Advanced Placement Economics - Macroeconomics Margaret a. Ray,2012 Advanced Placement Macroeconomics is the go-to guide for helping high school teachers to prepare their students for the AP Macroeconomics Exam administered by the College Board. It is designed to provide a basic framework around which you can design an AP Macroeconomics course that best meets the needs of your students. The Teacher Resource Manual provides unit overviews, lesson plan objectives, Teacher Alerts, Bell Ringer activities to jump-start each class, visuals, and answers to the student activities. The lessons include instructional activities that are not in the Student Resource Manual. By dividing the Macroeconomics and Microeconomics Teacher Resource Manuals in two and compartmentalizing various elements such as student activities solutions and sample multiple-choice question answer keys, the materials provide a more intuitive structure and easier navigation of content.

Macroeconomics William J. Baumol,Alan S. Blinder,2007-06 This text is well known for using the Keynesian model in the teaching of economics; yet in recent editions, the authors have expanded coverage of the growth model considerably to achieve more balanced coverage. The text uses the aggregate supply/ aggregate demand model as a fundamental tool for learning macroeconomics. It achieves the right level of rigor and detail, presenting complicated concepts in a relatively straightforward manner and using timely economic data. Using puzzles, issues, and well-developed examples, the authors provide a good balance of theory to application. ThomsonNOW is available with the 2007 Update edition and two new sets of end of chapter questions have been added as well to help students prepare for exams: Test Yourself and Discussion Questions.
