Tuk - velké překvapení Teicholzová Nina,2018-01-01 Proč máslo, maso a sýr patří ke zdravé stravě Celá desetiletí nám tvrdili, že bychom měli omezovat tuk, a že pokud nehubneme a nejsme zdraví, tak se prostě jen dost nesnažíme. Co když je ale problém v samotné nízkotučné stravě? A co když všechna ta jídla, která jsme si odpírali – smetanové sýry a šťavnaté steaky – by nám ve skutečnosti mohly pomoci bojovat s obezitou, diabetem a onemocněním srdce? Se závěry podloženými devíti lety výzkumu a rešerší odhaluje Nina Teicholzová nemyslitelné: vše, co nám kdy o tuku tvrdili, je špatně. Ve své knize dokumentuje, jak příliš horliví vědci dovolili neprůkazným vědeckým poznatkům ovládnout všeobecné mínění, a stát se výživovým dogmatem. Její živé a poutavé vyprávění předkládá přesvědčivé důkazy, které boří veškeré všeobecné znalosti o tuku ve stravě, a konečně nám umožňuje přivítat chutné pokrmy zpět do našich jídelníčků. \*\*\* Nina Teicholzová je novinářka píšící pro Gourmet magazine, The New Yorker, The Economist, The New York Times a The Washington Post. Je také autorkou mnoha reportáží pro National Public Radio. Žije v New Yorku s manželem a dvěma syny. \*\*\* „Poutavé čtení pro každého, kdo se někdy pokoušel jíst zdravě. Čte se jedním dechem.“ The Economist „Teicholzová má dar přetavit složitá data do poutavého detektivního příběhu... Tuk - velké překvapení je drásající obžalobou Velkého veřejného zdraví... Víc než jen kniha o jídle a zdraví nebo snad o aroganci; pro náš informační věk je to tragédie. Od úplného počátku jsme měli statistické prostředky, abychom pochopili, proč něco nesedí... měli jsme celý sbor varovných hlasů – byly ale přehlíženy, kritizovány, potlačeny. Měli jsme svého tučného padoucha, a pořád máme.“ The Wall Street Journal

**World Development Report 2019** World Bank, 2018-10-31 Work is constantly reshaped by technological progress. New ways of production are adopted, markets expand, and societies evolve. But some changes provoke more attention than others, in part due to the vast uncertainty involved in making predictions about the future. The 2019 World Development Report will study how the nature of work is changing as a result of advances in technology today. Technological progress disrupts existing systems. A new social contract is needed to smooth the transition and guard against rising inequality. Significant investments in human capital throughout a person's lifecycle are vital to this effort. If workers are to stay competitive against machines they need to train or retool existing skills. A social protection system that includes a minimum basic level of protection for workers and citizens can complement new forms of employment. Improved private sector policies to encourage startup activity and competition can help countries compete in the digital age. Governments also need to ensure that firms pay their fair share of taxes, in part to fund this new social contract. The 2019 World Development Report presents an analysis of these issues based upon the available evidence.

**Tuk není nepřítel** Jitka Egressy, 2018-01-01 Kniha plná nových poznatků, které mohou ovlivnit vaše zdraví! Pokud vám není lhostejné vaše vlastní zdraví a snažíte se žít podle zásad zdravého životního stylu, pak vás informace v této knize zaujmou a určitě překvapí. Česká autorka sleduje celosvětové vědecké výzkumy týkající se výživy a pohybu a z jejich výsledků pro vás napsala přehlednou a velmi čtivou příručku, od které budete mít problém se odtrhnout. Zjistíte například, že zvýšená hladina cholesterolu není příčinou srdečních onemocnění, ale signálem, že toto onemocnění hrozí či již existuje, před mrtvicí a infarktem vás ochrání snížení hladiny inzulínu a glukózy v krvi, fruktóza významně zatěžuje naše játra a přispívá k ukládání tuků v těle, více jídel denně nám trvale udržuje nezdravě zvýšenou hladinu inzulínu v krvi, konzumace obilovin vyvolává závislost na nich, slunečnicový olej (dosud tak doporučovaný) vlastně není až tak zdravý, naopak máslo a sádlo bylo

již odpuštěno, dlouhotrvající sportovní zátěž v nízké intenzitě může překvapivě způsobovat kardiovaskulární nemoci, protahování před sportem zvyšuje riziko zranění a mnoho dalších překvapivých zjištění, která postupně vyplouvají na povrch. Autorka Jitka Egressy je celoživotní nadšenkyně do zdravého životního stylu a pohybu. Problematice zdravého stravování se věnuje již více než 14 let. Pracuje jako osobní a skupinová trenérka a tak propojuje výživové poradenství s pohybem, na který má také velmi nekonvenční názor. Naleznete ji na [www.tvojetrenerka.cz](http://www.tvojetrenerka.cz). „Publikace v podobě praktické příručky seznamuje čtenáře s novými poznatky z oblasti výživy a kondičního sportu a tím naplňuje obsah pojmu „zdravý životní styl“. Jde o vydařeně formulovaný souhrn doporučení užitečných pro praxi. Publikace se vyhýbá odborné polemice, doporučení jsou díky tomu jednoduchá a snadno pochopitelná stejně jako dobře realizovatelná v praktickém životě. Publikace je proto velmi vhodná především pro „začátečníky“, stoupence zdravé výživy a kondičního sportu.“ RNDr. Petr Fořt, CSc., nezávislý expert ve výživě, autor publikací o výživě, autor Komplexní nutriční typologie pro poradny Svět zdraví.

**The Cultural Moment in Tourism** Laura Jane Smith, Emma Waterton, Steve Watson, 2012-07-26 This book is a response to the burgeoning interest in cultural tourism and the associated need for a coherently theorized approach for understanding the practices that such an interest creates. Cultural tourism has become an important and popular aspect of contemporary tourism studies, as well as providing a rich seam of upscale product development opportunities in the industry as a whole. Much of the related literature, however, focuses upon describing and categorizing cultural tourism from a supply-side perspective. This has prompted the taxonomizing of cultural tourists on the basis of their level of involvement and interest in cultural tourism products and/or their economic worth as a sought after market segment. There have been few recent attempts at a rigorous re-theorization of the issues beyond conventional representational theories; this book aims to fill that void. This groundbreaking volume provides a theoretical and empirical account of what it means to be a cultural or heritage tourist. It achieves this by exploring the interactions of people with places, spaces, intangible heritage and ways of life, not as linear alignments but as seductive 'moments' of encounter, engagement, performance and meaning-making, which are constitutive of cultural experience in its broadest sense. The book further explores encounters in cultural tourism as events that capture and constitute important social relations involving power and authority, self-consciousness and social position, gender and space, history and the present. It also explores the consequences these insights have for our understanding of culture and heritage and its management in the context of tourist activity. In capturing the 'cultural moment', this book provides a better understanding of the motivations, on-site activities, meaning constructions and other cultural work done by both tourists and tourist operators. The volume confronts and explores the cultural, political and economical interrelations between culture, heritage and the tourism industry. In so doing, it also investigates how this co-mingling of identity, representation and social life may be better apprehended with the wider shift in critical thought towards notions of affect and performativity. The book is a fundamental and influential contribution to research in this field. It will be of significant value

to students, academics and researchers interested in this broad topic area.

*The Practice of Emergency and Critical Care Neurology* Eelco F. M. Wijdicks, MD, PhD, FACP,2010-06-22 The Practice of Emergency and Critical Care Neurology serves as the definitive authoritative reference on the care of the patient with a critical neurologic disorder at risk of deterioration and in need of immediate attention. This work is an expanded new edition of the book on the management of patients with critical neurologic disorders. This single-authored monograph is broad in scope and follows the patients from the very moment they enter the emergency department to their care in the neurosciences intensive care unit. This book condenses the essential information into several sections. These are: The General Principles of Recognition of Critically Ill Neurologic Patients in the Emergency Department, The Evaluation of Presenting Symptoms Indicating Urgency and Critical Emergency, General Principles of Management of Critically Ill Patients, Monitoring Devices and Diagnostic Tests, Complete Management of Specific Disorders in the Neurosciences Intensive Care Unit, Postoperative Neurosurgical and Neurointerventional Complications, Management of Medical Complications and End of Life Care. This accessibly written book differs from the conventional by specifically following the time course of clinical complexities as they emerge and change. It offers advice on how to diagnose and manage acute neuromuscular respiratory failure, acute worrisome headache, acute febrile confusion, acute diplopia, acute movement disorders, acute paraplegia, seizures and coma of uncertain cause in the emergency department. The major disorders requiring neurocritical care are covered in great detail and include traumatic brain injury aneurysmal subarachnoid hemorrhage, cerebral hemorrhage, hemispheric ischemic stroke, basilar artery occlusion, acute bacterial meningitis and encephalitis, myasthenic crisis and severe Guillan Barre syndrome. This book comes with a pocket book of selected tables and figures. This booklet covers all essential points for quick reference and has been considered a 'survival guide' for the house staff.

Contrast in Phonology Peter Avery,B. Elan Dresher,Keren Rice,2008-11-03 This book takes contrast, an issue that has been central to phonological theory since Saussure, as its central theme, making explicit its importance to phonological theory, perception, and acquisition. The volume brings together a number of different contemporary approaches to the theory of contrast, including chapters set within more abstract representation-based theories, as well as chapters that focus on functional phonetic theories and perceptual constraints. This book will be of interest to phonologists, phoneticians,

psycholinguists, researchers in first and second language acquisition, and cognitive scientists interested in current thinking on this exciting topic.
