The Cult of Authority Georg G. Iggers.2012-12-06 The present book constitutes an attempt to contribute to the study of the intellectual roots of modern totalitarianism. It is not intended to duplicate the several works on the history of the Saint-Simonian movement, including the excellent study by Charley, or the large periodical literature on various phases of Saint-Simonian economic, literary, aesthetic, feminist, and pacifist thought. Rather it analyzes systematically for the first time the political ideas of the Saint-Simonians and their social and cultural implications. In contrast to previous studies, this book utilizes extensively the periodical literature of the period 1829-1832 during which the political ideas of the movement underwent their greatest development. This study is an outgrowth of a doctoral dissertation written at the University of Chicago. Unlike the dissertation, this book attempts to study Saint-Simonian political ideas within the framework of the intellectual history of the early nineteenth century. I wish to give particular thanks to the members of my doctoral committee, Professors Louis Gottschalk, James L.

Creolization and Diaspora in the Portuguese Indies Stefan Halikowski Smith.2011-09-23 This book examines the sizeable Portuguese community in Ayutthaya, the chief river-state in Siam, during a period in which Portuguese power in the region declined. The analysis turns on the creolization and diaspora that affected this community, as well as problems with international trade, the Christian conversion process, and European rivalries.

Landscapes and Landforms of France Monique Fort,Marie-Françoise André.2013-08-23 The Landforms and Landscapes of France provides an informative and attractive overview of the most scenic landscapes of France. The geodiversity of France is emphasized, for example the glacial landscapes of the Mont-Blanc Massif, the volcanoes of the French Massif

Central, the chalk cliffs and sand dunes of the Atlantic coast, the granitic landscapes of Corsica or the lagoons and coral reefs of French Polynesia. The objectives are to provide the reader with an enjoyable and informative description of the selected sites within their regional geographical and geological settings; to offer an up-to-date survey of the evolution of France's landscape; and to give additional information on the cultural value of the selected sites wherever appropriate (prehistoric paintings, legends related to sites, famous vineyards, etc.). The book is a richly illustrated reference work that makes accessible for the first time a wealth of information currently scattered among many national and regional journals. It will be of benefit to earth scientists, environmental scientists, tourism geographers and conservationists

Waltharius Ekkehard I (Dean of St. Gall).2016 The 'Waltharius', a medieval Latin epic poem of over 1400 lines, richly retells the story of a vigorous Germanic saga in the language and style of classical and Christian Latin poetry. Walter, its hero, is a pagan warrior ready to mock his enemies and mercilessly decapitate them, but also a pious Christian who refrains from premarital sex and stops to pray and ask for God's mercy in the middle of a battle. The poem varies remarkably in tone, providing both fervent moral commentary and bitter black comedy. The growing scholarship on the poem outside of Germany, where it has always been popular, no doubt results from its weird allure and eclectic nature. It has something for everyone. This new edition uses a fresh review of manuscripts - especially the recently discovered fragments at the University of Illinois at Urbana-Champaign - in order to provide a text and apparatus that will aid the reader in understanding the poem's tangled manuscript history. The notes are rather fuller than those of previous English-language editions, providing useful context to understand the complicated relationships among the Germanic, classical Latin, and Christian Latin traditions as well as tracking various themes and stylistic features that the poet employs.

Communication in Peacebuilding Stefanie Pukallus.2021-11-17 This book is concerned with the role that communication - understood as including both the factual and fictional mass media as well as the performative and visual arts - can play in post-civil war peacebuilding. It engages with questions of how a society can move from the civil war conditions of discursive dehumanisation to peaceful cooperation in post-civil war settings and how peacebuilders can help communities utilise the transformative capacity of communication to encourage the reimagining of and engagement with former enemies as co-citizens. Ultimately, civil and peaceful cooperation depends on the observance of discursive civility and the building of safe discursive spaces in which civil engagement between different groups of society (including former combatants and survivors) can safely take place. This book argues that understanding communicative peacebuilding in this way is fundamental to the achievement of self-sustainable everyday peace.

Macrocriminology and Freedom John Braithwaite.2022-02-15 How can power over others be transformed to 'power

with'? It is possible to transform many institutions to build societies with less predation and more freedom. These stretch from families and institutions of gender to the United Nations. Some societies, times and places have crime rates a hundred times higher than others. Some police forces kill at a hundred times the rate of others. Some criminal corporations kill thousands more than others. Micro variables fail to explain these patterns. Prevention principles for that challenge are macrocriminological. Freedom is conceived in a republican way as non-domination. Tempering domination prevents crime; crime prevention reduces domination. Many believe a high crime rate is a price of freedom. Not Braithwaite. His principles of crime control are to build freedom, temper power, lift people from poverty and reduce all forms of domination. Freedom requires a more just normative order. It requires cascading of peace by social movements for non-violence and non-domination. Periods of war, domination and anomie cascade with long lags to elevated crime, violence, inter-generational self-violence and ecocide. Cybercrime today poses risks of anomic nuclear wars. Braithwaite's proposals refine some of criminology's central theories and sharpen their relevance to all varieties of freedom. They can be reduced to one sentence. Strengthen freedom to prevent crime, prevent crime to strengthen freedom. 'A true magnum opus, *Macrocriminology and Freedom* is a thought provoking and generative book from one of criminology's intellectual giants. John Braithwaite reaches far and wide across societies, time, and disciplines to advance no less than a theory of how to build a society that simultaneously reduces both domination and crime. His ambitious ideas on cascades of non-dominating collective efficacy and crime prevention, for example, and their connections to social movements and political freedom, go well beyond usual criminological discourse. Chock full of theoretical propositions and bold insights, this a book that will keep criminologists busy for years. *Macrocriminology and Freedom* should not just be read, but better yet, savoured.' - Robert J. Sampson, Henry Ford II Professor of the Social Sciences, Harvard University 'In this majestic theorisation of the relationship between crime and freedom John Braithwaite isolates the unique power of macrocriminology as a lens through which to comprehend and challenge many of the fundamental crises facing our planet. Very few scholars have the breadth and overview to succeed in a mission of this order ... Braithwaite does. This extraordinary book is an object lesson for all who seek to understand and resist domination and the crimes of power that flow from it.' - Penny Green, Professor of Law and Globalisation, Queen Mary University of London 'For over 40 years, John Braithwaite has been a voice of wisdom, hope and humanity in criminology. This dazzling new book weaves together all the main themes of his influential work, reanimating many of the core concepts of the discipline, as well as incorporating interdisciplinary resources from south and north, east and west, to produce an elegant and ambitious explanatory and normative account of crime as freedom-threatening domination. Decentring criminal justice as the solution to crime, Braithwaite shows that, on a global scale, the aspiration to tackle crimes, ranging from interpersonal violence through corporate crimes to ecocide, lies in the development of freedom-enhancing, power-tempering institutions in the political, economic and social spheres.' - Nicola Lacey, Professor of Law, Gender and Social Policy, London School of

Economics 'Macrocriminology and Freedom is a criminological epic, an expansive and erudite story that sweeps across history and contexts. The book is frightening in showing how cascading events can produce catastrophes from crime to environmental destruction. But in the end, its message is hopeful, identifying pathways—or “normative rivers”—for guiding freedom from domination and crime. Drawing on his distinguished career, John Braithwaite has bestowed an extraordinary gift—a book, like other masterpieces, that will yield special insights each time we take an excursion through its pages.' - Francis T. Cullen, Distinguished Research Professor Emeritus, University of Cincinnati 'In this engaging book John Braithwaite reinvigorates discussions about crime and its control. While advocating a macro approach, the book is punctuated not only with insights and data from smaller-scale studies conducted in a range of jurisdictions, but also with auto-biographical vignettes. The effect creates a deeply personal account of the perils of state, non-state and market violence and authoritarianism and the potential and indeed duty, of criminologists to work towards their reduction, by refocusing their efforts on explaining and tackling crime in its myriad of forms.' - Mary Bosworth, Professor of Criminology, University of Oxford and Monash University 'John Braithwaite has had a unique influence on criminology globally. In this encyclopaedic text he synthesises a wealth of criminological knowledge, particularly in the sphere of anomie theory, into broader debates about the nature of domination and freedom in contemporary society. He defends the relevance of criminological theory, while urging criminology to be activist rather than reactive and technocratic, counter-hegemonic rather than neutral. Not for the first time, John Braithwaite has challenged criminologists to construct theories that cut across micro and macro structures. This book will stir debate. It deserves a broad readership.' - Harry Blagg, Professor of Criminology, University of Western Australia

Electrical Palestine Fredrik Meiton.2019-01-15 Electricity is an integral part of everyday life—so integral that we rarely think of it as political. In *Electrical Palestine*, Fredrik Meiton illustrates how political power, just like electrical power, moves

through physical materials whose properties govern its flow. At the dawn of the Arab-Israeli conflict, both kinds of power were circulated through the electric grid that was built by the Zionist engineer Pinhas Rutenberg in the period of British rule from 1917 to 1948. Drawing on new sources in Arabic, Hebrew, and several European languages, *Electrical Palestine* charts a story of rapid and uneven development that was greatly influenced by the electric grid and set the stage for the conflict between Arabs and Jews. Electrification, Meiton shows, was a critical element of Zionist state building. The outcome in 1948, therefore, of Jewish statehood and Palestinian statelessness was the result of a logic that was profoundly conditioned by the power system, a logic that has continued to shape the area until today.

Knowledge and the Indian Ocean Sara Keller.2018-09-27 This volume examines Western India's contributions to the spread of ideas, beliefs and other intangible ties across the Indian Ocean world. The region, particularly Gujarat and Bombay, is well-established in the Indian imaginary and in scholarship as a mercantile hub. These essays move beyond this identity to examine the region as a dynamic place of learning and a host of knowledge, tracing the flow of knowledge, aesthetic sensibilities, values, memories and genetic programs. Contributors traverse the fields of history, anthropology, agriculture, botany, medicine, sociology and more to offer path-breaking perspectives on Western India's deep socio-cultural impact across the centuries. Western India emerges as a pivotal region in the maritime world as a transmitter of knowledge.

HRD Perspectives on Developmental Relationships Rajashi Ghosh,Holly M. Hutchins.2022-01-04 Developmental relationships constitute interdependent, generative connections that promote growth and learning among individuals. While studies reporting the impact of developmental relationships on learning, performance, and career development leaves no doubt about its relevance to the human resource development (HRD) field, we lack an in-depth understanding of how developmental relationships apply to the myriad of topics relevant to contemporary HRD research and practice such as social justice, diversity and equity, leadership development, career transitions, knowledge sharing, organization development, employee engagement, organizational learning culture, globalization, national HRD, and technology at work. This book presents a comprehensive collection of evidence-based studies and conceptual articles that explore how developmental relationships that are cultivated within and outside of the workplace apply to those clusters of topics in HRD. Organized around six themes, the chapters examine topics such as knowledge management, critical perspectives on gender, diversity, and equity, building a learning organization, talent development, and emotional closeness in the context of virtual workplaces. In doing so, the book highlight how research on developmental relationships can be the underlying thread connecting the otherwise disconnected varied topical foci of HRD research and practice, thus broadening our understanding of the relevance of developmental relationships within the HRD field. This volume advances HRD scholarship and will appeal to researchers interested in exploring the nature and benefits of developmental relationships including mentoring and

coaching.

Research Anthology on Improving Health Literacy Through Patient Communication and Mass Media

Management Association, Information Resources.2021-07-16 Increasing health literacy among patients is a difficult task as medical jargon and healthcare directions can be overwhelming and difficult to comprehend. In today's digital world, people are more connected than ever before and have the ability to find healthcare information in a way that was not possible in recent years. Mass media and social media have become particularly influential in conveying health information to the public. With the amount of misinformation being spread, coupled with poor health literacy skills, it is imperative that new strategies and policies are undertaken to ensure that patients and the general public receive accurate information and are appropriately educated in order to provide them with the best possible knowledge and care. The Research Anthology on Improving Health Literacy Through Patient Communication and Mass Media provides an overview of the importance of health literacy and the various means to achieve health literacy for patients using several strategies and elements such as patient communication and mass media. The book covers health awareness challenges that have been faced recently and historically and pushes for better patient-provider communication. The book also examines the use of social media, virtual support groups, and technological tools that aid in the facilitation of health knowledge. Covering a range of key topics such as patient safety, health illiteracy, and eHealth, this anthology is crucial for healthcare professionals, researchers, academicians, students, and those interested in understanding the importance of health literacy and how it connects to media and communication.

Knowledge and Civil Society Johannes Glückler,Heinz-Dieter Meyer,Laura Suarsana.2021-12-08 This open access book focuses on the role of civil society in the creation, dissemination, and interpretation of knowledge in geographical contexts. It offers original, interdisciplinary and counterintuitive perspectives on civil society. The book includes reflections on civil and uncivil society, the role of civil society as a change agent, and on civil society perspectives of undone science. Conceptual approaches go beyond the tripartite division of public, private and civic sectors to propose new frameworks of civic networks and philanthropic fields, which take an inclusive view of the connectivity of civic agency across sectors. This includes relational analyses of epistemic power in civic knowledge networks as well as of regional giving and philanthropy. The original empirical case studies examine traditional forms of civic engagement, such as the German landwomen's associations, as well as novel types of organizations, such as giving circles and time banks in their geographical context. The book also offers insider reflections on doing civil society, such as the cases of the Umbrella Movement in Hong Kong, epistemic activism in the United States, and the #FeesMustFall movement in South Africa.

Hmong-Miao in Asia Nicholas Tapp,Jean Michaud,Christian Culas,Gary Y. Lee.2004 This volume presents the most comprehensive collection of research on Hmong culture and life in Asia yet to be published. It compliments the abundant material on the Hmong diaspora by focusing instead on the Hmong in their Asian homeland. The contributors are scholars from a number of different backgrounds with a deep knowledge of Hmong society and culture, including several Hmong. The first group of essays addresses the fabric of Hmong culture by considering issues of history, language, and identity among the Hmong/Miao from Laos to China. The second part introduces the challenges faced by the Hmong in contemporary Thailand, Laos, and Vietnam. Nicholas Tapp is senior fellow in anthropology at the Australian National University. Jean

Michaud is associate researcher in Asian studies at University de Montreal. Christian Culas is a member of the National Center for Scientific Research in Marseille. Gary Yia Lee is senior ethnic liaison officer for New South Wales.

Arab Society Nicholas S. Hopkins,Saad Eddin Ibrahim.1997 This all-new edition of the classic Arab Society: Social Science Perspectives, containing thirty new articles by leading scholars, examines Arab society in the 1990s. Articles by scholars from many countries explore such subjects as Arab unity and identity; demographic processes; the roles of men, women, and family; rural social change; political developments; and religious change. For students, scholars, and general readers alike, Arab Society offers up-to-date analysis and discussion of the social, political, and economic transformations that face the region today.

Women's Human Rights Niamh Reilly.2013-04-23 Women's Human Rights: Seeking Gender Justice in a Globalising Age explores the emergence of transnational, UN-oriented, feminist advocacy for womens human rights, especially over the past three decades. It identifies the main feminist influences that have shaped the movement liberal, radical, third world and cosmopolitan and exposes how the Western, legalist, state-centric, and liberal biases of mainstream human rights discourse impede the realisation of human rights in womens lives everywhere. The book traces the evolution of the womens human rights movement through an examination of its key issues, debates, and practical interventions in international law and policy arenas. This includes efforts to: Develop global gender equality norms via the UN Womens Convention Frame violence against women as a human rights issue Address gender-based crimes in conflict situations, include women in conflict resolution and post-conflict reconstruction, and challenge new forms of militarism Highlight the gendered human rights dimensions of widening inequalities in a context of neo-liberal globalisation Develop human rights responses to anti-feminist fundamentalist movements with a focus on reproductive and sexual rights Ultimately, Women's Human Rights reaffirms a

commitment to critically reinterpreted universal human rights principles and demonstrates the vital role that bottom-up, transnational movements play in making them a reality in women's lives.

Europe and the Mystique of Islam Maxime Rodinson.2002-11-23 For centuries the Islamic world has, by turns, been both reviled and admired in the West. Since the time of the Crusades, Europeans have viewed Muslim culture and religion through the unique distorting lens of Orientalism, colouring all aspects of their perception and generating a curious blend of fascination and distrust. Historian, sociologist and Middle East specialist Maxime Rodinson presents an account of this relationship, in a history that is balanced and concise yet insightful.
