Portare i piccoli_2a edizione Esther Weber, 2014-04-10 Da diversi anni la modalità di portare i bambini addosso è un fenomeno in crescita anche nel nostro Paese. Portare i piccoli chiarisce che portare, oltre ad essere una pratica antica tutt'ora presente in molte parti del mondo, è una modalità rispettosa e adatta nella relazione tra genitori e figli anche nella realtà occidentale, e lo fa rispondendo in maniera pronta e sicura ai molti quesiti pratici di chi porta, offrendo nello stesso tempo una disamina oggettiva sui supporti ausiliari reperibili (fasce porta bebè, marsupi, zaini porta-bambini, etc.) e delle tecniche più semplici che le neo-mamme e i neo-papà possono adottare. Esther Weber, svizzera tedesca, è madre di due bambine. Vive in Italia dal 1995. Dopo la maturità classica linguistica ed un percorso lavorativo che le ha permesso di raccogliere esperienze in diversi ambienti sanitari, sociosanitari ed aziendali, si dedica dal 2001, in occasione della gravidanza e nascita della prima figlia, teoricamente e praticamente al tema del portare i piccoli. Ha progettato e realizzato interamente il sito indipendente di informazione www.portareipiccoli.it. È socia fondatrice e presidente dell'associazione Portare i piccoli, che promuove in Italia la cultura del portare attraverso l'informazione accurata ed indipendente ed una formazione di qualità. Tiene incontri informativi e corsi per genitori. È consulente per la formazione al portare ad operatori della prima infanzia.

La vita è una Martina Colombari, Luca Serafini, 2011-02-16 Fotografi che ti chiamano, estranei che ti ammirano, fan che ti acclamano, persone ossequiose che fanno gli zerbini. E quando torni a casa, un marito che commenta: Vallo a dire agli operai della Breda, che sei stanca. Martina ha solo sedici anni quando viene eletta Miss Italia nel 1991. La sua vita da adolescente della provincia romagnola è stravolta: passerelle, copertine, interviste e la relazione con il campione di sci Alberto Tomba. Non sarà facile tenere i piedi per terra evitando le trappole del mondo scintillante e infido in cui è entrata, ma le soddisfazioni non mancheranno: programmi in tv e radio, ruoli cinematografici, tanti incontri importanti da Sean Penn a Berlusconi. Aggiungiamo il colpo di fulmine con l'ex difensore del Milan Alessandro Costacurta, con cui coronerà il sogno di un matrimonio felice e della maternità, e la sua storia diventa quella di una ragazza che dalla vita ha avuto tutto - bellezza, successo, amore. Ma nell'autunno 2007, di fronte alle immagini della Repubblica di Haiti devastata dalla povertà ecco il colpo di scena: Martina parte per l'inferno tropicale. Lavora fianco a fianco con i volontari della Fondazione Rava impegnati nel

tentativo di dare sollievo alle vittime di tanta miseria. Affronta la fatica, l'orrore degli obitori, il dramma di un Paese dove l'ottanta per cento della popolazione vive con meno di due dollari al giorno e un bambino su tre non arriva a compiere cinque anni. In Italia raccoglie fondi, promuove campagne, intensifica il suo impegno dopo il terribile terremoto del gennaio 2010. E capisce che se anche ha fatto molta strada da quel palco del 1991, il viaggio è appena cominciato. In questo suo primo libro Martina si racconta in modo franco, scanzonato e orgoglioso, privo di paure e compromessi. L'autobiografia di una combattente nata, che ha saputo crescere negli affetti, nel lavoro, nella solidarietà, ma che ancora riconosce ogni mattina nello specchio la ragazza che è sempre stata. Quella per cui la vita è una, da vivere senza risparmio.

Secrets of the Baby Whisperer Tracy Hogg, Melinda Blau, 2001-06-01 "TRACY HOGG HAS GIVEN PARENTS A GREAT GIFT-the ability to develop early insight into their child's temperament." -Los Angeles Family When Tracy Hogg's *Secrets of the Baby Whisperer* was first published, it soared onto bestseller lists across the country. Parents everywhere became "whisperers" to their newborns, amazed that they could actually communicate with their baby within weeks of their child's birth. Tracy gave parents what for some amounted to a miracle: the ability to understand their baby's every coo and cry so that they could tell immediately if the baby was hungry, tired, in real distress, or just in need of a little TLC. Tracy also dispelled the insidious myth that parents must go sleepless for the first year of a baby's life-because a happy baby sleeps through the night. Now you too can benefit from Tracy's more than twenty years' experience. In this groundbreaking book, she shares simple, accessible programs in which you will learn: • E.A.S.Y.-how to get baby to eat, play, and sleep on a schedule that will make every member of the household's life easier and happier. • S.L.O.W.-how to interpret what your baby is trying to tell you (so you don't try to feed him when he really wants a nap). • How to identify which type of baby yours is-Angel, Textbook, Touchy, Spirited, or Grumpy-and then learn the best way to interact with that type. • Tracy's Three Day Magic-how to change any and all bad habits (yours and the baby's) in just three days. At the heart of Tracy's simple but profound message: treat the baby as you would like to be treated yourself. Reassuring, down-to-earth, and often flying in the face of conventional wisdom, *Secrets of the Baby Whisperer* promises parents not only a healthier, happier baby but a more relaxed and happy household as well.

Keys to Calming the Fussy Baby William Sears, 1991-12 Here is practical advice on fussy-baby problems: understanding your baby's cries; looking for causes in the baby's diet; clothing and physical surroundings; medical causes for colic; etc.

The Idea of the Republic Norberto Bobbio, Maurizio Viroli, 2003-11-07 In this lively and engaging book, Norberto Bobbio, the distinguished contemporary Italian philosopher, and the political theorist Maurizio Viroli, explore a range of

themes relating to the idea of the Republic and some of the major political and ethical issues of the day. A lively discussion of politics and political theory by one of the world's most distinguished political theorists and philosophers. Provides an excellent introduction to the work of Bobbio for the newcomer. Explains the idea of the Republic and some of the major political and ethical themes of the day. Demonstrates philosophy in action, with a breadth of reference including Machiavelli, Hobbes, Locke, Kant, Rousseau, Pettit and Skinner.

Secrets of the Baby Whisperer for Toddlers Tracy Hogg, Melinda Blau, 2002-01-29 Unnerved by the ceaseless demands of your toddler? Concerned that your two-year-old isn't developing on schedule? You clearly need to spend some time with Tracy Hogg. Nicknamed the "baby whisperer" by grateful parents because of her extraordinary gift for understanding and connecting with children, Tracy became internationally famous after the smashing success of her New York Times bestseller *Secrets of the Baby Whisperer*. Now Tracy is back with the same winning blend of common sense, uncanny intuition, and results-getting guidance in her new book, *Secrets of the Baby Whisperer for Toddlers*. Yes, the toddler years have their stresses and challenges for both parents and children—but with Tracy at your side, you'll find that this can also be the most fascinating and rewarding stretch of parenthood. As in her hugely popular first book, Tracy brings her vast experience to bear on the issues and dilemmas with which all parents grapple during toddlerhood. Starting with the simple but essential premise that there is no such thing as a "typical" child, Tracy guides you through her unique programs, including:

- H.E.L.P. (Hold back, Explain, Limit, Praise): the mantra that will remind you of the four elements that are critical to fostering your child's growth and independence.
- Using T.L.C. (Talk, Listen, Clarify) to communicate with your toddler, to figure out what she is really thinking, and to best help her express herself.
- R&R: the Routines and Rituals that give structure and predictability to daily life and a sense of continuity to holidays and special occasions.
- Rehearsals for Change: ways of preparing your toddler for new experiences by encouraging her to practice her skills in the safe, controlled setting of your family.
- Conscious Discipline: a way of teaching your toddler how to behave and manage his emotions, while being mindful of the lessons you teach with your own behavior.

Tracy knows that your child is special—a one-of-a-kind individual with her own gifts and needs—and she has dedicated this marvelous new book to helping you appreciate and respect your child's uniqueness. Whether it's making new friends, mastering potty training, or eating at the family dinner table, your child will do it in her own way and at his own pace. With Tracy as your guide, you can share in the achievements of toddlerhood every step of the way. Practical, reassuring, and written with wit and energy and boundless enthusiasm for real children and their everyday behavior, this book will be your constant companion during the magical, challenging toddler years.

The Chapel of the Magi in Palazzo Medici Franco Cardini, 2001 The Chapel of the Magi in Palazzo Medici is one of those places in Italy in which history and art combine to bear witness to the past in a way that is absolutely exceptional. In this case it is a period in the past that has been extraordinarily celebrated, studied and loved, so as to achieve an almost mythic

status: the age of the

The Baby Whisperer Solves All Your Problems Tracy Hogg, Melinda Blau, 2010-05-11 The Baby Whisperer gives new parents everything they need to tackle the challenges of sleep, eating habits, tantrums, growth issues, and more! The Baby Whisperer Solves All Your Problems is an in-depth look at the most challenging issues faced by parents of babies and young children today. The book goes beyond the basics introduced in her first two books, becoming a compendium of specific and targeted parenting strategies. Each chapter tackles a different topic, from teaching babies to sleep, feeding techniques, potty training, and much more. Hogg will also discuss her two new Baby Whispering concepts, which are being patient and conscious and learning to detect “prime times”—windows of opportunity for sleep training, introducing bottles (in breast-fed babies), sippy cups, toilet training, and much more. Once you learn how to translate language, the “baby-language” your infant uses to communicate needs, feelings, and opinions, you can see your child for who he or she really is—an understanding that will serve you well as your child blossoms into the toddler years. By helping you establish a daily routine and tailor your parenting strategies according to your child’s unique personality and stage of development, Tracy will teach you how to:

- Employ the Twelve Principles of Problem Solving—simple troubleshooting techniques for everyday situations
- Avoid, or remedy, accidental parenting—inadvertent adult behavior that often leads to such common parenting challenges as sleep problems, poor eating habits, separation anxiety, and tantrums
- Identify windows of opportunity for teaching babies how to get to sleep on their own, introducing bottles to breast-fed babies, toilet training, and other growth issues

For Tracy’s fans, this book will be a welcome addition to the Hogg library; for readers unfamiliar with her philosophy of care, it will open a new world of understanding and insight.

Mussolini's Death March Nuto Revelli, 2013-04-05 In his quest for military glory, Benito Mussolini sent the Italian Eighth Army to the Eastern Front to help fight the Russians, only to have his forces routed within little more than a month of the launch of the Soviet counteroffensives of the winter of 1942-1943. The Cuneense, a division of mountain troops, was hit especially hard, with only a small percentage of its troops straggling back to Italy; the rest were killed in action or died of frostbite or in captivity from malnourishment, overwork, and disease. All told, the Italians suffered roughly 75,000 dead, more than in their six-month campaign in Greece and Albania or in their three years in North Africa. Nuto Revelli, who fought in Russia himself, interviewed forty-three other survivors of the campaign for a book that has become a classic among Italian war memoirs. First published in Italian in 1966 as *La strada del davai*, Revelli's account, now available in English, vividly recaptures the experiences and sobering reflections of these men. It provides a chilling look at an experience that, in English-language writing, has been overshadowed by that of the main actors on the Eastern Front. When news of the rout reached Italy, the shock was devastating. In Revelli's home province of Cuneo, the recruiting territory of the annihilated Cuneense Division, some villages lost almost all men of military age. The resulting rage and bitterness later fueled the

partisan war against the Germans and Italian fascists. The veterans of Mussolini's Death March speak candidly of nights in the open, of extreme cold, gnawing hunger, and eruptive madness. Thousands who survived the Soviet onslaught were taken prisoner and died on the so-called *davai* marches—named for Russian guards' command to keep prisoners moving—or later in the camps themselves. Even so, they developed a favorable impression of the Russian people, who provided hospitality in their small houses and aid to the wounded. Together, their recollections provide an eye-opening look at a largely neglected aspect of World War II.

The Good Sleeper Janet Krone Kennedy, 2015-01-20 A refreshingly straightforward method for training infants to become great sleepers for life, inspired by clinical psychologist Janet Kennedy's popular psychotherapy practice, NYC Sleep Doctor Cry it out or co-sleep? Bassinet or swing? White noise machine or Bach? How many hours anyway? For something so important, there's too much conflicting information about how best to get your baby to sleep through the night and nap successfully during the day. This book is a straightforward, no-nonsense answer to one of the biggest challenges new parents face when they welcome a brand new baby home. This book is written for exhausted parents, giving them immediate access to the information they need. Reassuring and easy to understand, Dr. Kennedy addresses head-on the fears and misinformation about the long-term effects of crying and takes a bold stand on controversial issues such as co-sleeping and attachment parenting. With polarizing figures and techniques dominating the marketplace—and spawning misinformation across the internet—Dr. Kennedy's methods and practices create an extensively researched and parent-tested approach to sleep training that takes both babies' and parents' needs into account to deliver good nights and days of sleep, and no small dose of peace of mind. *The Good Sleeper* is a practical, empowering—and even entertaining—guide to help parents understand infant sleep. This research-based book will teach parents the basics of sleep science, determine how and when to intervene, and provide tools to solve even the most seemingly impossible sleep problems.

WHAT YOU SHOULD KNOW ABOUT YOUR CHILD Maria Montessori, 2005-01-01 Knowledge of childhood is the foundation of the scientific education of Maria Montessori. It is built on the discovered laws of the development of the body and mind of the child. Education is an aid to life. It is the protection of life. It is a help to life according to its own laws of development. This book is a primer in its kind! Easy to read and still full of the knowledge of Maria Montessori!

Ethics and International Politics Luigi Bonanate, 1995 In this study of an issue that has moved to the forefront of international relations, Luigi Bonanate challenges the realist argument that relations between states are essentially amoral and governed exclusively by considerations of power and self-interest. He argues instead for the possibility of a moral theory of international life and, in doing so, lays a foundation for making moral assessments of international politics.

Obsolete Objects in the Literary Imagination Francesco Orlando, 2008-10-01 Translated here into English for the first time is a monumental work of literary history and criticism comparable in scope and achievement to Eric Auerbach's

Mimesis. Italian critic Francesco Orlando explores Western literature's obsession with outmoded and nonfunctional objects (ruins, obsolete machinery, broken things, trash, etc.). Combining the insights of psychoanalysis and literary-political history, Orlando traces this obsession to a turning point in history, at the end of eighteenth-century industrialization, when the functional becomes the dominant value of Western culture. Roaming through every genre and much of the history of Western literature, the author identifies distinct categories into which obsolete images can be classified and provides myriad examples. The function of literature, he concludes, is to remind us of what we have lost and what we are losing as we rush toward the future.

The Farmer and the Obstetrician Michel Odent, 2002 In his new book Michel Odent shows how farming and childbirth have been industrialized side by side during the 20th century - with dramatic and disturbing consequences. The similarities are striking. In both cases innovations have been presented as the long awaited solution to an old problem: the advent of powerful synthetic insecticides has, overnight, dramatically reduced the costs and increased agricultural productivity; the advent of the modern safe technique of caesarean section has offered serious new reasons to create gigantic obstetrical departments. In both spheres a small number of skeptics voiced doubts and fears concerning the negative long-term consequences of the widespread use of novel, little tested practices; although these repeated warnings initially went unheeded, they have motivated the development of alternative approaches and movements. At the turn of the new century the history of industrialized farming has suddenly speeded up. A collective global awareness has been sparked by a series of disasters, particularly mad cow and foot and mouth diseases. Industrialized childbirth has not yet reached the same phase of its history, but the parallels between these two industries suggest that there is more to link the farmer and the obstetrician than we had all realized..

Tickle My Ears Jörg Mühle, 2016-05 It's getting late and time for little rabbit to go to bed. Can you help him with this new bedtime ritual: Clap your hands, plump the pillow, tickle little rabbit's ears, stroke his back, pull up the covers, and a goodnight kiss. And don't forget to turn out the light: here's the switch

The Antlered Ship Dashka Slater, Eric Fan, 2018-09-26 An inquisitive fox sets off on a seafaring voyage with a crew of deer and pigeons in this enchanting tale of friendship and adventure. Marco the fox has a lot of questions, like: how deep does the sun go when it sinks into the sea? And why do birds have such lizardy feet? But none of the other foxes share his curiosity. So when a magnificent ship adorned with antlers and with a deer for a captain arrives at the dock looking for a crew, Marco volunteers, hoping to find foxes who are as inquisitive as he is that can answer his questions. The crew finds adventure and intrigue on their journey. And, at last, Marco finds the answer to his most important question of all: What's the best way to find a friend you can talk to?
