F Daniel Kehlmann,2015-08-04 From the internationally acclaimed author of *Measuring the World*, here is a dazzling tragicomedy about the three sons of a lost father. Arthur Friedland is a wannabe writer who one day takes his sons to a performance by the Great Lindemann, Master of Hypnosis. Arthur declares himself immune to hypnosis and a disbeliever in magic. But the Great Lindemann knows better, and after he extracts Arthur's deepest secrets and tells him to make them real, Arthur empties the family bank account and vanishes. He goes on to become a world-famous author, a master of the mystical. (F is for fake.) But what of his abandoned boys? The painfully shy Martin grows up to be a priest without a vocation. (F is for faith, and lack of it.) Eric becomes a financier on the brink of ruin (F is for fraud), while Ivan, hoping for glory as a painter, instead becomes a forger. (F is for forgery, too.) During the summer before the global financial crisis, they are thrown together again with cataclysmic results. Wildly funny and heartbreaking, Daniel Kehlmann's novel about truth, family, and the terrible power of fortune is a fictional triumph.

Muslim Politics Dale F. Eickelman,James Piscatori,James P. Piscatori,2004-08-15 In this updated paperback edition, Dale Eickelman and James Piscatori explore how the politics of Islam play out in the lives of Muslims throughout the world. They discuss how recent events such as September 11 and the 2003 war in Iraq have contributed to reshaping the political and religious landscape of Muslim-majority countries and Muslim communities elsewhere. As they examine the role of women in public life and Islamic perspectives on modernization and free speech, the authors probe the diversity of the contemporary Islamic experience, suggesting general trends and challenging popular Western notions of Islam as a monolithic movement. In so doing, they clarify concepts such as tradition, authority, ethnicity, pro-test, and symbolic space, notions that are crucial to an in-depth understanding of ongoing political events. This book poses questions about ideological politics in a variety of

transnational and regional settings throughout the Muslim world. Europe and North America, for example, have become active Muslim centers, profoundly influencing trends in the Middle East, Africa, Central Asia, and South and Southeast Asia. The authors examine the long-term cultural and political implications of this transnational shift as an emerging generation of Muslims, often the products of secular schooling, begin to reshape politics and society--sometimes in defiance of state authorities. Scholars, mothers, government leaders, and musicians are a few of the protagonists who, invoking shared Islamic symbols, try to reconfigure the boundaries of civic debate and public life. These symbolic politics explain why political actions are recognizably Muslim, and why Islam makes a difference in determining the politics of a broad swath of the world.

Liquid Reign Karl-Heinz Hasliprinz, Tim Reutemann, 2018-05-06 Liquid Reign is a work of speculative fiction, imagining a fairly liveable future in 2051, neither dys- nor utopian. Melting the boundaries between science and fiction into a novel format, each chapter provides links to the sources of inspiration influencing it - ranging from Jean Jacques Rousseau's social contract of 1762 to blockchain startups from 2018. A vertiginous rollercoaster of ideas and a unique take on the future of (un)governance, delivered with irrepressible, unruly energy. - Jamie King of the Pirates, Host Steal this Show Tim Reutemann has become one of my favorite big brain boys over the past few months. In his book Liquid Reign he explores the future of democracy and civics in a way I have never seen done before... - TheBurgerkrieg, Edgy Youtuber Liquid Reign is a SciFi Novel about technology and our future and AI an all sorts of awesome shit and how it's gonna affect our world- Jarred PiG Krensel, Ex Pro-Starcraft Player and e-Sports commentator Wooow, what a reading experience - truly immersive! A world with liquid democracy, artificial intelligence, universal basic income and a limit on wealth accumulation. After you've read the book, you have a feeling of a possible future. - Raphel Fasko, Mastermind of the Circular Economy

English in Europe Manfred Görlach, 2002-05-23 English in Europe charts the English invasion of Europe since 1945. Sixteen distinguished European scholars report on the English words and phrases that have become integral parts of their languages. Each describes the effect of English on the host language, and shows how the process of incorporation often modifies pronunciation and spelling and frequently transforms meaning and use. The languages surveyed are Icelandic, Dutch, French, Spanish, Norwegian, German, Italian, Romanian, Polish, Croatian, Finnish, Albanian, Russian, Bulgarian, Hungarian, and Greek. The book is designed as a companion to A Dictionary of European Anglicisms but may be read as an independent work. This is the first systematic survey of a phenomenon that is fascinating, alarming, and apparently unstoppable.

Public Islam and the Common Good Armando Salvatore, Dale Eickelman, 2004-05-01 This book explores the public role of Islam in contemporary world politics. "Public Islam" refers to the diverse invocations and struggles over Islamic ideas and practices that increasingly influence the politics and social life of large parts of the globe. The contributors to this volume show how public Islam articulates competing notions and practices of the common good and a way of envisioning alternative

political and religious ideas and realities, reconfiguring established boundaries of civil and social life. Drawing on examples from the late Ottoman Empire, Africa, South Asia, Iran, and the Arab Middle East, this volume facilitates understanding the multiple ways in which the public sphere, a key concept in social thought, can be made transculturally feasible by encompassing the evolution of non-Western societies in which religion plays a vital role.

Knowledge and Power in Morocco Dale F. Eickelman,1992-08-30 This intensive social biography of a rural Moroccan judge discusses Islamic education, the concept of knowledge it embodies, and its communication from the early years of colonial rule in twentieth-century Morocco to the present. The work sensitively combines the outlooks and perceptions of the author and those of the shrewd and reflective `Abd ar-Rahman, supplementing our knowledge of resurgent militant Islamic movements by describing other popularly supported Islamic attitudes toward the contemporary world.
