The Handbook of Measurement Issues in Criminology and Criminal Justice Beth M. Huebner, Timothy S. Bynum.2016-06-13 This volume of the series was designed to provide a comprehensive primer on the existing best practices and emerging developments in the study and design research on crime and criminology. The work as a whole includes chapters on the measurement of criminal typologies, the offenders, offending and victimization, criminal justice organizations, and specialized measurement techniques. Each chapter is written by experts in the field and they provide an excellent survey of the literature in the relevant area. More importantly, each chapter provides a description of the various methodological and substantive challenges presented in conducting research on these issues and denotes possible solutions to these dilemmas. An emphasis was placed on research that has been conducted outside of the United States and was designed to give the reader a broader more global understanding of the social context of research. The goal of this volume is to provide a definitive reference for professionals in the field, researchers, and students. This volume in the Handbooks in Criminology and Criminal Justice series identifies the principal topical areas of research in this field and summarizes the various methodological and substantive challenges presented in conducting research on these issues. In each chapter, authors provide a summary of the prominent data collection efforts in the topical area, provide an overview of the current methodological work, discuss the challenges in the measurement of central concepts in the subject area, and identify new horizons emerging in data collection and measurement. We encouraged authors to discuss work conducted in an international context and to incorporate discussion of qualitative methodologies when appropriate.

Crime Prevention Steven P. Lab.2016-02-12 Crime Prevention: Approaches, Practices, and Evaluations, 9th Edition, meets the needs of students and instructors for engaging, evidence-based, impartial coverage of the origins of crime, as well as of public policy that can reduce or prevent deviance. The book examines a range of approaches to preventing crime and elucidates their respective goals. Strategies include primary prevention measures designed to prevent conditions that foster deviance; secondary prevention measures directed toward persons or conditions with a high potential for deviance; and

tertiary prevention measures to deal with persons who have already committed crimes. This edition provides research and information on all aspects of crime prevention, including the physical environment and crime, neighborhood crime prevention programs, community policing, crime in schools, and electronic monitoring and home confinement. Lab offers a thorough and well-rounded discussion of the many sides of the crime prevention debate, in clear and accessible language.

The Handbook of the Criminology of Terrorism Gary LaFree, Joshua D. Freilich. 2016-11-29 The Handbook of the Criminology of Terrorism features a collection of essays that represent the most recent criminological research relating to the origins and evolution of, along with responses to, terrorism, from a criminological perspective. Offers an authoritative overview of the latest criminological research into the causes of and responses to terrorism in today's world. Covers broad themes that include terrorism's origins, theories, methodologies, types, relationship to other forms of crime, terrorism and the criminal justice system, ways to counter terrorism, and more. Features original contributions from a group of international experts in the field. Provides unique insights into the field through an exclusive focus on criminological conceptual frameworks and empirical studies that engage terrorism and responses to it.

The Oxford Handbook of Prisons and Imprisonment John Wooldredge, Paula Smith, Paula H. Smith. 2018 The Oxford Handbook of Prisons and Imprisonment provides the only single source that bridges social scientific and behavioral perspectives, providing graduate students with a more comprehensive understanding of the topic, academics with a body of knowledge that will more effectively inform their own research, and practitioners with an overview of evidence-based best practices.

Essentials of Statistics for Criminology and Criminal Justice Raymond Paternoster, Ronet D. Bachman. 2017-01-30 Essentials of Statistics for Criminology and Criminal Justice helps students understand the vital role that research and statistics play in the study of criminology and criminal justice by showing them how to conduct and interpret statistics in real-world settings with a step-by-step approach to solving problems. This practical, applied approach offers students the fundamentals of descriptive and inferential statistics in a concise and easy-to-understand format—avoiding complicated proofs and discussions of statistical theory. The examples and case studies provide relevant examples for criminology and criminal justice students, and deal with contemporary issues related to crime, corrections, police, and the judicial system. Students will not only learn about the “how to” in statistics, but they will also recognize its importance in today's criminal justice system.

The Handbook of Security Martin Gill. 2016-02-26 The substantially revised second edition of the Handbook of Security provides the most comprehensive analysis of scholarly security debates and issues to date. Including contributions from some of the world's leading scholars it critiques the way security is provided and managed.

Greening Criminology in the 21st Century Matthew Hall, Tanya Wyatt, Nigel South, Angus Nurse, Gary Potter, Jennifer

Maher.2016-11-25 In the 21st century, environmental harm is an ever-present reality of our globalised world. Over the last 20 years, criminologists, working alongside a range of other disciplines from the social and physical sciences, have made great strides in their understanding of how different institutions in society, and criminal justice systems in particular - respond - or fail to respond - to the harm imposed on ecosystems and their human and non-human components. Such research has crystallised into the rapidly evolving field of green criminology. This pioneering volume, with contributions from leading experts along with younger scholars, represents the state of the art in criminologists' pursuit of understanding in the environmental sphere while at the same time challenging academics, lawmakers and policy developers to explore new directions in the study of environmental harm.

Green Criminology Michael J. Lynch, Michael A. Long, Paul B. Stretesky, Kimberly L. Barrett.2017-08-15 This book provides an overview and assessment of green criminology. Based on a political-economic analysis, Green Criminology draws attention to the ways in which the political-economic organization of capitalism causes ecological destruction and disorganization. Focusing on real-world impact, chapters include political-economic examinations of ecological withdrawals, ecological additions, toxic towns, wildlife poaching and trafficking, environmental justice, environmental laws, and nongovernment environmental organizations. The book also explores how ecological footprint, planetary boundary analysis, and other scientific research applies to green criminological analysis--Provided by publisher.

Introduction to Cybercrime Joshua B. Hill, Nancy E. Marion. 2016-02-22 Explaining cybercrime in a highly networked world, this book provides a comprehensive yet accessible summary of the history, modern developments, and efforts to combat cybercrime in various forms at all levels of government—international, national, state, and local. As the exponential growth of the Internet has made the exchange and storage of information quick and inexpensive, the incidence of cyber-enabled criminal activity—from copyright infringement to phishing to online pornography—has also exploded. These crimes, both old and new, are posing challenges for law enforcement and legislators alike. What efforts—if any—could deter cybercrime in the highly networked and extremely fast-moving modern world? *Introduction to Cybercrime: Computer Crimes, Laws, and Policing in the 21st Century* seeks to address this tough question and enables readers to better contextualize the place of cybercrime in the current landscape. This textbook documents how a significant side effect of the positive growth of technology has been a proliferation of computer-facilitated crime, explaining how computers have become the preferred tools used to commit crimes, both domestically and internationally, and have the potential to seriously harm people and property alike. The chapters discuss different types of cybercrimes—including new offenses unique to the Internet—and their widespread impacts. Readers will learn about the governmental responses worldwide that attempt to alleviate or prevent cybercrimes and gain a solid understanding of the issues surrounding cybercrime in today's society as well as the long- and short-term impacts of cybercrime.

Psychology and Crime Aidan Sammons. 2013-04-15 What does a Criminological Psychologist do? The popular image is that of a latter-day Sherlock Holmes helping the police to solve crimes and mysteries, but the reality is much more complex. *Psychology and Crime* is a new introduction to the topic of Criminological Psychology that helps dispel these popular myths by providing a comprehensive overview of the topic of Criminological Psychology. The book includes both classic and contemporary psychological theory and research on a range of criminological issues including the nature, measurement and causes of crime, police work and offender profiling, eye-witness memory, trial procedures, jury decision making and the treatment of crime. Putwain and Sammons have produced an introductory text which covers the material on this topic in the A2 components of the AQA-B, OCR and Edexcel A-Level specifications. *Psychology and Crime* is also ideal for undergraduate students looking for an introduction to criminological psychology and for students studying psychology and media. It will also be useful for those who work in fields related to criminology such as the police and probation services, social workers and therapists.

Micro-Place Homicide Patterns in Chicago Andrew P. Wheeler, Christopher R. Herrmann, Richard L. Block. 2020-12-10 This brief examines 36,263 homicides in Chicago over a 53-year study period, 1965 through 2017, at micro place grid cells of 150 by 150 meters. This study shows not only long-term historical patterns of homicides in Chicago, but also places that historical context of homicide in reference to the dramatic increases in homicides in 2016-2017. It uses several different inequality metrics, as well as kernel density maps to demonstrate that homicides were more clustered in the 1960's compared to later periods. Using zero inflated group-based trajectory models, it demonstrates the long-term temporal stability of homicides at micro places. This brief will be of interest to researchers in policing, homicide, and research methods in criminology.

Handbook of Asian Criminology Jianhong Liu, Bill Heberton, Susyan Jou. 2012-12-09 The Handbook of Asian Criminology aims to be a key reference for international scholars with an interest in the broad theme of international criminology in general, and the Asian region in particular. Contextualization is a key theme in this book. The role of context is often underemphasized in international criminology, so the Handbook of Asian Criminology's premise that crime and the responses to it are best understood as deeply embedded in the cultural specificity of the environment which produces them will play a key role throughout the work. Attention will be given to country- and region specific attitudes towards crime and punishment.

Environmental Criminology Martin A. Andresen. 2023-11-09 The field of environmental criminology is a staple theoretical framework in contemporary criminological theory. This fully revised and expanded edition of the world's first comprehensive and sole-authored textbook on this influential school of criminological thought covers a wide range of topics, including: the origins of environmental criminology; the primary theoretical frameworks, such as social disorganization theory, the routine activity approach, geometry of crime, rational choice perspective, and multilevel models that integrate environmental criminology; the practical application of environmental criminology; an examination of how theories are operationalized and tested; and policy implications for the practice of crime prevention. As well as these popular topics, Martin Andresen also discusses a number of topics that are at the leading edge of research within environmental criminology. New to the third edition is an expanded coverage on multilevel models of environmental criminology, harm indices, crime mapping, hot-spot policing, and future directions in environmental criminology. This text will be ideal for courses on crime prevention, where students are often encouraged to consider policy problems and apply theory to practice. This book offers up environmental criminology as a theoretical framework for making sense of complex neighborhood problems, so it is also perfect for courses on geography of crime, crime analysis, and, indeed, environmental criminology. It would also be a good supplement for courses on criminological theory.

Quantitative Studies in Green and Conservation Criminology Michael J. Lynch, Stephen F. Pires. 2019-07-17 During the

early development and throughout the short history of green/conservation criminology, limited attention has been directed toward quantitative analyses of relevant environmental crime, law and justice concerns. While recognizing the importance of establishing a theory and terminology in the early stages of development, this book redresses this imbalance. The work features contributions that undertake empirical quantitative studies of green/conservation crime and justice issues by both conservation and green criminologists. The collection highlights the shared concerns of these groups within important forms of ecological crime and victimization, and illustrates the ways in which these approaches can be undertaken quantitatively. It includes quantitative conservation/green criminological studies that represent the work of both well-established scholars in these fields, along with studies by scholars whose works are less well-known and who are also contributing to shaping this area of research. The book presents a valuable contribution to the areas of Green and Conservation Criminology. It will appeal to academics and students working in these areas.

Papers from "The Criminologist" Nigel Morland.1971

The Crimes of Wildlife Trafficking Ragnhild Aslaug Sollund.2019-01-22 This book examines trade and trafficking in endangered animal species and how the trade increasingly puts large numbers of nonhuman species at risk. Focusing on illegal trafficking, the book also discusses the harmful aspects of the trade and trafficking which is taking place in concordance with laws and regulations. Drawing on the findings of empirical research from Norway and Colombia, the study discusses how this global, transnational trend is addressed, and features of the trade and the ways in which it is controlled in the two case study locations. It also explores the motives driving the trade, and the consequences in terms of animal abuse and environmental harm. The book discusses whether internationally agreed measures, such as international conventions, actually help prevent the trade. Possible ways to address the harms of wildlife trade are considered, including a total ban. The work draws on a green criminology and eco feminist theoretical framework to provide a broad perspective on concepts such as harm, animal rights, species justice and speciesism.

Gendered Justice? Jo Roberts.2022-08-25 Built upon the foundations of women's real-life experiences, which have real-world implications, Gendered Justice? introduces a range of recommendations and implications for both policy and practice in the field of criminal justice.

An Introduction to American Policing Dennis J. Stevens.2017-05-08 An Introduction to American Policing, Second Edition connects the US criminal justice system, criminology, and law enforcement knowledge to the progress of the police community. It is the perfect resource for a Police Science course.

Forensic Document Examination in the 21st Century Miriam Angel,Jan Seaman Kelly.2020-12-16 Forensic Document Examination in the 21st Century covers the latest technology and techniques providing a complete resource on contemporary issues and methods in forensic document examination. Forensic document examiners provide their findings as

expert testimony in court. Due to rapid changes in technology, including digital documents, printing and photocopying capabilities, and more, there is a great need for this up-to-date reference. The examination of documents can include comparison of handwriting or hand-printing; detection of alterations or photocopier and computer manipulation; restoration or decipherment of erased and obliterated writing; visualization of latent impressions; the identification of printing processes; and differentiation of inks. Computer-generated documents are prevalent, and electronically-captured signatures are becoming more widespread, meaning the knowledge of advances in technology and adoption of new validated techniques and methods of document examination are crucial to the reliability of forensic opinions. *Forensic Document Examination in the 21st Century* includes the latest research on the subject and with contributions from leading experts on their various areas of expertise. The book will be a welcome addition to the literature and support the foundational basis for methods and procedures for use it expert testimony in court, serving as a resource for forensic document examiners, trainees, and those in the criminal and legal communities who use the services of expert document examiners and witnesses

Conservation Criminology Meredith L. Gore.2017-03-14 This important new text introduces conservation criminology as the interdisciplinary study of environmental exploitation and risks at the intersection of human and natural systems. Taking an interdisciplinary approach, the book enhances understanding of the various human and organizational behaviors that pose risks to the environment, humans, and drive conservation crime. As human population growth, global market economies, climate change, deforestation, and illegal exploitation of natural resources continue to increase, academic research from numerous disciplines is needed to address these challenges. *Conservation Criminology* promotes thinking about how unsustainable natural resources exploitation is a cause and a consequence of social conflict. Case studies profiled in the book demonstrate this cause and effect type situation, as well as innovative approaches for reducing risks to people and the environment. This text encourages readers to consider how humans behave in response to environmental risks and the various mechanisms that constitute effective and ineffective approaches to enforcement of wildlife crimes, including environmental and conservation policy. Case studies from the USA, Latin America, Africa, and Asia highlight corruption in conservation, global trade in electronic waste, illegal fishing, illegal logging, human-wildlife conflict, technology and space, water insecurity, wildlife disease, and wildlife poaching. Taken together, chapters expand the reader's perspective and employ tools to understand and address environmental crimes and risks, and to provide novel empirical evidence for positive change. With established contributors providing interdisciplinary and global perspectives, this book establishes a foundation for the emerging field of conservation criminology.

Handbook of Recidivism Risk / Needs Assessment Tools Jay P. Singh,Daryl G. Kroner,J. Stephen Wormith,Sarah L. Desmarais,Zachary Hamilton.2018-02-05 Provides comprehensive coverage on recidivism risk/needs assessment tools Correctional and healthcare professionals around the world utilize structured instruments referred to as risk/needs

assessment tools to predict the likelihood that an offender will recidivate. Such tools have been found to provide accurate and reliable evaluations and are widely used to assess, manage, and monitor offenders both institutionally as well as in the community. By identifying offenders in need of different levels of intervention, examining causal risk factors, and individualizing case management plans, risk/needs assessment tools have proven invaluable in addressing the public health issue of recidivism. *Recidivism Risk/Needs Assessment Tools* brings together the developers of the most commonly-used risk/needs assessment tools to provide a comprehensive overview of their development, peer-reviewed research literature, and practical application. Written by the leading professionals in the field of risk/needs assessment, the book provides chapters on: Recidivism Risk Assessment in the 21st Century; Performance of Recidivism Risk Assessment Instruments in Correctional Settings; Correctional Offender Management Profiles for Alternative Sanctions (COMPAS); the Federal Post-Conviction Risk Assessment Instrument; the Inventory of Offender Risks, Needs, and Strengths (IORNIS); the Level of Service (LS) Instruments; the Ohio Risk Assessment System (ORAS); the Self-Appraisal Questionnaire (SAQ); the Service Planning Instrument (SPIn); the Static Risk Offender Needs Guide-Revised (STRONG-R); the Offender Group Reconviction Scale (OGRS); the Forensic Operationalized Therapy/Risk Evaluation System (FOTRES); the RisCanvi; and more. Systematically identifies currently-validated recidivism risk/needs assessment tools Reviews research on recidivism risk/needs assessment tools used internationally Each chapter presents sufficient detail to decide whether a given recidivism risk/needs assessment tool is right for your practice *Recidivism Risk/Needs Assessment Tools* is ideal for correctional, probation and parole, and behavioral health professionals.

Cybercrime in Context Marleen Weulen Kranenbarg, Rutger Leukfeldt. 2021-05-03 This book is about the human factor in cybercrime: its offenders, victims and parties involved in tackling cybercrime. It takes a diverse international perspective of the response to and prevention of cybercrime by seeking to understand not just the technological, but the human decision-making involved. This edited volume represents the state of the art of research on the human factor in cybercrime, addressing its victims, offenders, and policing. It originated at the Second annual Conference on the Human Factor in Cybercrime, held in The Netherlands in October 2019, bringing together empirical research from a variety of disciplines, and theoretical and methodological approaches. This volume will be of particular interest to researchers and students in cybercrime and the psychology of cybercrime, as well as policy makers and law enforcement interested in prevention and detection.

Working With Kids Who Bully Walter B. Roberts, Jr. 2016-06-14 Shifting our thinking to help break the cycle of bullying We all know bullying impacts the academic and emotional lives of our young people. We see it in our schools and hear about it in the news. Why is it still happening? Often it's because we fail to address the individuals at the heart of the problem—the kids who engage in the behavior. *Working With Kids Who Bully* challenges us to shift our thinking about these

youth. Readers will find Information on cyberbullying, relational aggression, mediation, building empathy, and bibliomedia therapy Strategies and sample dialogue to use with kids who bully Diagrams and charts to clarify suggested approaches

Deaths After Police Contact David Baker.2016-10-18 This book investigates death after police contact in England and Wales in the twenty-first century. It examines how regulatory bodies construct accountability in such cases. Cases of death after police contact have the potential to cause deep unease in society. They highlight the unique role of the police in being legitimately able to use force whilst at the same time being expected to preserve life. People who are from Black, or Minority Ethnic backgrounds, or have mental health issues, or are dependent on substances are disproportionately more likely to die in these cases, and this emphasises the sensitive nature of many of these deaths to society. Deaths after Police Contact examines police legitimacy and the legitimacy of police regulators in these cases. The book argues that accountability is produced by a relatively arbitrary system of regulation that investigates such deaths as individual cases, rather than attempting to learn lessons from annual trends and patterns that might prevent future deaths. It will be of great interest to scholars and upper-level students of policing and criminal justice.

The Spatial Scale of Crime John R. Hipp.2022-12-09 Combining insights from two distinct research traditions—the communities and crime tradition that focuses on why some neighborhoods have more crime than others, and the burgeoning crime and place literature that focuses on crime in micro-geographic units—this book explores the spatial scale of crime. Criminologist John Hipp articulates a new theoretical perspective that provides an individual- and household-level theory to underpin existing ecological models of neighborhoods and crime. A focus is maintained on the agents of change within neighborhoods and communities, and how households nested in neighborhoods might come to perceive problems in the neighborhood and then have a choice of exit, voice, loyalty, or neglect (EVLN). A characteristic of many crime incidents is that they happen at a particular spatial location and a point in time. These two simple insights suggest the need for both a spatial and a longitudinal perspective in studying crime events. The spatial question focuses on why crime seems to occur more frequently in some locations than others, and the consequences of this for certain areas of cities, or neighborhoods. The longitudinal component focuses on how crime impacts, and is impacted by, characteristics of the environment. This book looks at where offenders, targets, and guardians might live, and where they might spatially travel throughout the

environment, exploring how vibrant neighborhoods are generated, how neighborhoods change, and what determines why some neighborhoods decline over time while others avoid this fate. Hipp's theoretical model provides a cohesive response to the general question of the spatial scale of crime and articulates necessary future directions for the field. This book is essential for students and scholars interested in spatial-temporal criminology.

Key Cases, Comments, and Questions on Substantive Criminal Law Henry F. Fradella, Professor and Chair of Criminal Justice Henry F. Fradella. 1999-07 Written by Henry F. Fradella (California State University, Long Beach), this book examines cases with comments, analyses, and discussion questions to help students grasp challenging material and test their knowledge.

Introduction to Policing Steven M. Cox, David Massey, Connie M. Koski, Brian D. Fitch. 2018-11-29 Written and extensively updated by an author team that includes former and current law enforcement officers, *Introduction to Policing* focuses on the thought-provoking, contemporary issues that underscore the challenging and rewarding world of policing. The authors skillfully balance research and practice to offer readers an overview of both the foundations of policing and the expanded role of today's police officers. Evolving with the modern realities of the field, the Fourth Edition discusses major new and ongoing impactful events, such as the political shift marked by the U.S. presidential election of 2016 and expanded coverage of women and minorities in policing. The accessible and engaging writing style, coupled with unique coverage of the issues of policing in multicultural communities, the impact of technology on policing, and policing strategies and procedures, make this bestselling book a must-have.

Criminological Theory J. Robert Lilly, Francis T. Cullen, Richard A. Ball. 2014-10-21 Offering a rich introduction to how scholars analyze crime, *Criminological Theory: Context and Consequences* moves readers beyond a commonsense knowledge of crime to a deeper understanding of the importance of theory in shaping crime control policies. The Sixth Edition of the authors' clear, accessible, and thoroughly revised text covers traditional and contemporary theory within a larger sociological and historical context. J. Robert Lilly, Francis T. Cullen, and Richard A. Ball include new sources that assess the empirical status of the major theories, as well as updated coverage of crime control policies and their connection to criminological theory.

Green Cultural Criminology Avi Brisman, Nigel South. 2014-06-05 Over the last two decades, green criminology has emerged as a unique area of study, bringing together criminologists and sociologists from a wide range of research backgrounds and varying theoretical orientations. It spans the micro to the macro—from individual-level environmental crimes and victimization to business/corporate violations and state transgressions. There have been few attempts, however, to explicitly or implicitly integrate cultural criminology into green criminology (or vice versa). This book moves towards articulating a green cultural criminological perspective. Brisman and South examine existing overlapping research and offer

a platform to support future excursions by green criminologists into cultural criminology's concern with media images and representations, consumerism and consumption, and resistance. At the same time, they offer an invitation to cultural criminologists to adopt a green view of the consumption landscape and the growth (and depictions) of environmental harms. Green Cultural Criminology is aimed at students, academics, criminologists, and sociologists with an interest in green criminology and cultural criminology: two of the most exciting new areas in criminology today.

Handbook on Risk and Need Assessment Faye S. Taxman.2016-11-10 The Handbook on Risk and Need Assessment: Theory and Practice covers risk assessments for individuals being considered for parole or probation. Evidence-based approaches to such decisions help take the emotion and politics out of community corrections. As the United States begins to back away from ineffective, expensive policies of mass incarceration, this handbook will provide the resources needed to help ensure both public safety and the effective rehabilitation of offenders. The ASC Division on Corrections & Sentencing Handbook Series will publish volumes on topics ranging from violence risk assessment to specialty courts for drug users, veterans, or the mentally ill. Each thematic volume focuses on a single topical issue that intersects with corrections and sentencing research.

The Fundamental Questions of Criminology Miklós Vermes.1978

Unraveled Karim H. Vellani.2021-11-22 What cannot be measured, cannot be managed. Despite this axiom, few books in the security industry have tackled the need to truly understand crime. Unraveled: An Evidence-Based Approach to Understanding and Preventing Crime bridges the gap between criminological theories and the practical application of these theories in the real world. Unraveled is applicable to a broad audience of people responsible for making security decisions for

one or hundreds of properties. *Unraveled: An Evidence-Based Approach to Understanding and Preventing Crime* provides a practical approach to understanding crime and the theories which support crime prevention and security measures. Using research, *Unraveled* guides security decision makers to a deeper understanding of the unique nature of crime at their properties, summarizes the theories which support crime prevention efforts, and how to objectively analyze security programs. *Unraveled* discusses crime data sources used in conducting crime analysis and explores ways to organize statistical data and the techniques used in crime analysis such as crime rate analysis, temporal analysis, threshold analysis and more. By explaining the significance of crime statistics relative to crime prevention theory and techniques, *Unraveled* provides readers with a clear, strategic plan to implement and evaluate crime prevention programs and optimize security programs. *Unraveled: An Evidence-Based Approach to Understanding and Preventing Crime* includes an extensive bibliography and 600+ endnotes citing evidence-based research on the following topics: Definition of Crime Analysis Units of Analysis Crime Hot Spots The importance of Place Law Enforcement Data Sources Calls for Service Offense / Incident Reports Uniform Crime Report (UCR) Law Enforcement Data Limitations Crime Typologies Victim-Offender Relationships Violence Escalation Crime Rates Temporal Analysis Spatial Analysis Crime Thresholds Forecasting Modus Operandi Analysis Crime Harm Index Environmental Criminology/Crime Science Problem Analysis Triangle (or new Crime Triangle) Opportunity Structure and Signatures Opportunity Theories Routine Activity Theory Rational Choice Theory Crime Pattern Theory Situational Crime Prevention Crime Prevention Through Environmental Design Problem-Oriented Policing Displacement and Diffusion of Benefits Instrumental vs. Expressive Violence Targeted Violent Crimes Dispute-Related Violent Crimes Predatory Violence Limitations Of Violent Crime Prevention Research

Technocrime and Criminological Theory Kevin F. Steinmetz, Matt R. Nobles. 2017-09-22 Cybercrime, computer crime, Internet crime, and technosecurity have been of increasing concern to citizens, corporations, and governments since their emergence in the 1980s. Addressing both the conventional and radical theories underlying this emerging criminological trend, including feminist theory, social learning theory, and postmodernism, this text paves the way for those who seek to tackle the most pertinent areas in technocrime. *Technocrime and Criminological Theory* challenges readers to confront the conflicts, gaps, and questions faced by both scholars and practitioners in the field. This book serves as an ideal primer for scholars beginning to study technocrime or as a companion for graduate level courses in technocrime or deviance studies.

Disability, Criminal Justice and Law Linda Steele. 2020-04-29 Through theoretical and empirical examination of legal frameworks for court diversion, this book interrogates law's complicity in the debilitation of disabled people. In a post-deinstitutionalisation era, diverting disabled people from criminal justice systems and into mental health and disability services is considered therapeutic, humane and socially just. Yet, by drawing on Foucauldian theory of biopolitics, critical legal and political theory and critical disability theory, Steele argues that court diversion continues disability oppression. It

can facilitate criminalisation, control and punishment of disabled people who are not sentenced and might not even be convicted of any criminal offences. On a broader level, court diversion contributes to the longstanding phenomenon of disability-specific coercive intervention, legitimates prison incarceration and shores up the boundaries of foundational legal concepts at the core of jurisdiction, legal personhood and sovereignty. Steele shows that the United Nations Convention on the Rights of Persons with Disabilities cannot respond to the complexities of court diversion, suggesting the CRPD is of limited use in contesting carceral control and legal and settler colonial violence. The book not only offers new ways to understand relationships between disability, criminal justice and law; it also proposes theoretical and practical strategies that contribute to the development of a wider re-imagining of a more progressive and just socio-legal order. The book will be of interest to scholars and students of disability law, criminal law, medical law, socio-legal studies, disability studies, social work and criminology. It will also be of interest to disability, prisoner and social justice activists.
