Bioterrorism and Biocrimes W. Seth Carus, Center for Counterproliferation Research.2002 The working paper is divided into two main parts. The first part is a descriptive analysis of the illicit use of biological agents by criminals and terrorists. It draws on a series of case studies documented in the second part. The case studies describe every instance identifiable in open source materials in which a perpetrator used, acquired, or threatened to use a biological agent. While the inventory of cases is clearly incomplete, it provides an empirical basis for addressing a number of important questions relating to both biocrimes and bioterrorism. This material should enable policymakers concerned with bioterrorism to make more informed decisions. In the course of this project, the author has researched over 270 alleged cases involving biological agents. This includes all incidents found in open sources that allegedly occurred during the 20th Century. While the list is certainly not complete, it provides the most comprehensive existing unclassified coverage of instances of illicit use of biological agents.

Property and Freedom Bernard H. Siegan.1997-01-01 Over the past few years, a series of Supreme Court decisions has strengthened the legal protection of private property in the United States by limiting the power of state and local governments to impose zoning ordinances and land-use regulations on property owners. Bernard H. Siegan explores this new direction of the Supreme Court in *Property and Freedom: The Constitution, the Courts, and Land-Use Regulation*, arguing that this recent jurisprudence implements the objectives of the framers of the original Constitution, the Bill of Rights, and the Fourteenth Amendment. Discussing several key land-use cases, Siegan describes the emergence of a new standard of review for land-use regulations—a standard under which a regulation will be held to be constitutional only when it substantially advances state interests and does not deny an owner economically viable use of his land. This new standard is less demanding than the strict scrutiny test applied to laws limiting freedom of speech or of the press, but considerably more demanding than the standard previously applied in these cases. In elevating the protection of property rights, Siegan contends, the Supreme Court has implemented a fundamental rule of fairness: governments should not force individual property owners to bear the costs of regulations which are supposed to benefit the public. Siegan believes that the new standard of review for land-use regulations accords with the widely held view that the protection of property rights is essential to the viability of the state and the well-being of the people. He cites studies showing that economic regulations seriously limit a nation's productivity and standard of living, and that zoning and no-growth measures reduce housing opportunities and raise the price of housing. Understandably, Siegan notes, people with low and moderate incomes tend to vote against zoning regulations in local elections.

Plea Bargaining?! João Renato Borges Abreu.2023-06-27 A presente obra realizou o estudo de caso do debate legislativo em torno do Procedimento Abreviado pelo Acordo de Culpa - também conhecido como Acordo Penal. O intuito foi demonstrar se esse instituto jurídico, que comporia a justiça penal negociada no Brasil, seria a alternativa indicada para enfrentar o problema público do congestionamento do sistema de justiça criminal. A modalidade sugerida incluiria no ordenamento jurídico a possibilidade do réu, por meio do reconhecimento de culpa, abreviar o processo para imposição antecipada da sanção penal. A proposta legislativa foi apresentada mediante o Projeto de Lei no 882/2019, o qual ficou conhecido como Pacote de Lei Anticrime. A inclusão do artigo 395-A do Código de Processo Penal objetivava garantir a possibilidade de, após o recebimento da denúncia ou da queixa e até o início da instrução, o Ministério Público ou o querelante e o acusado, assistido por seu defensor, requerer, mediante acordo penal, a aplicação imediata das penas. Por fim, a obra mostra que o Acordo de Culpa se apresenta como um dos instrumentos de uma reforma capaz de minimizar problemas do Sistema de Justiça Criminal. Assim, o trabalho configura um estudo de análise de políticas públicas que consubstanciará a decisão política legislativa para a aprovação do Acordo de Culpa, com nova redação, no Novo Código de Processo Penal (em tramitação no Poder Legislativo).

Albion's Seed David Hackett Fischer.1991-03-14 This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are Albion's Seed, no matter what their ethnicity may be. The concluding section of this remarkable book explores

the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.
