Mary K. Greer

Deck of Stars Dr. Sara Webb,2023-09-05 Take the night sky home with this deck of cards that teaches you about the constellations. Across human cultures and history, we have looked up to the heavens and discovered the constellations, from Auriga to Cassiopeia and Cygnus to Lyra. Each cluster of stars has its own story, both mythic and scientific. With the Deck of Stars, you can learn about both. With 50 cards, this deck teaches you about the science behind each constellation, the lore that accompanies them, and how to spot these patterns of stars in the night sky. Space is full of magic, and these illustrated cards captures it in a beautiful box.

Half-Hours with the Stars: A Plain and Easy Guide to the Knowledge of the Constellations Richard Anthony Proctor,2020-09-28 Showing, in 12 maps, the position of the principal star-groups night after night throughout the year, with introduction and a separate explanation of each map. True for every year.--T.p.

Galactic Heritage Cards Lyssa Royal Holt,2013-04-02 The Galactic Heritage Cards were first introduced in Japan, where hundreds of Lyssa's students have since used them with profound results. USING THE CARDS: The overall concept of the cards is to explore the journey from unity to fragmentation/polarity and back to reintegration. Since each of us is part of the same one consciousness, this is a holographic journey that unifies us all. The card system uses the holographic concept that we are experiencing both unity and separation simultaneously. The components of the cards explore this journey in a variety of ways, including: SPECIES or STAR SYSTEM: Twenty-one different species or star systems are represented in the four suits (or time streams) of cards to symbolize the main archetypal groups who have influenced the development of our galactic family. THEME: Each card has a theme or lesson that is connected to the civilization it depicts. Contemplative text and deeper commentary are presented for each card to help users understand how to apply this wisdom in their current lives. ARTWORK: The architect of these cards, the multidimensional consciousness Germane channeled through Lyssa, also assisted Hong Kong artist David Cow in the channeling of the images. Contemplating the artwork allows more information and energy to be transmitted that goes beyond the text for each card. The art works deeply with the subconscious and adds a powerful dimension to the user's inner work with the cards. In addition to the individual card art, an underlying image spans all the cards when they're laid out on a grid with 18 cards per row. This image represents our journey back to integration, and thus each card carries an embedded energy of unity even within the uniqueness and separate journey of each card. When the final card was channeled, the total number was 108 -- a sacred number in many traditions that reflects the idea of wholeness and completion. GETTING STARTED: In the accompanying booklet we offer more information, the text and commentary for each card, and several recommended spreads to help you get started.

A Constellation of Vital Phenomena Anthony Marra,2013-05-16 *** Granta Best of Young American Novelists 2017 *** In a snow-covered village in Chechnya, eight-year-old Havaa watches from the woods as her father is abducted in the middle of the night by Russian soldiers. Their life-long friend and neighbour, Akhmed, has also been watching, and when he finds Havaa he knows of only one person who might be able to help. For tough-minded doctor Sonja Rabina, it's just another day of trying to keep her bombed-out, abandoned hospital going. When Akhmed arrives with Havaa, asking Sonja for shelter, she has no idea who the pair are. But over the course of five extraordinary days, Sonja's world will shift on its axis, revealing the intricate pattern of connections that binds these three unlikely companions together and unexpectedly decides their fate. 'A

Constellation of Vital Phenomena is simply spectacular' Ann Patchett

Symbolon Deck Peter Orban, Ingrid Zinnel, Thea Weller, 2004 The imagery of this unique 80-card deck helps the reader uncover memories from deep within the soul for profound personal insights. Unlike oracle decks, Symbolon is designed for summoning the past rather than diving the future. The cards, which depict historical scenes from European daily life as well as mythological stories, can be used in two different ways to explore memories of the past. The cards can be interpreted with a purely psychological approach, which does not require any knowledge of Astrology. Alternatively, Symbolon can be used a remembrance tool using Astrology. Each possible astrological constellation in the horoscopes is illustrated by the cards as an expression of deep, spiritual activity. The booklet describes each card with both the psychological and the astrological meaning. In addition, each card is interpreted by one of three positions in a spread: as the problem, the way through the problem, or as the outcome.

The Cards Patrick Maille, 2021-03-19 Tarot cards have been around since the Renaissance and have become increasingly popular in recent years, often due to their prevalence in popular culture. While Tarot means many different things to many different people, the cards somehow strike universal chords that can resonate through popular culture in the contexts of art, television, movies, even comic books. The symbolism within the cards, and the cards as symbols themselves, make Tarot an excellent device for the media of popular culture in numerous ways. They make horror movies scarier. They make paintings more provocative. They provide illustrative structure to comics and can establish the traits of television characters. *The Cards: The Evolution and Power of Tarot* begins with an extensive review of the history of Tarot from its roots as a game to its supposed connection to ancient Egyptian magic, through its place in secret societies, and to its current use in meditation and psychology. This section ends with an examination of the people who make up today's tarot community. Then, specific areas of popular culture—art, television, movies, and comics—are each given a chapter in which to survey the use of Tarot. In this section, author Patrick Maille analyzes such works as *Deadpool*, *Books of Magic* by Neil Gaiman, *Disney's Haunted Mansion*, *Sherlock Holmes: Game of Shadows*, *The Andy Griffith Show*, *Buffy the Vampire Slayer*, and *King of the Hill*. The cards are evocative images in their own right, but the mystical fascination they inspire makes them a fantastic tool to be used in our favorite shows and stories.

Constellations Govert Schilling, 2019-06-04 Perfect for stargazers and armchair astronomers of all ages, *CONSTELLATIONS* is a beautifully illustrated, fascinating guide to all 88 constellations, including an illustrated star map for each. In *CONSTELLATIONS*, award-winning astronomy writer Govert Schilling takes us on an unprecedented visual tour of all 88 constellations in our night sky. Much more than just a stargazer's guide, *CONSTELLATIONS* is complete history of astronomy as told by Schilling through the lens of each constellation. The book is organized alphabetically by constellation. Profiles of each constellation include basic information such as size, visibility, and number of stars, as well as information on

the discovery and naming of the constellation and associated lore. Beyond details about the constellation itself is information about every astronomical event that took place or discovery made in the vicinity of the constellation. In the constellation of Cygnus (the Swan) we encounter the location of the first confirmed black hole. A stop at Gemini (the Twins) is a chance to say hello to the dwarf planet Pluto, and in Orion (the hunter) we find the location of the first identified gamma-ray burst. Stunning star maps throughout the book by acclaimed star mapmaker Wil Tirion show us the exact location of every constellation, the details of its structure, as well as its surrounding astronomical neighbors.

The Circle of Knowledge: A Classified, Simplified, Visualized Book of Answers Various,2022-06-02 The Circle of Knowledge is an informative book that was designed in 1917, to be both inspiring and entertaining. The book represents the modern, progressive spirit which fits that time, in its forms of expression and its editorship. The purpose of this work is to answer the why, who, what, when, where, how of the wide majority of curious minds, both young and adult, and encourage them to raise further questions. Special measures were taken in creating this work to isolate essentials from non-essentials; to differentiate human interest subjects of universal significance from those of little concern; to deliver living truths instead of dead vocabulary; and finally, to bring the whole within the knowledge of the intermediate reader, without regard to age, in an acceptable and exciting form. The use of visual outlines and tables; maps, drawings, and diagrams; the illustrated works of great painters, sculptors, and architects all are used to give the reader the valuable and cultural knowledge of past and present.

Crystal Oversoul Attunements Michael Eastwood,2011-12-01 Designed for meditation and contemplation, this set of 44 beautiful cards and accompanying book explore in great depth the spiritual and metaphysical qualities of crystals and how to communicate with the part of the collective consciousness that the crystals represent. Each card is a photographic mandala featuring a different crystal that conveys messages directly into the consciousness of the viewer. The corresponding volume contains information about crystal healing and meditation practice. Together the cards and the book build a map, representing the shared spiritual and healing potential that these meditations can bring.

Night Sky Jonathan Poppele,2016-06-15 Stargazing is among the most peaceful and inspiring outdoor activities. Night Sky, the award-winning book by Jonathan Poppele, makes it more fun than ever! Take a simple approach to finding 62 constellations by focusing on one constellation at a time, instead of attempting to study dizzying charts. Start with the easy-to-find constellations during each season and work toward the more difficult ones. Better yet, you'll learn how to locate any constellation in relation to the Big Dipper, the North Star and the top of the sky. With two ways to locate each constellation, you'll know where in the sky to look and what to look for! Along the way, you'll be introduced to mythology, facts and tidbits,

as well as details about the planets, solar system and more! As an added bonus, the book comes with a red-light flashlight for night reading.
