Fare business con l'home sharing Antonella Brugnola,2018-03-23T00:00:00+01:00 L'home sharing è un'attività semplice e divertente, adatta a tutti che, se gestita bene dal punto di vista amministrativo e dell'offerta di ospitalità dei turisti, può creare un reddito aggiuntivo. Basato sull'esperienza reale dell'autrice, questo libro è rivolto sia a chi sta per cominciare e non vuole perdere tempo con errori di percorso, sia a chi è già partito e vuole migliorare la sua proposta turistica. Modern Monopolies Alex Moazed,Nicholas L. Johnson,2016-05-31 What do Google, Snapchat, Tinder, Amazon, and Uber have in common, besides soaring market share? They're platforms - a new business model that has quietly become the only game in town, creating vast fortunes for its founders while dominating everyone's daily life. A platform, by definition, creates value by facilitating an exchange between two or more interdependent groups. So, rather than making things, they simply connect people. The Internet today is awash in platforms - Facebook is responsible for nearly 25 percent of total Web visits, and the Google platform crash in 2013 took about 40 percent of Internet traffic with it. Representing the ten most trafficked sites in the U.S., platforms are also prominent over the globe; in China, they hold the top eight spots in web traffic rankings. The advent of mobile computing and its ubiquitous connectivity have forever altered how we interact with each other, melding the digital and physical worlds and blurring distinctions between offline and online. These platform giants are expanding their influence from the digital world to the whole economy. Yet, few people truly grasp the radical structural shifts of the last ten years. In *Modern Monopolies*, Alex Moazed and Nicholas L. Johnson tell the definitive story of what has changed, what it means for businesses today, and how managers, entrepreneurs, and business owners can adapt and thrive in this new era.

journey from a girl growing up on Chicago's South Side to performing on the American Idol stage, where she heard not one but numerous remarks about her look not being right for stardom. Tired of always trying to look the part, and raising a son for whom Jennifer wanted to set a good example, she decided to get healthy. She would lose the weight, once and for all—not for a role, not for a record label, but for herself. Teaming up with Weight Watchers and using their PointsPlus® program, Jennifer learned how to think about food differently, and in the process, changed her life for the better. In *I Got This*, she'll show you how she embraced Weight Watchers as a realistic, healthy way of life and helps anyone who has ever suffered from a weight problem to do the same.

The Third Industrial Revolution Jeremy Rifkin, 2011-10-04 The Industrial Revolution, powered by oil and other fossil fuels, is spiraling into a dangerous endgame. The price of gas and food are climbing, unemployment remains high, the housing market has tanked, consumer and government debt is soaring, and the recovery is slowing. Facing the prospect of a second collapse of the global economy, humanity is desperate for a sustainable economic game plan to take us into the future. Here, Jeremy Rifkin explores how Internet technology and renewable energy are merging to create a powerful Third Industrial Revolution. He asks us to imagine hundreds of millions of people producing their own green energy in their homes, offices, and factories, and sharing it with each other in an energy internet, just like we now create and share information online. Rifkin describes how the five-pillars of the Third Industrial Revolution will create thousands of businesses, millions of jobs, and usher in a fundamental reordering of human relationships, from hierarchical to lateral power, that will impact the way we conduct commerce, govern society, educate our children, and engage in civic life. Rifkin's vision is already gaining traction in the international community. The European Union Parliament has issued a formal declaration calling for its implementation, and other nations in Asia, Africa, and the Americas, are quickly preparing their own initiatives for transitioning into the new economic paradigm. *The Third Industrial Revolution* is an insider's account of the next great

economic era, including a look into the personalities and players — heads of state, global CEOs, social entrepreneurs, and NGOs — who are pioneering its implementation around the world.
