Homo Narrans John D. Niles, 2010-08-03 It would be difficult to imagine what human life would be like without stories—from myths recited by Pueblo Indian healers in the kiva, ballads sung in Slovenian market squares, folktales and legends told by the fireside in Italy, to jokes told at a dinner table in Des Moines—for it is chiefly through storytelling that people possess a past. In *Homo Narrans* John D. Niles explores how human beings shape their world through the stories they tell. The book vividly weaves together the study of Anglo-Saxon literature and culture with the author's own engagements in the field with some of the greatest twentieth-century singers and storytellers in the Scottish tradition. Niles ponders the nature of the storytelling impulse, the social function of narrative, and the role of individual talent in oral tradition. His investigation of the poetics of oral narrative encompasses literary works, such as the epic poems and hymns of early Greece and the Anglo-Saxon *Beowulf*, texts that we know only through written versions but that are grounded in oral technique. That all forms of narrative, even the most sophisticated genres of contemporary fiction, have their ultimate origin in storytelling is a point that scarcely needs to be argued. Niles's claims here are more ambitious: that oral narrative is and has long been the chief basis of culture itself, that the need to tell stories is what distinguishes humans from all other living creatures.

**Saving the Text** Geoffrey H. Hartman, 1981 Distinguished critic and scholar Geoffrey Hartman explores the usefulness of Derrida's style of close reading for English and American scholarship and establishes its relevance to the division that has arisen between European and Anglo-American critical approaches. In addition, he discusses Derrida's exegesis in relation to theological commentary.

**The Green Marketing Manifesto** John Grant, 2009-08-11 We are currently eating, sleeping and breathing a new found religion of everything 'green'. At the very heart of responsibility is industry and commerce, with everyone now racing to create their 'environmental' business strategy. In line with this awareness, there is much discussion about the 'green

marketing opportunity' as a means of jumping on this bandwagon. We need to find a sustainable marketing that actually delivers on green objectives, not green theming. Marketers need to give up the many strategies and approaches that made sense in pure commercial terms but which are unsustainable. True green marketing must go beyond the ad models where everything is another excuse to make a brand look good; we need a green marketing that does good. The Green Marketing Manifesto provides a roadmap on how to organize green marketing effectively and sustainably. It offers a fresh start for green marketing, one that provides a practical and ingenious approach. The book offers many examples from companies and brands who are making headway in this difficult arena, such as Marks & Spencer, Sky, Virgin, Toyota, Tesco, O2 to give an indication of the potential of this route. John Grant creates a 'Green Matrix' as a tool for examining current practice and the practice that the future needs to embrace. This book is intended to assist marketers, by means of clear and practical guidance, through a complex transition towards meaningful green marketing. Includes a foreword by Jonathon Porritt.

**Teaching and Learning Outside the Box** Kieran Egan, Maureen Stout, Keiichi Takaya, 2007-04-29 Everyone knows that educational success is much more likely when students' imaginations and emotions are caught up in learning. While we have a rich educational literature about holding students' interest, we do not have very much sustained work on what the imagination is, how it works in learning, or how it may be inspired in the classroom. Addressing the whole curriculum, this book provides insights into each of those areas central to educational success. Engaging the imagination is sometimes seen in opposition to preparing students for testing, but scoring well on tests and being imaginatively active in learning are not mutually exclusive. When students' imaginations are engaged in learning their educational performance will improve by any test or measure. This book offers a new understanding of how knowledge grows in the mind and how our imagination works and changes during our lifetime. Knowledgeable authors describe innovative teaching methods based on these insights, which offer new ways of planning and teaching.

**The Experientiality of Narrative** Marco Caracciolo, 2014-07-28 Recent developments in cognitive narrative theory have called attention to readers' active participation in making sense of narrative. However, while most psychologically inspired models address interpreters' subpersonal (i.e., unconscious) responses, the experiential level of their engagement with narrative remains relatively undertheorized. Building on theories of experience and embodiment within today's second-generation cognitive science, and opening a dialogue with so-called enactivist philosophy, this book sets out to explore how narrative experiences arise from the interaction between textual cues and readers' past experiences. Caracciolo's study offers a phenomenologically inspired account of narrative, spanning a wide gamut of responses such as the embodied dynamic of imagining a fictional world, empathetic perspective-taking in relating to characters, and higher-order evaluations and interpretations. Only by placing a premium on how such modes of engagement are intertwined in experience, Caracciolo argues, can we do justice to narrative's psychological and existential impact on our lives. These insights are illustrated

through close readings of literary texts ranging from Émile Zola's *Germinal* to José Saramago's *Blindness*.

*Garmann's Secret Stian Hole*, 2011-12-16 Garmann makes friends with Johanna, the twin sister of the girl who torments him at school, when they discover that they both love adventures and talking about outer space.

**The History of Italy** Francesco Guicciardini, 2020-06-16 In 1537 Francesco Guicciardini, adviser and confidant to three popes, governor of several central Italian states, ambassador, administrator, military captain--and persona non grata with the ruling Medici after the siege of Florence--retired to his villa to write a history of his times. His *Storia d'Italia* became the classic history of Italy--both a brilliant portrayal of the Renaissance and a penetrating vision into the tragedy and comedy of human history in general. Sidney Alexander's readable translation and abridgment of Guicciardini's four-volume work earned the prestigious 1970 P.E.N. Club translation award. His perceptive introduction and notes add much to the understanding of Guicciardini's masterpiece.

**If You Want to See a Whale** Julie Fogliano, 2013-05-07 Advises the reader about what to do, and not do, in order to successfully spot a whale, such as wrapping up in a not-too-cozy blanket, ignoring the roses, and especially, being patient.

*The Liberation of Gabriel King* K. L. Going, 2007-03-01 Gabriel King was a born chicken. He's afraid of spiders, corpses, loose cows, and just about everything related to the fifth grade. Gabe's best friend, Frita Wilson, thinks Gabe needs some liberating from his fears. Frita knows something about being brave— she's the only black kid in school in a town with an active Ku Klux Klan. Together Gabe and Frita are going to spend the summer of 1976 facing down the fears on Gabe's list. But it turns out that Frita has her own list, and while she's helping Gabe confront his fears, she's avoiding the thing that scares her the most.

**Business Strategy for Sustainable Development** DIANE Publishing Company, 1994-07 Determines the role of bus. in SD and the market and profit opportunities it presents; defines the strategic choices available to bus. enterprises in relation to SD and the environment, the internat'l. usage of each strategy, and the determinants involved; assesses how managing for SD will require revisions to current mgmt. systems; explores in detail the stakeholder relations and corp. reporting aspects of the mgmt. system; and recommends action by gov't. , bus., and other parties that would encourage bus. enterprises to contribute more actively to global SD.

After treats, funny faces and other efforts fail, Vanessa begins to paint a glorious mural depicting the world of the sisters' imagination. Will it help lift Virginia from her doldrums?

*Handbook of Perinatal Clinical Psychology* Rosa Maria Quatraro, Pietro Grussu, 2020-03-26 The book examines the major issues in perinatal clinical psychology with the presence of theoretical information and operational indications, through a

biopsychosocial approach. The multiplicity of scientific information reported makes this book both a comprehensive overview on the major perinatal mental health disorders and illnesses, and a clinical guide. It covers perinatal clinical psychology through a journey of 15 chapters, putting the arguments on a solid theoretical basis and reporting multiple operational indications of great utility for daily clinical practice. It has well documented new evidence bases in the field of clinical psychology that have underpinned the conspicuous current global and national developments in perinatal mental health. As such, it is an excellent resource for researchers, policy makers, and practitioners - in fact, anyone and everyone who wishes to understand and rediscover, in a single opera, the current scientific and application scenario related to psychological health during pregnancy and after childbirth.

**Kafka's Other Trial** Elias Canetti, 1988-04-12 Felice Bauer was Kafka's first great love and the inspiration for his first great fiction. Six weeks after they met, he wrote *The Judgment* for her in one night of feverish activity. Kafka always inferred to the traumatic, public breaking-off of their engagement as his tribunal, and indeed he began work on *The Trial* within a month of that event. Kafka's letters to Felice offer rare insights into the writer's life and art. Elias Canetti's brilliant and sensitive examination of this moving correspondence to shows is the origins of Kafka's voice as a writer and his torment as a man.
