Interculturality in Institutions Marilena Fatigante,Cristina Zucchermaglio,Francesca Alby.2022-11-24 This book provides qualitative analyses of intercultural sense making in a variety of institutional contexts. It relies on the assumption that in an increasingly culturally diverse world, individuals often enter contexts that have communal, historically determined and stable sets of values, norms and expected identities, with little cultural compass to find their bearings in them. The book goes beyond interpreting differences in people's ethnic or linguistic roots and discusses instead people's interpretive efforts to navigate different sociocultural situations. The contributors examine such situations in educational, organizational, medical and community settings and look at how participants with different levels of sociocultural competences (such as, migrant patients, migrant adult learners, children) try to cope with institutional constraints and expectations, how they understand symbols, practices and identities in institutional contexts, and how their creative adjustments come to light. This book provides insights from the fields of psychology, education, anthropology and linguistics, and is for a wide readership interested in cultural meaning-making.

TIP 35: Enhancing Motivation for Change in Substance Use Disorder Treatment (Updated 2019) U.S. Department of Health and Human Services.2019-11-19 Motivation is key to substance use behavior change. Counselors can support clients' movement toward positive changes in their substance use by identifying and enhancing motivation that already exists. Motivational approaches are based on the principles of person-centered counseling. Counselors' use of empathy, not authority and power, is key to enhancing clients' motivation to change. Clients are experts in their own recovery from SUDs. Counselors should engage them in collaborative partnerships. Ambivalence about change is normal. Resistance to change is an expression of ambivalence about change, not a client trait or characteristic. Confrontational approaches increase client resistance and discord in the counseling relationship. Motivational approaches explore ambivalence in a nonjudgmental and compassionate way.

Textos jurídicos marítimos medievales Margarita Serna Vallejo.2018-06-01 Esta obra, cuyo estudio ha sido realizado por Margarita Serna Vallejo, catedrática de Historia del Derecho de la Universidad de Cantabria, reúne los textos principales de nuestra tradición marítima, tanto atlántica como mediterránea, de la Baja Edad Media. El lector debe tener en cuenta que el derecho marítimo que se perfila a partir del tránsito de la Alta a la Baja Edad Media en las costas europeas es un derecho fundamentalmente consuetudinario porque fueron los propios navegantes quienes procedieron a su creación, englobando dentro del término navegante no solo a los individuos que tenían algún protagonismo en las actividades vinculadas directamente con el hecho de la navegación de las embarcaciones, con el arte de navegar en sentido estricto, sino también a los comerciantes que viajaban en los barcos con sus mercancías para poder negociarlas en los puertos de destino de las embarcaciones. Este derecho marítimo es de raíz consuetudinaria, sencillo, atécnico y transmitido oralmente, en cuya formación no intervino el poder público. No obstante, recibió, el apoyo de las autoridades, incluidas las propias monarquías, una vez que constataron la utilidad de sus disposiciones para ordenar el comercio marítimo. Así surgieron en la Corona de Aragón los consulados del mar con una doble personalidad: como corporaciones profesionales y como jurisdicciones, primero marítimas, y más tarde mercantiles, una vez que extendieron sus competencias sobre el comercio marítimo, pero también sobre el terrestre. En las costas cantábricas de la Corona de Castilla la aparición de los consulados se retrasó hasta la época moderna: solo el primer consulado, el de Burgos, se estableció en las postrimerías de la Baja Edad Media, en 1494.

How Learning Works Susan A. Ambrose,Michael W. Bridges,Michele DiPietro,Marsha C. Lovett,Marie K.

Norman.2010-04-16 Praise for How Learning Works How Learning Works is the perfect title for this excellent book. Drawing upon new research in psychology, education, and cognitive science, the authors have demystified a complex topic into clear

explanations of seven powerful learning principles. Full of great ideas and practical suggestions, all based on solid research evidence, this book is essential reading for instructors at all levels who wish to improve their students' learning. —Barbara Gross Davis, assistant vice chancellor for educational development, University of California, Berkeley, and author, *Tools for Teaching* This book is a must-read for every instructor, new or experienced. Although I have been teaching for almost thirty years, as I read this book I found myself resonating with many of its ideas, and I discovered new ways of thinking about teaching. —Eugenia T. Paulus, professor of chemistry, North Hennepin Community College, and 2008 U.S. Community Colleges Professor of the Year from The Carnegie Foundation for the Advancement of Teaching and the Council for Advancement and Support of Education Thank you Carnegie Mellon for making accessible what has previously been inaccessible to those of us who are not learning scientists. Your focus on the essence of learning combined with concrete examples of the daily challenges of teaching and clear tactical strategies for faculty to consider is a welcome work. I will recommend this book to all my colleagues. —Catherine M. Casserly, senior partner, The Carnegie Foundation for the Advancement of Teaching As you read about each of the seven basic learning principles in this book, you will find advice that is grounded in learning theory, based on research evidence, relevant to college teaching, and easy to understand. The authors have extensive knowledge and experience in applying the science of learning to college teaching, and they graciously share it with you in this organized and readable book. —From the Foreword by Richard E. Mayer, professor of psychology, University of California, Santa Barbara; coauthor, *e-Learning and the Science of Instruction*; and author, *Multimedia Learning*

Spirits of the Air Shepard Krech.2009 Before the massive environmental change wrought by the European colonization of the South, hundreds of species of birds filled the region's flyways in immeasurable numbers. Before disease, war, and displacement altered the South's earliest human landscape, Native Americans hunted and ate birds and made tools and weapons from their beaks, bones, and talons. More significant to Shepard Krech III, Indians adorned themselves with feathers, invoked avian powers in ceremonies and dances, and incorporated bird imagery on pottery, carvings, and jewelry. Krech, a renowned authority on Native American interactions with nature, reveals as never before the omnipresence of birds in Native American life. From the time of the earliest known renderings of winged creatures in stone and earthworks through the nineteenth century, when Native southerners took part in decimating bird species with highly valued, fashionable plumage, *Spirits of the Air* examines the complex and changeable influences of birds on the Native American worldview. We

learn of birds for which places and people were named; birds common in iconography and oral traditions; birds important in ritual and healing; and birds feared for their links to witches and other malevolent forces. Still other birds had no meaning for Native Americans. Krech shows us these invisible animals too, enriching our understanding of both the Indian-bird dynamic and the incredible diversity of winged life once found in the South. A crowning work drawing on Krech's distinguished career in anthropology and natural history, *Spirits of the Air* recovers vanished worlds and shows us our own anew.

The Voices of Suspense and Their Translation in Thrillers Susanne M. Cadera, Anita Pavic Pintaric.2014-03-05 The volume aims to be a reference work for all researchers interested in the study of fictional dialogue and its translation in suspense novels and films as well as in related genres. The volume also aims to determine the interplay between the creation of suspense and fictional dialogue. The particular interest in dialogue comes from the host of roles it plays in fiction. It helps create suspense and arouses a whole range of feelings in the reader or the audience related to the development of the plot. Fictional dialogue is the discursive method of evoking orality, conferring authenticity and credibility on a plot and giving fictional characters a voice. As a narrative strategy, dialogue is an important resource that enables the writer to shape the character's subjectivity. In thrillers the characters' voice is part of the process of creating suspense, an element of uncertainty, anxiety and excitement, which is not exclusive to this genre. To clearly differentiate suspense from the tension created by other types of fiction, this volume aims to study the relationship between the characters' voices and the building of suspense and to describe the translation difficulties arising from this particular interdependence.

The shipwreck of Santa Maria in Padovetere (Comacchio-Ferrara). Archaeology of a riverine barge of Late Roman period and of other recent finds of sewn boats Carlo Beltrame,Elisa Costa.2023-02-28 The 5th century AD barge of Santa Maria in Padovetere was discovered and investigated inside an ancient river, West of Comacchio. The place, which later hosted the parish of Santa Maria in Padovetere, is considered a strategic crossroads of Late Roman waterways. The anoxic conditions have well preserved the bottom and the entire right side. This extraordinary conservation, coupled with in situ digital documentation, has allowed the reconstruction in 3D of the entire shape of the shipwreck. It was a riverine flat bottom barge with a very high stern and a central long rudder according to a shipshape well documented by Central European Roman sculptures. Scientific analysis allowed to reconstruct the environment where it moved and to make hypotheses on the types of goods transported. This is a very rare example of an ancient riverine barge and an important evidence of the technique of construction by sewing. The book also presents other recent finds of this construction technique which, during the Roman period and the Early Middle Age, was used only in the Upper Adriatic.

L'impersonale. Si pensa, si sente, si crea Carlo Molinar Min,Giulio Piatti.2016-09-15 Il tema dell'impersonale costituisce il fulcro di un dibattito odierno forse sfuggente ma variamente presente in assi tematiche e ambiti di ricerca assai differenti. Si tratta, molto in generale, di un tentativo di rimettere in discussione la nozione di soggettività, antropologicamente circoscritta, per giungere a teorizzare una sorta di spazio impersonale, capace di fondare e articolare le linee dell'intero piano della realtà concretamente esperibile.
