

Chicago Photographs The Magnificent Great Cities

Sam Landers, Tom Maday

Chicago Marilyn Soltis, 2001-02-08 Explore the beauty of the Windy City through photographs! From Wrigley Field to Lakeshore Drive and the Magnificent Mile, this volume contains more than 100 full-color photographs of sights throughout the Chicago area. Also includes informative captions and quotes from some of the city's most famous residents. The perfect souvenir for any lover of the great American city.

Historic Photos of Chicago, 2006-09-01 Historic Photos of Chicago captures the remarkable journey of the city of broad shoulders and its people through the historic photographs of the Chicago History Museum. From the Great Fire, to the rise of industry, through prohibition, World Wars and into the modern era, Chicago has remained a city of innovation and resilience. Captions and chapter headings are written by Russell Lewis, Chief Historian for Chicago History Museum. With hundreds of archival photos reproduced in stunning duotone on heavy art paper, this book is an essential addition to any collection of books in Chicago.

The City in a Garden Julia Sniderman Bachrach, 2001 Gardens, in the form of parks, grew hand in hand with the pioneer town of Chicago. Before the skyscrapers, or the expositions, Chicago's parks suggested a worldly sophistication not usually associated with a boomtown.

Chicago's Parks John Graf, 2000-07-10 No other city in the world has a park system as great as Chicago's, which includes over 550 parks totaling more than 7,000 acres. Each park has its own story, as well as unique characteristics and history, and yet the majority of Chicagoans are not aware of the wealth, variety, and sheer number of parks that exist, to say nothing of the ideas they project, the history they commemorate, and the origins of their names. Chicago's Parks: A Photographic History seeks to remedy this oversight. From Chicago's first park, Dearborn Park, to its more famous parks of Grant and Lincoln, this book provides a wealth of information concerning the origins of the names and plans of these Chicago landmarks. A formal plan for the creation of a park system was developed in 1869, and soon Chicago had some of the greatest parks to be found anywhere in the world. When Chicago was founded in 1837, the city's fathers adopted the motto *urbs in horto*, or "the city set in a garden." Despite the numerous changes that have taken place over the past 160 years, Chicago is still a city set in a garden. Chicago's Parks: A Photographic History captures the growth of that "garden" with its nearly 200 historic photographs.

City Spaces Bob Thall, Ross Miller, 2002-01 My history as a Chicagoan, my history as a photographer, the history of the city, and, in a small way, the history of photography - without any plan or anticipation, these photographs brought these histories together for me. City Spaces will be a welcome addition to those interested in fine art photography, architecture, Chicago, and the urban scene.--BOOK JACKET.

Portfolio: Chicago Jeffery C. Johnson, 2011-03-03 This book contains a selection of my photographic work in and around the city of Chicago. As a native Chicagoan and third generation photographer, it's my hope that the work in this book captures just a small slice of the elegant beauty and the raw energy that exists in this great city. Thank you for having a look at my work. ----- Jeff Johnson was born with photography in his blood. -WGN-TV News, Chicago A WGN-TV News story about Jeff and his family's 80 years of photographic work is available to view:

An unparalleled collection of images of our great city, a sampling of topics includes Lake Michigan, skyscrapers, Navy Pier, deep dish pizza, the Chicago River, Willis Tower, the Magnificent Mile, Millennium Park, blues music, boating, and the list goes on and on.

Chicago Best of Images of America Staff, 2000 A history of Chicago told through a collection of vintage photographs.

Chicago Richard Cahan, Michael Williams, 2017-05-09 Chicago has never had a photo book of its own. Until now. The city has produced some of the most important photographers of our time -- Harry Callahan, Aaron Siskind, Vivian Maier, Art Shay -- but has never before possessed a book packed with their most timeless work. This is the finest collection of its kind -- 100

stunning images by the city's most revered photographers that show the enduring and endearing aspects of Chicago and its landscape from the Loop to the city's vast array of neighborhoods. Richard Cahan and Michael Williams, the foremost picture editors of the city, curate the book. Here they have chosen photos going back more than a century to show a city that is both well-known and surprising. This is a book for people who love Chicago and for visitors who want something special to remember her by. It is filled with classic photographs that defy time -- timeless pictures of a changing city.

Richard Nickel's Chicago Richard Cahan, Michael F. Williams, 2006 Richard Nickel is an urban legend of sorts. He is remembered for his brave and lonely stand to protect Chicago's great architecture, and for his dramatic death in the rubble of the Stock Exchange Building. He is remembered, too, for the photographs he left behind. This is a book about one man's relationship with his city, a remarkably personal story told through compelling photographs. Richard Nickel's Chicago is for people who love the city, and for people all over the world who value city life.

Chicago in Focus Dream Town (Firm), 2010-12-21 Showing Chicago through the eyes of its people, the photographs in this book go beyond the major tourist destinations and exhibit a multifaceted celebration of what life is like in Chicago. Collected from public involvement in a photo competition, the results are as diverse and beautiful as the individuals who give the city its distinct and beloved personality. The 75 featured photographers are local residents, which provides different perspectives and types of photography, from portraits to landscapes to architecture, offering a unique compilation of memories, inspirations, expressions, and dreams.

Chicago, a Tale of Two Cities Jérôme De Perlinghi, 2021-10-15 A book of photographs shot in Chicago from 2011 to 2018 with a selection of 200 images. From Oak Park to Lake Michigan, from Evanston to the border with Indiana, this book represents over 15,000 miles of walks through the city. Two texts written by Thomas Thorp and Fabrice Rouselot will give the readers all the details they need about the project. It is important to show photographs that do question our vision and understanding of the world. Chicago is the third largest city in America, on the surface, one of the most pleasant. Yet, at the same time, the dualities of light and dark are ever more present. In this book I am the true outsider -no family ties like in Shanghai- trying to make sense of the world through the use of photography is the ultimate goal. By trying to be somewhat invisible, the street photographer wants to blend in the crowd, but like in any large city, tensions can rise -I am usually only a few feet away from my subjects. Surprisingly these tense moments are not with the people struggling to survive, rather with the high society and privileged, the people in charge. Though the streets belong to everyone and the moving scenes are for any photographer to grab, some would like to control the message. Making certain to cross the path of many, taking time to acknowledge and walking through the wards of the city, it is a tale of two Americas. Why are we so divided as a country and remote from each other? Can Chicago, A Tale of Two Cities encourage us to be more responsive to some of our existential questions in life?

Chicago, 2004 Rizzoli is proud to present its newest deluxe photography book. Photographer Santi Visalli, who has spent his career photographing cities across the United States, offers a city we knew was there but had not seen so clearly before in a panorama of extraordinary photographs taken over a 30-year period.

On City Streets Gary Stochl, 2005 City streets are perhaps the most paradoxically anonymous and personal of all public spaces in the city: people blindly collide in their rush to reach their destinations, while the homeless look for humanity amid the thousands passing by. Gary Stochl captures this daily drama in *On City Streets*, a penetrating examination of the unpredictable people, places, and events that make up the streets of downtown Chicago. It is a stunning collection made even more so by the fact that this is the first work of Stochl's to be seen in his forty years as a photographer. Until 2003, Stochl had never shown his photographs to anyone; his rich body of images remained completely unknown to the public. Self-taught and working in isolation, Stochl carefully studied the work of other renowned urban photographers, including Henri Cartier-Bresson and Robert Frank. Through his studies, he learned how to see his subjects, and he developed a visual language uniquely his own, unfettered by fashion or community. The results of his efforts are these powerful images that provide a starkly honest and penetrating glimpse into the lives of city dwellers and their internal struggle with the loneliness of contemporary urban life. Like all great images, Stochl's photographs leave the viewer with an altered sense of the world. *On City Streets* offers, with unnerving directness and consistency, that rare artistic combination of visual sophistication and stunning emotional resonance. With this book, Stochl joins the ranks of Chicago's great photographers.

At City's Edge Bob Thall, 2005 An iron-gray slate on a cold and blustery day, a respite from the summer heat, the engine of the city's notorious blizzards: Lake Michigan is an integral part of the landscape of Chicago. Bob Thall has been photographing the skyline and streets of Chicago for over thirty years, and here in *At City's Edge* he chronicles the twenty-five-mile shoreline where the asphalt meets the inland sea. Thall's stark yet rich images take viewers from the Evanston border on the North Shore down to 100th Street on the South Side, documenting the natural scenery, architectural structures, and people that populate the coastline. From the lakefront parks to summer beaches to the Air and Water Show, Chicago enfolds Lake Michigan into its urban character, but Thall's images make clear that the lake remains a dynamic and powerful force, with nature and civilization clashing at its rim. *At City's Edge* brings the lakefront to life in all its complexity, chronicling in its elegant visual sequence the sand-covered city beaches, the rock-studded shoreline, the running paths, and the buildings built along this unique intersection. Thall writes, Since the age of five or six, I've spent much of my life at the beach, not only in the summer, but throughout the year. I can't imagine my life in this city without Lake Michigan nearby. *At City's Edge* redefines the shores of Lake Michigan as a vital element in the urban landscape of Chicago and reveals the complex forces that shape the lakefront as one of Chicago's most public communal spaces.

Chicago Michael F. Williams, Richard Cahan, Bruce Moffat, 2007-01-01 For close to 150 years, photographers have

documented the construction of Chicago's public transportation system. They photographed the building of the city's famous L lines and subway tunnels. And they photographed the streetcars that glided through city streets. For the first time, these photos in the Chicago Transit Authority archive are available in *Chicago: City on the Move*. The book shows Chicago in a new light. It presents a history of the city through mass transportation. But this is not a book of nostalgia. Although the photos are decades old, the subject is very much alive. Take a trip on the Blue Geese, the Green Hornets and the Old Reds. This is your chance to see Chicago as it was and better understand Chicago as it is. This is a book for people who love transportation, who love photography and who love the city on the move. Two-hundred and fifty pictures in duotone.

Chicago Karina Wang, David Stockwell, 1993-06 A very up-to-date photographic look at Chicago's architectural heritage, including spectacular views of all the new award-winning buildings. Also touches on the contemporary restaurant & entertainment scene & the various festivals. Aimed at visitors who want to make the most of their stay. Much more than gorgeous pictures, it is a warmly personal trip through a great city. To order: call (708) 835-2941 or send order to: Photoscapes, 565 Drexel Ave., Glencoe, IL 60022.
