VAS Steve Tomasula, Stephen Farrell, 2004 Printed in the colors of flesh and blood, VAS: An Opera in Flatland--a hybrid image-text novel--demonstrates how differing ways of imagining the body generate diverse stories of history, gender, politics, and, ultimately, the literature of who we are. A constantly surprising, VAS combines a variety of voices, from journalism and libretto to poem and comic book. Often these voices meet in counterpoint, and the meaning of the narrative emerges from their juxtapositions, harmonies, or discords. Utilizing a wide and historical sweep of representations of the body--from pedigree charts to genetic sequences--VAS is, finally, the story of finding one's identity within the double helix of language and lineage.

Fair Balance: Proportionality, Subsidiarity and Primarity in the European Convention on Human Rights Jonas Christoffersen, 2009-06-02 Set against previous stages of minority protection under international law, this book discusses the role of courts and court-like bodies - particularly in the Americas, Africa and Europe - in articulating and accommodating the interests and needs of ethno-cultural minority groups as part of the human rights discourse. Conceptually, it exposes different moments of intervention by such bodies involving the recognition of group existence or identity, the adjustment of human rights norms to accommodate the group's perspectives, the establishment of processes designed to address the complexities resulting from competing claims, and the expansion of procedural avenues within litigation. The result is a fresh comparative - practical and theoretical - perspective on international jurisprudence as an emerging distinctive component in the complex history of the field.

Philosophy in a Time of Terror Giovanna Borradori, 2013-05-28 The idea for Philosophy in a Time of Terror was born hours after the attacks on 9/11 and was realized just weeks later when Giovanna Borradori sat down with Jürgen Habermas and Jacques Derrida in New York City, in separate interviews, to evaluate the significance of the most destructive terrorist act ever perpetrated. This book marks an unprecedented encounter between two of the most influential thinkers of our age as here, for the first time, Habermas and Derrida overcome their mutual antagonism and agree to appear side by side. As the two philosophers disassemble and reassemble what we think we know about terrorism, they break from the familiar social

and political rhetoric increasingly polarized between good and evil. In this process, we watch two of the greatest intellects of the century at work.

Diritto naturale e volontà generale Gabriella Silvestrini,2010

Treaty Series / Recueil Des Traités United Nations,2007-11-02

The Emergence of Personal Data Protection as a Fundamental Right of the EU Gloria González Fuster,2014-04-28 This book explores the coming into being in European Union (EU) law of the fundamental right to personal data protection. Approaching legal evolution through the lens of law as text, it unearths the steps that led to the emergence of this new right. It throws light on the right's significance, and reveals the intricacies of its relationship with privacy. The right to personal data protection is now officially recognised as an EU fundamental right. As such, it is expected to play a critical role in the future European personal data protection legal landscape, seemingly displacing the right to privacy. This volume is based on the premise that an accurate understanding of the right's emergence is crucial to ensure its correct interpretation and development. Key questions addressed include: How did the new right surface in EU law? How could the EU Charter of Fundamental Rights claim to render 'more visible' an invisible right? And how did EU law allow for the creation of a new right while ensuring consistency with existing legal instruments and case law? The book first investigates the roots of personal data protection, studying the redefinition of privacy in the United States in the 1960s, as well as pioneering developments in European countries and in international organisations. It then analyses the EU's involvement since the 1970s up to the introduction of legislative proposals in 2012. It grants particular attention to changes triggered in law by language and, specifically, by the coexistence of languages and legal systems that determine meaning in EU law. Embracing simultaneously EU law's multilingualism and the challenging notion of the untranslatability of words, this work opens up an inspiring way of understanding legal change. This book will appeal to legal scholars, policy makers, legal practitioners, privacy and personal data protection activists, and philosophers of law, as well as, more generally, anyone interested in how law works.

La Dichiarazione universale dei diritti umani Raffaella Gherardi,2020-06-17T17:10:00+02:00 L'approvazione della Dichiarazione universale dei diritti umani (1948) è unanimemente riconosciuta come un evento storico cruciale, una pietra miliare nel lungo cammino delle idee e delle norme sui diritti umani e nella riconfigurazione delle relazioni tra gli Stati, oltre che tra Stati e cittadini. Se nel corso degli anni i diritti umani sono innegabilmente divenuti un paradigma etico-politico, un linguaggio e un corpus normativo saldo, potente (talvolta prepotente?), i problemi connessi al loro fondamento, alla loro giustificazione e alla loro universalità, così come alla loro violazione, applicazione selettiva ed esportazione paternalistica, continuano a rimanere aperti.

A History of Human Rights in Canada Janet Miron,2009 Human rights, equality, and social justice are at the forefront of

public concern and political debate in Canada. Global events--especially the war on terrorism—have fostered further interest in the abuse of human rights, especially when sanctioned or perpetuated by democratic governments. This groundbreaking contributed volume seeks to shed light on this topic by uniting original essays that examine the history of human rights in Canada. Contributors explore a variety of themes integral to the post-confederation period, including immigration and ethnicity, gender, sexuality, class, disability, state formation, and provincial-federal relations. Three key issues emerge throughout: incidents of discrimination in both government and society, the efforts of human rights and civil liberties activists to create a more open and tolerant society, and the implementation of state legislation designed to protect or enhance civil rights.

Fundamental Rights in European Contract Law Chantal Mak,2008-01-01 Our modern insistence on democratic social values has engendered an intense debate over the intersection of fundamental rights and contract law. In particular, case law in several European national jurisdictions has exerted significant pressure on traditional contract law instruments to conform more transparently with the fundamental rights enshrined in the EC Charter. This pressure is clearly evident in a number of societal areas subject to contract law, among them employment, housing, and privacy. It can even be argued, as this author does, that fundamental rights intermediate between politics and law. Taking its cue from many initiatives toward the development of a more coherent, even harmonised, European contract law, this book is the first major study to examine the following essential questions with detailed reference to actual judicial developments: • To what extent do fundamental rights affect contract law? • In which types of cases can fundamental rights be applied? • What does the explicit consideration of fundamental rights add to contract law adjudication? The author approaches the analysis along two different avenues: first, a comparative overview of developments in case law, and second, a more general theoretical view on the interaction between fundamental rights and rules of contract law which is tested against examples from various legal systems. The focus throughout is on developments in case law, because the impact of fundamental rights in contract law has been felt on the level of dispute resolution rather than on the level of legislation. Germany and the Netherlands are chosen because their judiciaries have been notable for their early and continuing attention to the theme, and England and Italy for perspectives on developments under common law and civil law systems respectively.

Innovation and Transition in Law: Experiences and Theoretical Settings , This book features a discussion on the modernisation of law and legal change, focusing on the key concepts of innovation and transition. These concepts both appear to be relevant and poorly defined in contemporary legal science. A critical reflection on the heuristic value of these categories seems appropriate, particularly considering their dyadic value. While innovation is increasingly appearing in the

present day as being the category in which one looks at the modernisation of law, the concept of transition also seems to be the privileged place of occurrence for such dynamics. This group of Italian and Brazilian scholars contributing to this volume intends to investigate such problems through an interdisciplinary prism. It includes points of view both internal to legal studies - such as the history of law, theory of law, constitutional law, private law and commercial law - and external, such as political philosophy and history of justice and political institutions.

A History of European Law Paolo Grossi, 2010-02-04 This book explores the development of law in Europe from its medieval origins to the present day, charting the transformation from law rooted in the Church and local community towards a recognition of the centralised, secular authority of the state. Shows how these changes reflect the wider political, economic, and cultural developments within European history Demonstrates the diversity of traditions between European states and the possibilities and limitations in the search for common European values and goals

Roma Tre Law Review - 01/2020 Giulio Napolitano, Giorgio Resta, 2020-07-14 "Roma Tre Law Review" is a law review sponsored by the Department of Law of the University of Roma Tre. It is not focused on a specific topic or a set of issues, but it is aimed at surveying transversally - and from an interdisciplinary perspective - the national and trans-national legal landscape. Its main aim is to promote the diffusion of the Italian legal culture, and namely the type of scholarship produced at Roma Tre, abroad, as well as to investigate the development of the law in several fields and places from an Italian and European viewpoint. Accordingly, the review will host contributions ideally characterized by a specific set of features, and namely by their openness to comparative, historical, and interdisciplinary perspectives on all legal issues of not strictly local concern.
