It allows the mother to embrace all of the love, caring, nurturing, and desire she gave to the child from contemplation to birth and beyond. It takes so much love to tell the story of how the child came to be, and this..... is a love story. Lori Metz brings her compassionate love and grounded wisdom to help families come to greater acceptance, understanding and celebration of their journey with egg-donation. This book is a gift that parents and their children will appreciate and treasure! Dr. Miriam Pineles, DACM, L.AC. A reproductive tissue donor (egg, sperm or embryo) is an important partner in family building for hundreds of thousands of families. They say that DNA does not make a family- LOVE does. That resonates with many of us who have adopted aunties, uncles, cousins etc into their tribe, who have strained or non-existent relationships with blood relatives, who have blended families of any kind. Biology is not destiny! Who we are is shaped by our environment, by our education and upbringing. Being a parent is NOT defined by genetics. I 'Dreamed of You' is a comforting ritual for anyone on a family building (through reproductive tissue donation or otherwise) journey. Carol Lunn Curchoe, PhD, Reproductive Physiologist & Founder, ART Compass www.artcompass.io This book is a wonderful tribute to the love between parent and child and the journey many parents embark on to meet their babies. Insider's Guide to Egg Donation Wendie Wilson-Miller,Erika Napoletano.2012-04-12 In their search for alternative means for building a family, those who face infertility turn to the nearly 500 reproductive specialty clinics across the United States. While egg donors enter into the picture for a variety of reasons, every reason has the same desired result: a family to call one's own. Same-sex and single-by-choice parents are more prevalent than ever in the fertility industry, and there is no definitive, up-to-date guide to help families of all types approach egg donation, especially these niche groups. Resources are fragmented, true regardless of the family structure. The Insider's Guide to Egg Donation is the first how-to-handbook that helps families of all types navigate the less talked about but widely practiced egg donor landscape with a warm and friendly tone, giving those in search of a different kind of stork the answers and information they need as they begin to research

family-building options.

More Than Just a Baby Sarah Jefford. 2020-07-30 The complexity of Surrogacy is arguably made even more so by the very nature of it being a decision many families reach due to the greatest of emotional challenges. There are so many opportunities for things to go wrong, but also the greatest of happy outcomes for so many families too. As a specialist surrogacy lawyer and a surrogate in 2018, Sarah Jefford has observed many surrogacy teams both flourish and struggle, and that has led to this very important book. In order to maximise every potential for things to go well for both intended parents and surrogate mothers, we need to make informed decisions that protect the interests of everyone involved, but most importantly that are in the best interests of the children - those who are already here, and those who will be in the future. If you want to know answers to the questions of how does surrogacy work, and the surrogate mother process, then this book will be your best place to start. But keep it handy throughout the entire process so that as your journey progresses, you will be able to understand the many aspects of surrogate pregnancy, intended parents roles, and each other's vital roles in creating a family together.

Professional guidance dictates that the parents of egg-donor children may like to raise their child with the knowledge that they are from an egg-donor pregnancy. That way, the children can grow up with the knowledge of where they come from, and the fact will always be there, ready to be processed when they start to understand the facts of life. This book is intended to help parents with this task. It is targeted at very young children (aged 2 to 4 years), with lots of big pictures and few words. It explains how their parents fell in love but did not have a baby, so they went to the hospital and someone special

gave them an egg. As with all books in the 'Your Story' series, there is a space for a picture of the child concerned on the last page.
