an ‘alphabet of the passions’ that enables us to understand how they combine with one another and connect with certain states of mind in order to shape political outcomes. Adopting this approach enables the authors to shed new light on one of the major phenomena of our time – the triumph of neoliberalism on a world scale. Neoliberalism has worked so well because it has incorporated its own romantic and individualist version of the passions into its worldview, seducing both individuals and families with the allure of consumption. By developing a new model of democratic politics based on the interplay of passions and reason, Ginsborg and Labate provide a much needed framework for understanding the crucial role that passions play in the unfolding of political life. At a time when populist leaders are on the ascendancy and political processes are shaped as much by anger, resentment and fear as they are by reason and argument, this refocusing of political analysis on the role of the passions could not be more timely.

**Schubert's Vienna** Raymond Erickson. 1997-01-01 The Vienna in which Franz Schubert lived for the thirty-one years of his life was not just a city of music, dance, and coffeehouses - a centre of important achievements in the arts. It was also the capital of an empire that was constantly at war in the composer's youth and that became a police state during his maturity.

*Risk Management Maturity Assessment at Central Banks* Elie Chamoun, Nicolas Denewet, Antonio Manzanera, Sanjeev Matai. 2019-12-27 Effective risk management at central banks is best enabled by a sound framework embedded throughout the organization that supports the design and execution of risk management activities. To evaluate the risk management

practices at a central bank, the Safeguards Assessments Division of the IMF's Finance Department developed a tool that facilitates stocktaking of elements that are present and categorizes the function based on its maturity. Tailored recommendations are then provided to the central bank which provide a roadmap to advance the risk management function.

Albania in the Twentieth Century, A History Owen Pearson.2007-04-03 This is an unparalleled achievement in scholarship on Albania. Owen Pearson presents a complete account of the twentieth century in Albania, from its breakaway from the Ottoman Empire in 1908 to the Kosova War in 1999. In fascinating detail, Pearson chronicles the monarchy of King Zog and the wartime period where Albania became a battleground for the Greek, Italian and German armies. He describes Enver Hoxha's seizure of power, the country's relationship with the post-Stalin Soviet Union and Maoist China's fraternal embrace of Albania, all leading to near-total isolationism and inevitable economic collapse. Pearson concludes with the genocide of Kosovar Albanians at the hands of the Serbian regime of Milosevic that characterized the last decade of twentieth century Albania. Comprising original research, and excerpts from rare Albanian sources, this is a compendium of primary source material that provides a year-by-year and sometimes day-by-day account of Albania's modern history. I.B.Tauris in association with the Center for Albanian Studies.

**Every child counts: new global estimates on child labour** .2002 [Introduction] This document presents the results of ILO research on the global magnitude of child labour. It introduces new global estimates for economic activity by children and child labour in the sense of ILO Conventions Nos 138 and 182. There are no national data to be found in this document. The lowest aggregate level presented are the major world regions. All estimates are for the benchmark year 2000. Child labour is a sensitive subject and numbers on its magnitude play an important role in global policy-making and advocacy efforts. The research was conducted in acute awareness of this responsibility and used well-proven statistical methodologies in an attempt to keep error margins to a minimum. All sources, underlying definitions and methodological steps are explained

in detail. The document is divided into three main sections. Section 1 presents the main findings. Sections 2 and 3 introduce definitions and methodologies. Data are presented in tables and charts

**The Power of the Adolescent Brain** Thomas Armstrong.2016-07-14 Moody. Reckless. Impractical. Insecure. Distracted. These are all words commonly used to describe adolescents. But what if we recast these traits in a positive light? Teens possess insight, passion, idealism, sensitivity, and creativity in abundance--all qualities that can make a significant positive contribution to society. In this thought-provoking book, Thomas Armstrong looks at the power and promise of the teenage brain from an empathetic, strength-based perspective--and describes what middle and high school educators can do to make the most of their students' potential. Thoroughly grounded in current neuroscience research, the book explains what we know about how the adolescent brain works and proposes eight essential instructional elements that will help students develop the ability to think, make healthy choices, regulate their emotions, handle social conflict, consolidate their identities, and learn enough about the world to move into adulthood with dignity and grace. Armstrong provides practical strategies and real-life examples from schools that illustrate these eight key practices in action. In addition, you'll find a glossary of brain terms, a selection of brain-friendly lesson plans across the content areas, and a list of resources to support and extend the book's ideas and practices. There is a colossal mismatch between how the adolescent brain has evolved over the millennia and the passive, rote learning experiences that are all too common in today's test-obsessed educational climate. See the amazing difference—in school and beyond—when you use the insights from this book to help students tap into the power of their changing brains.

*Towards the Single Employment Contract* Giuseppe Casale, Adalberto Perulli. 2014-07-18 This book examines the concept of the single employment contract, tracing it from its genesis and evaluating its pros and cons in the context of the current labour market problems in selected European countries. The book adopts a comparative approach to examining the single employment contract, highlighting its virtues and revealing its inherent contradictions. The authors set out the general framework within which the current debate has developed by outlining the origins that gave rise to the proposal of a single employment contract. They then review the debate on labour market segmentation and the flexicurity proposal, and examine the key characteristics of the single employment contract as well as the arguments put forward both for and against it. Case studies show how the idea has been taken up in France, Italy and Spain. The book concludes with a concise review of contractual arrangements in EU labour markets and of possible future projections and developments. The book is aimed at academics and practitioners interested in labour market and labour legislation reforms. The book is a co-publication between Hart Publishing and the International Labour Organization.

**The Castle on the Hudson** Renato Cantore. 2017-07-25T00:00:00+02:00 Charles Paterno was seven when he left Castelmezzano, a small mountain town in Basilicata to set sail on one of the rattletrap ships headed to America. Thirty years later he was one of the top builders in New York City, among the first to construct the skyscrapers that would form the world's most famous skyline. Intelligence, brilliance, intuition and an ability to stay ahead of the times made him a leading figure in the life of Manhattan. He created garden communities, focused on new technologies and turned to the best architects. Paterno didn't just want to offer houses, but new lifestyles to tens of thousands of people. His first American dream looked like a white castle at the northernmost tip of Manhattan, where he lived for years with his wife and son, surrounded by a small but very loyal retinue. A friend of Giuseppe Prezzolini, he donated a library of 20.000 books, the Paterno Library, to the Casa Italiana at Columbia University. Fiorello La Guardia, the Italian-American mayor of New York City, called him a genius. Born into poverty, Paterno died a wealthy man on the green of the most exclusive country club in Westchester.

*The EU and Conflict Resolution* Nathalie Tocci. 2007-05-22 Through the study of five ethno-political conflicts lying on or just beyond Europe's borders, this book analyzes the impact and effectiveness of EU foreign policy on conflict resolution. Conflict resolution features strongly as an objective of the European Union's foreign policy. In promoting this aim, the EU's geographical focus has rested primarily in its beleaguered backyard to the south and to the east. Taking a strong comparative approach, Nathalie Tocci explores the principal determinants of conflict dynamics in Cyprus, Turkey, Serbia-Montenegro, Israel-Palestine and Georgia in order to assess the impact of EU contractual ties on them. The volume includes

topical analysis based on first-hand experience, in-depth interviews with all the relevant actors and photography in ongoing conflict areas in the Middle East, the Eastern Mediterranean, the Balkans and the Caucasus. This revealing study shows that the gap between EU potential and effectiveness often rests in the specific manner in which the EU collectively chooses to conduct its contractual relations. The EU and Conflict Resolution will be of interest to all readers who wish to acquire an excellent understanding of the EU's impact on conflict contexts and will appeal to scholars of European politics, security studies and conflict resolution.

Global Governance and the Role of the EU Carlo Secchi, Antonio Villafranca. 2011 Focusing on the EU in particular, they indicate and prescribe tools and mechanisms with which to enhance growth potentials in Europe and the Eurozone.
