Artistic Pedagogical Technologies: A Primer for Educators Katherine J. Janzen,Beth Perry,Margaret Edwards.2019-09-19 Research has shown that what students desire most in the post-secondary milieu is engagement. As traditional forms of teaching that include lecture or PowerPoint presentations no longer adequately engage today's technology adept students, educators may find themselves at a loss for where to locate teaching strategies which both engage students, and are tried and tested in an actual classroom setting. This book does just that. It provides a critical look at not only what is lacking in today's classrooms to promote engagement, but actual solutions and strategies to help nurse educators as they prepare to teach. Artistic Pedagogical Technologies were first envisioned by Dr. Beth Perry in 2005, while over twelve years of research confirms that these arts-based teaching strategies actually work. As theory-based topics can be among the most difficult to engage students, included in this book are selected lesson plans that have been employed in actual classrooms. In total thirty five strategies are provided that can be utilized in a variety of classroom settings and applied to various nursing topics. Students, as part of the human family, have an innate need to be creative. This creativity can display itself within Artistic Pedagogical Technologies as a melding of technology, edutainment and play. The strategies in Artistic Pedagogical Technologies: A Primer for Educators have changed the classroom life of the authors as educators, and they can change your teaching too.

A Day in the Life of a College Student Leader Sarah M. Marshall,Anne M. Hornak.2023-07-03 “Sarah Marshall and Anne Hornak have done a magnificent job exploring diverse contexts in which college students expand their individual leadership capacity and learn and practice engaging in relational leadership with others. These cases are realistic because they were gathered from their interviews with real students engaging in leadership. From whatever perspective, students can learn that they are doing leadership when they work with others to address shared issues, solve shared problems, and work toward positive change.” - from the Foreword by Susan R. Komives This book presents over 230 case studies that reflect typical issues faced by undergraduate student leaders. The scenarios cover the range of functional areas of student life.These cases are intended for use by faculty and student affairs professionals as training tools for new student leaders who generally receive little preparation before assuming their positions. Cases provide an opportunity for students to roleplay and discuss scenarios before they encounter potentially similar events in their daily lives as leaders; engage students intensely in their learning, as they work through the issues and problems; and promote meaningful dialogue and discussion of relevant theory.The cases are based on real life dilemmas, and reflect both contemporary and historical campus issues. They are derived from interviews with 110 undergraduates and 11 student affairs administrators from large public research institutions, small privates, community colleges, and mid-sized comprehensive schools.The book begins with guidance on how to use case studies effectively, and on how to incorporate theory in analyzing them. The cases are then grouped into chapters, each of which focuses on a particular type of student organization. The cases vary in length to allow for multiple uses. Shorter cases can be role played and discussed in leadership training workshops, while longer cases can be used as take home assignments or debated during longer training sessions. The book concludes with general advice for student leaders. To assist with the facilitation process, the authors provide discussion questions to begin the analysis of each case.

The cases are written broadly enough to allow for a variety of possible solutions.

The Rhetoric of Cool Jeff Rice.2007-05-11 The Rhetoric of Cool: Composition Studies and New Media offers a historical critique of composition studies' rebirth narrative, using that critique to propose a new rhetoric for new media work. Author Jeff Rice returns to critical moments during the rebirth of composition studies when the discipline chose not to emphasize technology, cultural studies, and visual writing, which are now fundamental to composition studies. Rice redefines these

moments in order to invent a new electronic practice. The Rhetoric of Cool addresses the disciplinary claim that composition studies underwent a rebirth in 1963. At that time, three writers reviewed technology, cultural studies, and visual writing outside composition studies and independently used the word cool to describe each position. Starting from these three positions, Rice focuses on chora, appropriation, commutation, juxtaposition, nonlinearity, and imagery— rhetorical gestures conducive to new media work-- to construct the rhetoric of cool. An innovative work that approaches computers and writing issues from historical, critical, theoretical, and practical perspectives, The Rhetoric of Cool challenges current understandings of writing and new media and proposes a rhetorical rather than an instrumental response for teaching writing in new media contexts.

Unlike other classroom management systems that view problems as something to be “handled,” TCM offers suggestions for creating optimal conditions for learning, performance, motivation, and growth. Praise for Transformative Classroom Management “Transformative Classroom Management is a practical resource that explains the how and why of classroom management for novice and veteran teachers. Fun Home Alison Bechdel.2007 A fresh and brilliantly told memoir from a cult favorite comic artist, marked by gothic twists, a family funeral home, sexual angst, and great books. This breakout book by Alison Bechdel is a darkly funny family tale, pitch-perfectly illustrated with Bechdel's sweetly gothic drawings. Like Marjane Satrapi's *Persepolis*, it's a story exhilaratingly suited to graphic memoir form. Meet Alison's father, a historic preservation expert and obsessive restorer of the family's Victorian home, a third-generation funeral home director, a high school English teacher, an icily distant parent, and a closeted homosexual who, as it turns out, is involved with his male students and a family babysitter. Through narrative that is alternately heartbreaking and fiercely funny, we are drawn into a daughter's complex yearning for her father. And yet, apart from assigned stints dusting caskets at the family-owned fun home, as Alison and her brothers call it, the relationship achieves its most intimate expression through the shared code of books. When Alison comes out as homosexual herself in late adolescence, the denouement is swift, graphic -- and redemptive.
