South Africa's Post-Apartheid Military Lindy Heinecken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security, political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for 'defence in a democracy'? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues, such as: · the effect of integrating former revolutionary soldiers into a professional armed force · the effect of affirmative action on meritocracy, recruitment and retention · military veterans, looking at the difficulties they face in reintegrating back into society and finding gainful employment · gender equality and mainstreaming · the rise of military unions and why a confrontational, instead of a more corporatist approach to labour relations has emerged · HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become 'lost in transition and transformation', spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence, security and civil-military relations of countries around the world.

African Peacekeeping Jonathan Fisher, Nina Wilén, 2022-02-03 An examination of how peacekeeping is woven into national, regional and international politics in Africa, and its consequences.

Recce Koos Stadler, 2018-07-13 A gripping firsthand account of life and combat operations in the elite South African Special Forces, known as Recces, by a veteran Recce officer. The South African Special Forces are one of the most effective—and mysterious—military units in the world. Working in secret on covert operations, the legendary Recces have long fascinated, but little is known about how they operate. Now Koos Stadler, a career officer in the South African Special Forces, shares a revealing chronicle of his life and his experiences in the Border War. Shortly after passing the grueling Special Forces selection course in the early 1980s, Koos Stadler joined the so-called Small Teams group at 5 Reconnaissance Regiment. This sub-unit was made up of two-man teams and was responsible for many secret missions behind enemy lines. Sent to blow up railway lines and enemy fighter jets in south Angola, Stadler and his partner stared death in the face many times.

Military Psychology for Africa Gideon AJ van Dyk,2016-03-17 Military Psychology for Africa is the first textbook of its kind from Africa. Selected authors with competent military psychology knowledge, skills, expertise and experience each contributed a chapter to this unique book. The book empowers academics, students and military fellows to apply this knowledge at academic institutions and military units, during operations, and in presenting short courses. The book will also equip soldiers with new knowledge for advancing peace on the continent and abroad.

Women in Combat Rosemarie Skaine,2011-01-19 This handbook provides a straightforward account of how women have served in combat roles and explains the ongoing controversy surrounding efforts to legalize combat assignments for female service members. Women have been excluded from combat roles for most of American history. During conflicts such as the American Civil War, a few women enlisted as men; in some cases, their identities as women were not discovered until after their deaths. Today, the nontraditional battlefields of Iraq and Afghanistan have no clearly defined front lines, and many female soldiers have found themselves face-to-face with the enemy. Yet despite the realities of modern warfare, the subject of women serving in combat roles remains highly controversial. *Women in Combat: A Reference Handbook* examines the historical background, current dilemmas, and global context of this contentious issue. The author explores both sides of the argument, presenting information from leading sources and gleaned from personal interviews. Statistical data, primary source documents, a directory of organizations, and print and electronic resources offer additional insight.

Industrial Security David L. Russell, Pieter C. Arlow,2015-03-16 A comprehensive and practical guide to security organization and planning in industrial plants Features Basic definitions related to plant security Features Countermeasures and response methods Features Facilities and equipment, and security organization Topics covered are applicable to multiple types of industrial plants Illustrates practical techniques for assessing and evaluating financial and corporate risks

32 Battalion Piet Nortje,2010-11-05 Every war has at least one - a unit so different, so daring, that it becomes the stuff of which legends are made and heroes are born. Among the South African forces fighting in Angola from 1975 to 1989, that unit was 32 Battalion. Founded in utmost secrecy from the vanquished remnants of a foreign rebel movement, undefeated in 12 years of front-line battle, feared by enemies that included both conventional Cuban armies and Namibian guerrilla fighters, the Buffalo Soldiers became the South African army's best combat unit since World War II, with no fewer than 13 members winning the highest decoration for bravery under fire. But when peace broke out in southern Africa, the victors of Savate became the victims of sophistry. Their fate and future determined by politicians who understood little and cared less about this truly unique fraternity, 32 Battalion ceased to exist in 1993, its short history and long list of battle honours known only to those whose enemies called them Os Terriveis - the Terrible Ones. Now, for the first time, the story of 32 Battalion

can be told in full, with neither adornment nor apology, by one of its longest-serving members. The book draws from top secret documents, revealing information that has never been made public before. Also included are rare photographs that evoke the colourful, and often controversial, history of 32 Battalion, as well as detailed maps depicting specific operations and deployments.

Contemporary Issues in South African Military Psychology Nicole Dodd, Petrus C. Bester, Justin van der Merwe, 2020-05-13 *Contemporary Issues in South African Military Psychology*, is a well-timed, extremely thought-provoking, imperative, particular to the African context, and deals with a highly contemporary issue within the people management and the management studies fields specifically in the military field and context. This is specifically of importance as military psychology is a behavioural science that combines theory and practical application. - Prof Karel Stanz, University of Pretoria

A Military History of Modern South Africa Ian van der Waag, 2018-03-14 The story of a century of conflict and change—from the Second Boer War to the anti-apartheid movement and the many battles in between. Twentieth-century South Africa saw continuous, often rapid, and fundamental socioeconomic and political change. The century started with a brief but total war. Less than ten years later, Britain brought the conquered Boer republics and the Cape and Natal colonies together into the Union of South Africa. The Union Defence Force, later the SADF, was deployed during most of the major wars of the century, as well as a number of internal and regional struggles: the two world wars, Korea, uprising and rebellion on the part of Afrikaner and black nationalists, and industrial unrest. The century ended as it started, with another war. This was a flash point of the Cold War, which embraced more than just the subcontinent and lasted a long thirty years. The outcome included the final withdrawal of foreign troops from southern Africa, the withdrawal of South African forces from Angola and Namibia, and the transfer of political power away from a white elite to a broad-based democracy. This book is the first study of the South African armed forces as an institution and of the complex roles that these forces played in the wars, rebellions, uprisings, and protests of the period. It deals in the first instance with the evolution of South African defense policy, the development of the armed forces, and the people who served in and commanded them. It also places the narrative within the broader national past, to produce a fascinating study of a century in which South Africa was uniquely embroiled in three total wars.

Researching the Military Helena Carreiras, Celso Castro, Sabina Frederic, 2016-03-02 *Researching the Military* focuses on the experiences of researchers who study the military around the world. It explores the historical, social, institutional and personal factors that frame research and scrutinize the way knowledge in this area impacts society and policy. More than merely analyzing research experiences (yet necessarily including them), it is also about the experiences of researchers, their position with regard to the object of their studies, the institutional context where they work and the way their research impacts the academic and policy-making fields in the respective countries. The common theme to the various chapters is

reflexivity, a conscious effort at addressing the conditions of research and the position of the researcher and the research participants in that interface. By collecting diverse experiences of researchers from across the world, this volume aims to enhance reflexivity in the field of military studies and to encourage the exchange of knowledge between the academic field and the military arena. This book will be of much interest to students of military studies, research methods, sociology, social anthropology and security studies, in general.

The Republic of Gupta Pieter-Louis Myburgh,2017-04-24 What was Ajay Gupta doing on Thabo Mbeki's 'secret' advisory council? Did the Guptas play a role in Jacob Zuma's rise to power? How did the Guptas capture South African cricket? What is their interest in the controversial nuclear procurement deal? What influence have they had in the hiring and firing of cabinet ministers? The Guptas rose to national infamy when a commercial airliner packed with guests for a family wedding was allowed to land at Air Force Base Waterkloof in 2013, sparking an onslaught of public outrage. Since then, they have become embroiled in allegations of state capture, of dishing out cabinet posts to officials who would do their bidding, and of benefiting from lucrative state contracts and dubious loans. The Republic of Gupta investigates what the Gupta brothers were up to during Thabo Mbeki's presidency and how they got into the inner circle of President Jacob Zuma. It shines new light on their controversial ventures in computers, cricket, newspapers and TV news, and coal and uranium mining. And it explores their exposure by public protector Thuli Madonsela, their conflict with finance minister Pravin Gordhan, and the real reasons behind the cabinet reshuffle of March 2017. Pieter-Louis Myburgh delves deeper than ever before into the Guptas' business dealings and their links to prominent South African politicians, and explains how one family managed to transform an entire country into the Republic of Gupta.

Contemporary Issues in South African Military Psychology Nicole Dodd,Petrus C. Bester,Justin van der Merwe van der Merwe,2020-05-13 A well-timed, extremely thought-provoking imperative, particular to the African context, that deals with a highly contemporary issue within the people management and the management studies fields specifically in the military context.

The Economics of Defense Industry Thomas-Durell Young,2023-10-17 This book on the economics of defence industry assesses a series of historical and contemporary case studies that consistently demonstrate the need for governments to recognise, and thereafter factor, the financial needs of a narrow industrial sector that is capital intensive, technologically advanced and that requires a highly skilled labour force. Since the end of the cold war, Western governments have

systematically reduced financial support to their domestic defence industry and have seemingly ignored planning and funding industrial mobilisation. In all cases, government policy has been to encourage industries to consolidate capacity to become financially viable in a sector that has seen diminished demand. The 2022 Russian invasion of Ukraine has caused Western governments to reassess their previous assumptions. Efforts to increase industrial capacity have been met with the iron laws of economics whereby businesses need to show return on investments. The chapters in this volume posit that efforts to rationalise industrial capacity and innovation to meet short-term financial efficiencies, inevitably results in limited, expensive, and long delays in increased production in times of international crisis. This book serves as an essential guide for academics, researchers and students interested in defence economics, industrial economics, international relations, and industrial policy. The chapters in this book were originally published in various issues of *Defense & Security Analysis*.

Guns & Roses: Comparative Civil-Military Relations in the Changing Security Environment Steven Ratuva, Radomir Compel, Sergio Aguilar, 2019-01-04 This edited volume provides a critical and comparative discussion of the changing synergy between the military and society in the dramatically transforming global security climate, drawing on examples from the Asian, Pacific, African, Middle Eastern, European and South American regions. The book is interdisciplinary and covers wide-ranging issues relating to civil military relations, democratization, regional security, ethnicity, peace-building and peace keeping, civilian oversight, internal repression, gender, regime change and civil society.

Amnesty After Atrocity? Helena Cobban, 2015-11-17 A compelling read. Richard J. Goldstone, former Chief Prosecutor of the UN tribunals for the former Yugoslavia and Rwanda A very important contribution. Princeton N. Lyman, Council on Foreign Relations A powerful reminder that dealing with the legacy of wartime atrocities is not simply a matter of bringing perpetrators to justice. It also means overcoming the divisions within the society and healing the victims. Marina Ottaway, Senior Associate, Democracy and Rule of Law Project, Carnegie Endowment for International Peace In *Amnesty after Atrocity?* veteran journalist Helena Cobban examines the effectiveness of different ways of dealing with the aftermath of genocide and violence committed during intergroup conflicts. She traveled to Rwanda, Mozambique, and South Africa to assess the various ways those nations tried to come to grips with their violent past: from war crimes trials to truth commissions to outright amnesties for perpetrators. She discovered that in terms of both moving forward and satisfying the needs of survivors, war crimes trials are not the most effective path. This book provides historical context and includes interviews with a cross-section of people: community leaders, victims, policymakers, teachers, rights activists, and even some former abusers. These first-person accounts create a rich, readable text, and Cobban's overall conclusions will surprise many readers in the West.

China's Relations with Africa Joshua Eisenman, David H. Shinn, 2023-08-01 Since Xi Jinping's accession to power in 2012, nearly every aspect of China's relations with Africa has grown dramatically. Beijing has increased the share of resources it

devotes to African countries, expanding military cooperation, technological investment, and educational and cultural programs as well as extending its political influence. This book examines the full scope of contemporary political and security relations between China and Africa. David H. Shinn and Joshua Eisenman not only explain the specific tactics and methods that Beijing uses to build its strategic relations with African political and military elites but also contextualize and interpret them within China's larger geostrategy. They argue that the priorities of Chinese leaders—including the conflation of threats to the Communist Party with threats to the country, a growing emphasis on relations in the Global South, and a focus on countering U.S. hegemony—have combined to elevate Africa's importance among policy makers in Beijing. Ranging from diplomacy and propaganda to arms sales and space cooperation, from increasingly frequent People's Liberation Army Navy port calls in Africa to the rising number of African students studying in China, this book marshals extensive and compelling qualitative and quantitative evidence of the deepening ties between China and Africa. Drawing on two decades of systematic data and hundreds of surveys and in-person interviews, Shinn and Eisenman shed new light on the state of China-Africa relations today and consider what the future may hold.

The Battle of Savate Piet Nortje, 2015 On 21 May 1980, under the codename Operation Tiro-Tiro, 32 Battalion attacked and routed a FAPLA brigade at Savate. Fifteen members of 32 Battalion were killed in the action and many more wounded. It was the highest South African casualty rate in a single skirmish since the start of the Border War. Overall, however, Savate was a significant victor
