**Performing Rites** Simon Frith, 1998-02-06 Who's better? Billie Holiday or P. J. Harvey? Blur or Oasis? Dylan or Keats? And how many friendships have ridden on the answer? Such questions aren't merely the stuff of fanzines and idle talk; they inform our most passionate arguments, distill our most deeply held values, make meaning of our ever-changing culture. In *Performing Rites*, one of the most influential writers on popular music asks what we talk about when we talk about music. What's good, what's bad? What's high, what's low? Why do such distinctions matter? Instead of dismissing emotional response and personal taste as inaccessible to the academic critic, Simon Frith takes these forms of engagement as his subject--and discloses their place at the very center of the aesthetics that structure our culture and color our lives. Taking up hundreds of songs and writers, Frith insists on acts of evaluation of popular music as music. Ranging through and beyond the twentieth century, *Performing Rites* puts the Pet Shop Boys and Puccini, rhythm and lyric, voice and technology, into a dialogue about the undeniable impact of popular aesthetics on our lives. How we nod our heads or tap our feet, grin or grimace or flip the dial; how we determine what's sublime and what's for real--these are part of the way we construct our social identities, and an essential response to the performance of all music. Frith argues that listening itself is a performance, both social gesture and bodily response. From how they are made to how they are received, popular songs appear here as not only meriting aesthetic judgments but also demanding them, and shaping our understanding of what all music means.

*Music, Encounter, Togetherness* Nicholas Cook, 2024-04-23 In today's technological and globalised world, music remains a basic dimension of society. *Music, Encounter, Togetherness* outlines a relational approach to music that creates space for both human agency and social relationship. Throughout the book, author Nicholas Cook puts Euro-American musical traditions into dialogue with other world music cultures, complementing theory-driven approaches with comprehensive case studies ranging from late eighteenth-century India to contemporary China, and from Debussy's encounter with Javanese music and dance to cross-cultural musicking in Australia and in cyberspace. Through these examples, Cook examines how music affords interpersonal relationship and social togetherness, and what happens when musicians from different cultures interact. Central to the book is the idea of encounter, which highlights the dynamic and processual nature of musicking, as much in therapy or at home as in the jazz club or concert hall. Western musicologists have traditionally thought of music as primarily a repertory of objects; Cook illustrates how thinking of it in processual terms--through an expanded idea of

performance--can make as much sense of Western art music as of other traditions. In basing an understanding of music on acts rather than objects and focussing on people and their relationships rather than on the impersonal forces of evolutionary or stylistic histories, the book opens up ways of thinking that counter some of the dehumanising aspects of musical thinking and practice in global modernity.

**Encounter Images in the Meetings Between Africa and Europe** Mai Palmberg,2001 Positive images of Africa contrast with negative images of misery, war and catastrophes often conveyed by the mass media. This selection of papers debate the images and stereotypes of Africa.

**Phenomenology, Uncertainty, and Care in the Therapeutic Encounter** Mark Leffert,2015-08-11 Phenomenology, Uncertainty and Care in the Therapeutic Encounter is the latest in a series of books where Mark Leffert explores the therapeutic encounter as both process and situation; looking for evidence of therapeutic effectiveness rather than accepting existing psychoanalytic concepts of theory or cure without question. Mark Leffert focuses on the uncomfortable fact that analysts and therapists can and do make many mistaken assumptions and false moves within their clinical practice, and that there is a tendency to ignore the significant levels of uncertainty in what they do. Beginning with a discussion of the phenomenology of the self and its relations with the world, the book moves on to explore the notion that interdisciplinary discourse both opens up possibilities in the therapeutic encounter but also imposes healthy constraints on what can be thought or theorized about psychoanalytically. Phenomenology, Uncertainty and Care in the Therapeutic Encounter contributes a new understanding of familiar material and brings a new focus to the care-giving and healing aspects of psychoanalysis and psychotherapy leading to a shift in the analyst's identity from that of one who analyses to one who cares for and heals. This book will be of interest to Psychoanalysts and psychotherapists, neuroscientists and academics in the fields of psychiatry, comparative literature and literature and the mind.

**Frith's Encounters** David Frith,2014-04-01

Capitals of Punk Tyler Sonnichsen,2019-04-09 Capitals of Punk tells the story of Franco-American circulation of punk music, politics, and culture, focusing on the legendary Washington, DC hardcore punk scene and its less-heralded counterpart in Paris. This book tells the story of how the underground music scenes of two major world cities have influenced one another over the past fifty years. This book compiles exclusive accounts across multiple eras from a long list of iconic punk musicians, promoters, writers, and fans on both sides of the Atlantic. Through understanding how and why punk culture circulated, it tells a greater story of (sub)urban blight, the nature of counterculture, and the street-level dynamics of that centuries-old relationship between France and the United States.

**Agency** James Russell,2013-05-24 The idea behind this book is that developing a conception of the physical world and a conception of mind is impossible without the exercise of agency, meaning the power to alter at will one's perceptual inputs.

The thesis is derived from a philosophical account of the role of agency in knowledge.; The book is divided into three parts. In Part One, the author argues that purely representational theories of mind and of mental development have been overvalued, thereby clearing the ground for the book's central thesis. In Part Two, he proposes that, because objective experience depends upon the experience of agency, the development of the object concept in human infants is grounded in the development of executive-attentional capacities. In Part Three, an analysis of the links between agency and self-awareness generates an original theory of the nature of certain stage-like transitions in mental functioning and of the relationship between executive and mentalizing defects in autism.; The book should be of interest to students and researchers in cognitive- developmental psychology, to philosophers of mind, and to anybody with an interest in cognitive science.

*Soundweaving* Franziska Schroder, Micheal Ó'hAodha, 2014-06-30 This book is about music improvisation. It forges exciting and provocative new links between a range of theories and practices in texts that explore topics as varied as object-oriented ontology, game theory, ethical responsibility and breath. In improvisatory fashion, this book has been edited so that it weaves the texts amongst each other, subversively inserting a tactile piece of text - a text interlaced, as a woven cloth, among the contributing authors. The writings in this volume are both timely and diverse, exploring as they do an array of interdisciplinary and critical discourses, thereby illuminating the field of improvisation from different perspectives within the radical and diverse contexts that undercut contemporary improvisation studies and practices. It consists of eight chapters as researched by practising musicians and theorists and an introduction by one of the most inspiring improvisers of our generation - Evan Parker.

**American Studies Encounters the Middle East** Alex Lubin, Marwan M. Kraidy, 2016-08-24 In the field of American studies, attention is shifting to the long history of U.S. engagement with the Middle East, especially in the aftermath of war in Iraq and in the context of recent Arab uprisings in protest against economic inequality, social discrimination, and political repression. Here, Alex Lubin and Marwan M. Kraidy curate a new collection of essays that focuses on the cultural politics of America's entanglement with the Middle East and North Africa, making a crucial intervention in the growing subfield of transnational American studies. Featuring a diverse list of contributors from the United States, the Arab world, and beyond, *American Studies Encounters the Middle East* analyzes Arab-American relations by looking at the War on Terror, pop culture, and the influence of the American hegemony in a time of revolution. Contributors include Christina Moreno Almeida, Ashley Dawson, Brian T. Edwards, Waleed Hazbun, Craig Jones, Osamah Khalil, Mounira Soliman, Helga Tawil-Souri, Judith E. Tucker, Adam John Waterman, and Rayya El Zein.

*Jerusalem Rising* Doug Hershey, 2021 Documented Proof of the Prophetic Promises of God Revealed Thousands of years ago, the prophet Zechariah foretold that the once-revered city of Jerusalem would again shake off its dust and be revived in peace and security. He predicted it would not only become a center of thriving life and seat of international influence but also

the place where God himself will return to dwell. This stunning new photo-comparison book and follow-up to *Israel Rising* documents the long-awaited and ongoing restoration of a city set in the center of the nations (Ezekiel 5:5). From its famed walls and gates to the beloved Old City and the new city rising up around it, view some of the oldest photos of Jerusalem ever taken (starting in the 1840s) and see them re-created from the same perspective today—some for the first time ever. Author Doug Hershey and adventure-travel photographer Edden Ram gained exclusive access to storied vantage points to reshoot the exact angles of these stunning and seldom-seen historical photos. The result is an awe-inspiring and groundbreaking collection that will captivate hearts and reveal the accuracy of the prophet's words. The book also features fascinating insights into Jerusalem's first photographers and firsthand accounts from pilgrims, locals, and would-be conquerors that capture the longing and desire for this treasured city, spanning almost 2,000 years. Indeed, the reawakening of the City of Peace is at hand.

**Grahame of Claverhouse, Viscount Dundee** Michael Barrington, 1911

**Living Through Pop** Andrew Blake, 2002-01-04 In 1956 many people thought rock 'n' roll was a passing fad, yet over forty years later, more than ever, Popular Music is a part of contemporary culture, reinventing itself for successive generations. Pop embraces its own history, with musicians from every genre routinely sampling the sounds of the past. *Living Through Pop* explores popular music's history, and the ways in which it has been produced by musicians, broadcasters, critics and fans. In discussing this complex relationship between the past and the present, the contributors investigate significant moments in music's history, from the Rolling Stones and the Velvet Underground to the Sex Pistols and the Verve, from drum 'n' bass to European extreme techno.

*Signal to Noise*, 2006

**Seditious Theology** Mark Johnson, 2016-04-01 *Seditious Theology* explores the much analysed British punk movement of the 1970s from a theological perspective. Imaginatively engaging with subjects such as subversion, deconstruction, confrontation and sedition, this book highlights the stark contrasts between the punk genre and the ministry of Jesus while revealing surprising similarities and, in so doing, demonstrates how we may look at both subjects in fresh and unusual ways. Johnson looks at both punk and Jesus and their challenges to symbols, gestures of revolt, constructive use of conflict and the shattering of relational norms. He then points to the seditious pattern in Jesus' life and the way it can be discerned in some recent trends in theology. The imaginative images that he creates provide a challenging image of Jesus and of those who have relooked radically in recent years at what being a 'seditious' follower of Christ means for the church. Introducing both a new partner for theological conversation and a fresh way of how to go about the task, this book presents a powerful approach to exploring the life of Christ and a new way of engaging with both recent theological trends and the more challenging expressions of popular culture.

**Music and Identity** Eric Ayisi Akrofi, Maria Smit, Stig-Magnus Thorsén, 2006-06-01 Due to significant political and social changes over the last decade in their countries and worldwide, many scholars in the Nordic nations and in Southern Africa have been researching on 'music and identity' - an area with a paucity of literature. It is our hope that this book will be beneficial to scholars interested in the field of music and identity. This volume is the result of the Swedish South African Research Network (SSARN) project, funded from 2004-2006 by the Swedish International Development Cooperation Agency (SIDA) and the National Research Foundation (NRF) of South Africa, under the theme 'Music and Identity'. SSARN was founded by Stig-Magnus Thorsén of the University of Gothenburg, Sweden, in 2002 when he invited Nordic and Southern African scholars to participate in a research group focusing broadly on the topic 'Music and Identity'--Publisher's website.

*Routledge Library Editions: Education Mini-Set L Sociology of Education* Various, 2021-06-23 Mini-set L: Sociology of Education re-issues 48 volumes originally published between 1928 and 1990. The books in this mini-set discuss: Teaching and social change, research processes in education, class, race, culture and education, marxist perspectives in the sociology of education, the family and education, the sociology of the classroom and school organization.

*Pupil Strategies* Peter Woods, 2011-12-08 What do pupils actually do in school? There are remarkably few studies that take the pupils' perspective and reconstruct experience from their point of view within the context of their own cultures and careers. This volume brings together a number of research studies on various aspects of how pupils cope with schools. The theoretical papers consider amongst other issues a developmental model of the growth of pupil strategies based on primary and secondary socialisation; a discussion of 'interactionist empiricism' which argues for co-ordinated research between micro and macro perspectives and an extended overview of the general sociological background of work on teacher and pupil strategies. The empirical articles consider a number of themes ranging from strategies employed in answering teacher questions to the power and influence of the pupil peer group in the development of attitudes and behaviour.

*The Cambridge Companion to Pop and Rock* Simon Frith, Will Straw, John Street, 2001-08-16 This Companion maps the world of pop and rock, pinpointing the most significant moments in its history and presenting the key issues involved in understanding popular culture's most vital art form. Expert writers chart the changing patterns in the production and consumption of popular music, the emergence of a vast industry with a turnover of billions and the rise of global stars from Elvis to Public Enemy, Nirvana to the Spice Girls. They trace the way new technologies - from the amplifier to the internet - have changed the sounds and practices of pop and they analyse the way maverick entrepreneurs have given way to multimedia corporations. In particular they focus on the controversial issues concerning race and ethnicity, politics, gender and globalisation. Contains full profiles of a selection of figures from the pop and rock world.
