**Empowered by the Human Design: Utilizing the BBARS of Excellence Framework to Foster Student and Educator Success** Katie Pagnotta, MA, LCMHC, 2024-02-06 Youth mental health challenges are on the rise. The educator attrition rate is leaving schools scrambling to fill positions. And everyone is on information overload. As a school counselor, Katie Pagnotta saw these statistics in action and was compelled to create a resource that would synthesize best practices in a way that not only eased the role of the educators but ignited joy within the job. And in doing so, educators would be more aptly positioned to support the needs of all students! Empowered by the Human Design is the culmination of Katie's passion, experience, and research. It takes historically fragmented best-practice initiatives such as social emotional learning, trauma-responsive care, mental health literacy, and equity and integrates them into one framework, Brain- and Body- Aligned Responsive Systems (BBARS) of Excellence. The BBARS of Excellence framework is grounded in evidence-based approaches and strategies within the fields of education, psychology, and neuroscience. Gathering 18 professionals from these respective fields, the author expertly weaves their interviews throughout the book to showcase a tapestry of collective wisdom. Empowered by the Human Design masterfully highlights the research and science behind the framework and then turns the concepts into simple and practical application strategies that educators can implement immediately. This book is an educator survival guide to emerge from challenges as a more resilient, joyful teacher who fosters connection, belonging, and engagement for students.

**Excellence Through Equity** Alan M. Blankstein, Pedro Noguera, Lorena Kelly, 2016-02-26 Excellence Through Equity is an inspiring look at how real-world educators are creating schools where all students are able to thrive. In these schools, educators understand that equity is not about treating all children the same. They are deeply committed to ensuring that each student receives what he or she individually needs to develop their full potential and succeed. To help educators with what can at times be a difficult and challenging journey, Blankstein and Noguera frame the book with five guiding principles of Courageous Leadership: Getting to your core Making organizational meaning Ensuring constancy and consistency of purpose Facing the facts and your fears Building sustainable relationships. They further emphasize that the practices are grounded in three important areas of research that are too often disregarded: (1) child development, (2) neuroscience, and (3) environmental influences on child development and learning. You'll hear from Carol Corbett Burris, Michael Fullan, Marcus J. Newsome, Paul Reville, Susan Szachowicz, and other bold practitioners and visionary thinkers who share compelling and actionable ideas, strategies, and experiences for closing the achievement gap in your classrooms and school. Ensuring that all students receive an education that cultivates their talents and potential is in all our common interest. As Andy Hargreaves writes in the coda: The opportunity for all Americans is to articulate and believe in an inspiring vision of educational change that is about what the next generation of America and Americans should become, not about a target or ranking that the nation should attain. From the Foreword by Archbishop Desmond Tutu: Letting go of a system of winners and losers in favor of what is proposed in this book is a courageous leap forward that we all must take together. Let this bold, practical book be a guide; and may you travel into this new exciting vista, in which every child can succeed.
