Lucie Rie, Sainsbury Centre for Visual Arts

Lucie Rie Emmanuel Cooper, 2022-01-25 The life and legacy of brilliant but elusive potter Lucie Rie is investigated through interviews, letters and the analysis of her elegant, modernist vessels Lucie Rie (1902-1995), one of the 20th century's most celebrated and iconic potters, combined an acute understanding of modernism with the skills of her chosen craft. Emmanuel Cooper, a distinguished potter who knew Rie, interviewed many of her friends and acquaintances to produce this complete and detailed account of Rie's life and work. The author was given unrestricted access by the Rie estate to previously unpublished letters and other material, which provide fascinating new insights into her life and work and allowed him to reevaluate Rie's creative output within the broader context of modernism and the emergence of the studio pottery movement in Britain. 'It [is] unlikely that this biography of Rie will ever be surpassed.' --Frances Spalding, Literary Review 'A precious gift, from the only man who could have written it.' --Glenn Adamson, Crafts Magazine

Modern Art and Publishing Between 1935 and 1955 Paul Mellon Centre for Studies in British Art (London), 2019 In autumn 2019, the Paul Mellon Centre will display highlights from the very large collection of books and exhibition catalogues that was generously donated by Peter and Renate Nahum. This gift was transformative for the Paul Mellon Centre's library collection, considerably enhancing our holdings on nineteenth- and twentieth-century British art. The donation comprises thousands of books, exhibition catalogues and journals. Contained within the Peter & Renate Nahum Gift are some of the most significant modernist periodicals and publications of this period - Unit One, Axis and the London Bulletin.--Paul Mellon Centre website.

Lucie Rie Tony Birks, 1987 A respected potter for over sixty years, Lucie Rie is the world's most distinguished ceramic artist. This new book tells the story of her life, her friendship with Bernard Leach and Hans Coper, and illustrates a wide range of work from tableware to specially commissioned pots. -Inside flap.

Ceramic, Art and Civilisation Paul Greenhalgh,2020-12-24 In his major new history, Paul Greenhalgh tells the story of ceramics as a story of human civilisation, from the Ancient Greeks to the present day. As a core craft technology, pottery has underpinned domesticity, business, religion, recreation, architecture, and art for millennia. Indeed, the history of ceramics parallels the development of human society. This fascinating and very human history traces the story of ceramic art and industry from the Ancient Greeks to the Romans and the medieval world; Islamic ceramic cultures and their influence on the Italian Renaissance; Chinese and European porcelain production; modernity and Art Nouveau; the rise of the studio potter, Art Deco, International Style and Mid-Century Modern, and finally, the contemporary explosion of ceramic making and the postmodern potter. Interwoven in this journey through time and place is the story of the pots themselves, the culture of the ceramics, and their character and meaning. Ceramics have had a presence in virtually every country and historical period, and have worked as a commodity servicing every social class. They are omnipresent: a ubiquitous art. Ceramic culture is a clear, unique, definable thing, and has an internal logic that holds it together through millennia. Hence ceramics is the most peculiar and extraordinary of all the arts. At once cheap, expensive, elite, plebeian, high-tech, low-tech, exotic, eccentric, comic, tragic, spiritual, and secular, it has revealed itself to be as fluid as the mud it is made from. Ceramics are the very stuff of how civilized life was, and is, led. This then is the story of human society's most surprising core causes and effects.

Beauty and Art Elizabeth Prettejohn, 2005-05-05 What do we mean when we call a work of art `beautiful`? How have artists responded to changing notions of the beautiful? Which works of art have been called beautiful, and why? Fundamental and intriguing questions to artists and art lovers, but ones that are all too often ignored in discussions of art today. Prettejohn argues that we simply cannot afford to ignore these questions. Charting over two hundred years of western art, she illuminates the vital relationship between our changing notions of beauty and specific works of art, from the works of Kauffman to Whistler, Ingres to Rossetti, Cézanne to Jackson Pollock, and concludes with a challenging question for the future: why should we care about beauty in the twenty-first century?

Art of the Twentieth Century Jason Gaiger, Paul Wood, 2004-03-11 This reader, a companion to The Open University's four-volume Art of the Twentieth Century series, offers a variety of writings by art historians and art theorists. The writings were originally published as freestanding essays or chapters in books, and they reflect the diversity of art historical interpretations and theoretical approaches to twentieth-century art. Accessible to the general reader, this book may be read independently or to supplement the materials explored in the four course texts. The volume includes a general introduction as well as a brief introduction to each piece, outlining its origin and relevance.

Ceramics and Modernity in Japan Meghan Jones, Louise Allison Cort, 2019-10-16 *Ceramics and Modernity in Japan* offers a set of critical perspectives on the creation, patronage, circulation, and preservation of ceramics during Japan's most dramatic period of modernization, the 1860s to 1960s. As in other parts of the world, ceramics in modern Japan developed along the three ontological trajectories of art, craft, and design. Yet, it is widely believed that no other modern nation was engaged with ceramics as much as Japan—a potter's paradise—in terms of creation, exhibition, and discourse. This book explores how Japanese ceramics came to achieve such a status and why they were such significant forms of cultural production. Its medium-specific focus encourages examination of issues regarding materials and practices unique to ceramics, including their distinct role throughout Japanese cultural history. Going beyond descriptive historical treatments of ceramics as the products of individuals or particular styles, the closely intertwined chapters also probe the relationship between ceramics

and modernity, including the ways in which ceramics in Japan were related to their counterparts in Asia and Europe. Featuring contributions by leading international specialists, this book will be useful to students and scholars of art history, design, and Japanese studies.

Musical Women in England, 1870-1914 NA NA, Paula Gillett, 2000-07-07 *Musical Women in England, 1870-1914* delineates the roles women played in the flourishing music world of late-Victorian and early twentieth-century England, and shows how contemporary challenges to restrictive gender roles inspired women to move into new areas of musical expression, both in composition and performance. The most famous women musicians were the internationally renowned stars of opera; greatly admired despite their violations of the prescribed Victorian linkage of female music-making with domesticity, the divas were often compared to the sirens of antiquity, their irresistible voices a source of moral danger to their male admirers. Their ambiguous social reception notwithstanding, the extraordinary ability and striking self-confidence of these women - and of pioneering female soloists on the violin, long an instrument permitted only to men - inspired fiction writers to feature musician heroines and motivated unprecedented numbers of girls and women to pursue advanced musical study. Finding professional orchestras almost fully closed to them, many female graduates of English conservatories performed in small ensembles and in all-female and amateur orchestras, and sought to earn their living in the overcrowded world of music teaching.
