Propaganda and the Public Mind Noam Chomsky, David Barsamian.2015-04-13 One of our greatest political minds "challenges us to think more independently and more deeply about the human consequences of power and privilege" (Norman Solomon, author of *Made Love, Got War*). Renowned interviewer David Barsamian showcases his unique access to Chomsky's thinking on a number of topics of contemporary and historical import. Chomsky offers insights into the institutions that shape the public mind in the service of power and profit. In an interview conducted after the important November 1999 "Battle in Seattle," Chomsky discusses prospects for building a movement to challenge corporate domination of the media, the environment, and even our private lives. Whether discussing US military escalation in Colombia, attacks on Social Security, or growing inequality worldwide, Chomsky shows how ordinary people, if they work together, have the

power to make meaningful change. "In Propaganda and the Public Mind, we have unique insight into Noam Chomsky's decades of penetrating analyses . . . drawn together in one slender volume by a brilliant radio interviewer, David Barsamian." —Ben H. Bagdikian, Pulitzer Prize-winning journalist "To anyone who wonders if ideas, information, and activism can make a profound difference in the twenty-first century, I say: 'Read this book.'" —Norman Solomon, author of *The Habits of Highly Deceptive Media* Praise for Noam Chomsky "The conscience of the American people." —New Statesman "Chomsky is a global phenomenon . . . perhaps the most widely read voice on foreign policy on the planet." —The New York Times Book Review "There is no living political writer who has more radically changed how more people think in more parts of the world about political issues." —Glenn Greenwald, journalist "A truth-teller on an epic scale. I salute him." —John Pilger, journalist, writer, and filmmaker

Why Are Our Pictures Puzzles? James Elkins.2004-11-23 With bracing clarity, James Elkins explores why images are taken to be more intricate and hard to describe in the twentieth century than they had been in any previous century. *Why Are Our Pictures Puzzles?* uses three models to understand the kinds of complex meaning that pictures are thought to possess: the affinity between the meanings of paintings and jigsaw-puzzles; the contemporary interest in ambiguity and 'levels of meaning'; and the penchant many have to interpret pictures by finding images hidden within them. Elkins explores a wide variety of examples, from the figures hidden in Renaissance paintings to Salvador Dali's paranoiac meditations on Millet's *Angelus*, from Persian miniature paintings to jigsaw-puzzles. He also examines some of the most vexed works in history, including Watteau's meaningless paintings, Michelangelo's Sistine Ceiling, and Leonardo's Last Supper.

Euripides and His Age Gilbert Murray. 1913 Most of the volumes of this series are occupied with large subjects and subjects commonly recognized as important to great masses of people at the present day. In devoting the present volume to the study of a single writer, remote from us in time and civilization and scarcely known by more than name to many readers of the Library, I am moved by the belief that, quite apart from his disputed greatness as a poet and thinker, apart from his amazing and perhaps unparalleled success as a practical playwright, Euripides is a figure of high significance in the history of humanity and of special interest to our own generation. Born, according to the legend, in exile and fated to die in exile, Euripides, in whatever light one regards him, is a man of curious and ironic history. As a poet he has lived through the ages in an atmosphere of controversy, generally though by no means always loved by poets and despised by critics.

Global Politics and the Responsibility to Protect Alex J. Bellamy. 2010-12-14 This book provides an in-depth introduction to, and analysis of, the issues relating to the implementation of the recent Responsibility to Protect principle in international relations The Responsibility to Protect (RtoP) has come a long way in a short space of time. It was endorsed by the General Assembly of the UN in 2005, and unanimously reaffirmed by the Security Council in 2006 (Resolution 1674) and

2009 (Resolution 1894). UN Secretary-General Ban Ki-moon has identified the challenge of implementing RtoP as one of the cornerstones of his Secretary-Generalship. The principle has also become part of the working language of international engagement with humanitarian crises and has been debated in relation to almost every recent international crisis - including Sudan, Sri Lanka, Myanmar, Georgia, the Democratic Republic of Congo, Darfur and Somalia. Concentrating mainly on implementation challenges including the prevention of genocide and mass atrocities, strengthening the UN's capacity to respond, and the role of regional organizations, this book introducing readers to contemporary debates on R2P and provides the first book-length analysis of the implementation agenda. The book will be of great interest to students of the responsibility to protect, humanitarian intervention, human rights, foreign policy, security studies and IR and politics in general.

What does the term research actually mean in the practice of art? What is the relation to the scientific methods of alpha, beta or gamma sciences, directed toward knowledge production and the development of a certain scientific domain? What will be the influence of scientific research on the art forms?

Guerre, Politique, Strategie Et Tactique Chez Jomini Ami-Jacques Rapin. 2015-06-15 PRESENTATION Auteur du fameux Précis de l'art de la guerre, Antoine Henri Jomini a également rédigé d'importantes études d'histoire militaire consacrées aux guerres de Sept Ans, de la Révolution et de l'Empire. La méthode historique lui a permis de poser les bases de la réflexion stratégique contemporaine qui trouve également une partie de ses fondements conceptuels et terminologiques dans l'oeuvre de l'écrivain militaire suisse. Ce petit ouvrage offre une présentation et un commentaire critique de l'oeuvre de Jomini, considérée dans son ensemble et enrichie de documents d'archives. Il s'organise autour de neuf notions clés : la géopolitique, la guerre, la politique, la politique militaire, la politique de la guerre, la stratégie, les lignes d'opération, la logistique et la tactique. REVUE DE PRESSE (de la 1ère édition) Ami-Jacques Rapin, qui a déjà beaucoup publié sur le sujet (et d'excellentes choses), nous propose Guerre, politique, stratégie et tactique chez Jomini. [...] Il nous est impossible de nous

étendre sur les contours de cette lecture, sur les formes de cette analyse, un numéro entier de La Nation n'y suffirait pas. Je ne vais pas y aller par quatre chemins : en lisant le travail de Rapin, un enthousiasme s'est emparé de moi, analogue à celui ressenti par le général prussien Rühle von Lilienstern recensant, en 1832, pour une revue savante de Berlin les premiers livres du De la Guerre de son collègue Clausewitz. En effet, cette analyse porte constamment la marque d'une intelligence aigüe, doublée d'une connaissance profonde et méditée du sujet, appuyée sur une information sans faille. A ce titre, on peut considérer qu'il s'agit là d'une des meilleures présentations jamais consacrées à l'oeuvre de l'enfant de Payerne. » (Jean-Jacques Langendorf, La Nation, 25 juillet 2014)

Developing Cultural Identity in the Balkans Raymond Detrez,Pieter Plas.2005 The fundamental contrast between convergent and divergent tendencies in the development of Balkan cultural identity can be seen as an important determinative both in the contradictory self-images of people in the Balkans and in the often biased perceptions of Balkan societies held by external observers, past and present. In bringing together case studies from such heterogeneous lines of research as linguistics, anthropology, political, literary and cultural history, each presenting insightful analyses of micro- as well as macro-level aspects of identity construction in the Balkans, this collection of essays provides a forum for the elucidation and critical evaluation of an intriguing paradox which continues to characterize the cultural situation in the Balkans and which, moreover, is of undeniable relevance for our understanding of recent political developments. As such, it also provides a window into the actual state of scholarly interest in the rich interdisciplinary field of Balkan studies. This book contains a selection of papers presented at the international conference «Developing Cultural Identity in the Balkans: Convergence vs. Divergence», organized by the Center for Southeast European Studies at Ghent University on 12 and 13 December 2003 in Ghent.

Heavenly Serbia Branimir Anzulovic.1999-03 Traces Serbia's nationalist and expansionist impulses to the legendary battle of Kosovo in 1389 As violence and turmoil continue to define the former Yugoslavia, basic questions remain unanswered: What are the forces behind the Serbian expansionist drive that has brought death and destruction to Croatia,

Bosnia and Herzegovina, and Kosovo? How did the Serbs rationalize, and rally support for, this genocidal activity? Heavenly Serbia traces Serbia's nationalist and expansionist impulses to the legendary battle of Kosovo in 1389. Anzulovic shows how the myth of Heavenly Serbia developed to help the Serbs endure foreign domination, explaining their military defeat and the loss of their medieval state by emphasizing their own moral superiority over military victory. Heavenly Serbia shows how this myth resulted in an aggressive nationalist ideology which has triumphed in the late twentieth century and marginalized those Serbs who strive for the establishment of a civil society. The Political Portrait Luciano Cheles,Alessandro Giaccone.2020-06-10 The leader's portrait, produced in a variety of media (statues, coins, billboards, posters, stamps), is a key instrument of propaganda in totalitarian regimes, but increasingly also dominates political communication in democratic countries as a result of the personalization and spectacularization of campaigning. Written by an international group of contributors, this volume focuses on the last one hundred years, covering a wide range of countries around the globe, and dealing with dictatorial regimes and democratic systems alike. As well as discussing the effigies that are produced by the powers that be for propaganda purposes, it looks at the uses of portraiture by antagonistic groups or movements as forms of resistance, derision, denunciation and demonization. This volume will be of interest to researchers in visual studies, art history, media studies, cultural studies, politics and contemporary history.

Dark Heart of the Night Léonora Miano,Editions Plon.2010-04-01 What is Africa's own "heart of darkness"? It is what confronts Ayané when, after three years abroad, she returns to the Central African village of her birth. Now an "outsider" with foreign ways distrusted by her fellow villagers, she must face alone the customs and superstitions that bind this clan of men and women. When invading militia organize a horrific ceremony that they claim will help reunite Africa, Ayané is forced to confront the monstrosity of the act that follows, as well as the responsibility that all the villagers must bear for silently accepting evil done in their name. Through Ayané's unwilling witness, Léonora Miano probes the themes of submission and responsibility and questions the role of Africans in the suffering of their fellows. Also exploring African identity, *Dark Heart of the Night* is a profoundly disturbing novel in its evocation of the darkest side of people driven by their instinct to survive.
